(1) (Loss) Income Before Income Taxes Excluding Land-Related Charges and Intangible Impairments is a non-GAAP financial measure. See page 5 of this Annual Report for a reconciliation to (Loss) Income Before Income Taxes, the most directly comparable GAAP financial measure.

This summary should be read in conjunction with the related consolidated financial statements and accompanying notes included elsewhere in this Annual Report.

To our shareholders and associates

We began last year's letter to shareholders and associates by noting the considerable challenges posed by the housing climate we faced. As we write this year, the environment has become even more challenging. What began as a decline in the housing market has now become a widespread economic recession. No one can predict when the situation will improve.

As we continue to navigate through this unprecedented economic turmoil, Hovnanian can draw upon a unique asset: perspective. 2009 will mark our fiftieth anniversary in business. During the past half-century, we have weathered a number of economic cycles. And we have come through each of them by focusing on those enduring values that have been our inspiration from the beginning: a commitment to quality, a devotion to customer service and a dedication to building value for our shareholders, our associates and our communities. These values will continue to guide us as we work through and beyond the current downturn.

Financial review

The tough market we confronted during the past fiscal year is clearly reflected in our 2008 financial performance. For the second consecutive fiscal year we recorded a net loss. The net loss includes \$777 million of pre-tax charges related to inventory impairments and land option write-offs, goodwill impairments, intangible impairments and our portion of similar charges in unconsolidated joint ventures, as well as an additional \$410 million after-tax non-cash valuation allowance related to FAS 109. Our total revenues declined for the second year in a row to \$3.3 billion in fiscal 2008.

These are not encouraging results. However, we want all of our shareholders and associates to know that during fiscal 2008 we continued to position the Company to withstand the economic turmoil facing us. First and foremost, we are laser-focused on generating and preserving cash, even if it is at the expense of margins. We ended the fiscal year with \$838 million in homebuilding cash and have accomplished this in several ways. We are lowering prices on homes to remain competitive; shutting down communities that are not generating reasonable cash returns; dramatically curtailing new land acquisitions; reducing our inventory;

and lowering costs wherever possible. In addition, we turned to the capital markets in late spring to raise capital through a debt issue and a stock sale. The success of these transactions in an environment in which many companies can no longer tap the capital markets underscores the market's continued faith in our Company's long-term prospects.

Focused on quality

Operationally, we continued to focus on what we have always done best: building quality homes that meet the needs of a growing and always changing population. Our ongoing success in this area is reflected in an improvement in overall customer satisfaction, which we monitor very closely. Our ranking in virtually all J.D. Power and Associates surveys increased again this year. This is a clear testament to the dedication of our associates, who continue to delight our homeowners even in this tough market.

Also encouraging is the performance of our mortgage company and related financial services, which achieved a 75% mortgage capture rate in fiscal 2008. Our mortgage operation remains a solidly profitable division and an important source of stability in a volatile market.

Streamlining operations has been an important component of our near-term strategy. We have continued to take the painful but necessary step of reducing the number of associates. Many streamlining initiatives will not only see us through this difficult period but will enable us to become a more effective company when the market turns. During 2008, we achieved operational efficiencies, improved quality and lowered costs. Our focus on sales management processes and best practices has made us more competitive. Applying our national contract strategy of pricing leverage to regional markets has produced significant savings on the cost side. In addition, the implementation of scheduling tools and quality processes has produced cycle time efficiencies and improved the quality of our homes. We continue to look to new technologies to drive efficiency. During 2008, we also made excellent progress in implementing an integrated software system.

Positioned for recovery

Thanks in part to our fifty-year perspective on the housing industry, we understand that raising cash and streamlining operations are not enough to ensure long-term prosperity. We must continue to position the Company for growth when the market recovers. During 2008 we initiated several moves to accomplish this. For instance, we began the process of identifying and eventually teaming up with well-capitalized financial partners to opportunistically purchase and develop new properties that become available at historically low prices. While it is early in the cycle, we are carefully positioning ourselves to capitalize on opportunities when market conditions appear to be poised for recovery.

Perhaps our most important long-term move is to maintain our commitment to the strategies that have built our Company in the past. We continue to focus on geographic diversity. Our products are diversified across numerous segments. We are acknowledged leaders in active adult communities, which we expect will show above-average growth as America's population continues to age. These are the strategies that made our Company a leader in the industry, and they will serve us well as we head through this tough period into recovery.

What's more, the long-term prospects for our industry continue to offer reassurance. Households are expected to be formed at higher levels than previously experienced, as the nation's population is growing. Interest rates are at historic lows. The unfortunate demise of many smaller, less stable homebuilders means that the larger, better financed survivors will be in a position to gain market share during a recovery. Our government has taken steps to stabilize the capital markets and support financially challenged homeowners. To enhance the impact of this effort, we are working with our peers at the other large homebuilders and with the National Association of Homebuilders to develop a plan to help further stabilize the housing market and thus help to lead our economy out of the recession.

Inevitably, great challenges lie ahead. But if fifty years of homebuilding has taught us anything, it is that we are a resilient company in an industry that is closely aligned with the American dream—a dream that remains undiminished even during this very difficult period. This resilience is evident in our associates, who have not wavered in their commitment to building a great company for homeowners and shareholders. This has been a very demanding period for them and we would like to acknowledge their hard work and dedication.

We would also like to acknowledge the continued support of our shareholders and reaffirm our commitment to making the tough, forward-looking decisions that will position their Company for long-term success.

Kevork S. Hovnanian
Chairman of the Board

Ara K. Hovnanian
President and
Chief Executive Officer

DELIVERIES INCLUDE EXTRAS

Notes:

(1) Net contracts are defined as new contracts signed during the period for the purchase of homes, less cancellations of prior contracts.

Forward-Looking Statements:

All statements in this Annual Report that are not historical facts should be considered as "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Such risks, uncertainties and other factors include, but are not limited to, (1) changes in general and local economic and industry and business conditions, (2) adverse weather conditions and natural disasters, (3) changes in market conditions and seasonality of the Company's business, (4) changes in home prices and sales activity in the markets where the Company builds homes, (5) government regulation, including regulations concerning development of land, the home building, sales and customer financing processes, and the environment, (6) fluctuations in interest rates and the availability of mortgage financing, (7) shortages in, and price fluctuations of, raw materials and labor, (8) the availability and cost of suitable land and improved lots, (9) levels of competition, (10) availability of financing to the Company, (11) utility shortages and outages or rate fluctuations, (12) levels of indebtedness and restrictions on the Company's operations and activities imposed by the agreements governing the Company's outstanding indebtedness, (13) operations through joint ventures with third parties, (14) product liability litigation and warranty claims, (15) successful identification and integration of acquisitions, (16) significant influence of the Company's controlling stockholders, (17) geopolitical risks, terrorist acts and other acts of war and (18) other factors described in detail in the Company's Form 10-K for the year ended October 31, 2008, which is included in this Annual Report.

(1) (Loss) Income Before Income Taxes Excluding Land-Related Charges and Intangible Impairments is not a financial measure calculated in accordance with generally accepted accounting principals (GAAP). The most directly comparable GAAP financial measure is (Loss) Income Before Income Taxes. The reconciliation of (Loss) Income Before Income Taxes Excluding Land-Related Charges and Intangible Impairments to (Loss) Income Before Income Taxes is presented on page 5 of this Annual Report. (Loss) Income Before Income Taxes Excluding Land-Related Charges and Intangible Impairments should be considered in addition to, but not as a substitute for, (loss) income before income taxes, net (loss) income and other measures of financial performance prepared in accordance with GAAP that are presented on the financial statements included in the Company's reports filed with the Securities and Exchange Commission (SEC). Additionally, our calculation of (Loss) Income Before Income Taxes Excluding Land-Related Charges and Intangible Impairments may be different than the calculation used by other companies, and, therefore, comparability may be affected.

(2) Adjusted EBIT and Adjusted EBITDA are non-GAAP financial measures. The most directly comparable GAAP financial measure is Net (Loss) Income. The reconciliation of Adjusted EBIT and Adjusted EBITDA to Net (Loss) Income is presented on page 5 of this Annual Report. Adjusted EBIT and Adjusted EBITDA should be considered in addition to, but not as a substitute for, (loss) income before income taxes, net (loss) income, cash flow provided by (used in) operating activities and other measures of financial performance prepared in accordance with GAAP that are presented on the financial statements included in the Company's reports filed with the SEC. Because some analysts and companies may not calculate Adjusted EBIT and Adjusted EBITDA in the same manner as Hovnanian Enterprises, the Adjusted EBIT and Adjusted EBITDA information presented above may not be comparable to similar presentations by others.

(3) Debt excludes CMOs, mortgage warehouse debt and non-recourse debt and is net of cash balances. Calculated based on a five quarter average.

(4) Derived by dividing total home and land cost of sales by the two-year average homebuilding inventory, excluding inventory not owned.

(5) Excludes interest related to homes sold.

(6) Adjusted EBITDA Margin is derived by dividing Total Revenues by Adjusted EBITDA.

This summary should be read in conjunction with the related consolidated financial statements and accompanying notes included elsewhere in this Annual Report.

Part I

ITEM 1 BUSINESS

Business Overview

We design, construct, market and sell single-family detached homes, attached townhomes and condominiums, mid-rise and high-rise condominiums, urban infill and active adult homes in planned residential developments and are one of the nation's largest builders of residential homes. Founded in 1959 by Kevork Hovnanian, Hovnanian Enterprises, Inc. (the "Company", "we", "us" or "our") was incorporated in New Jersey in 1967 and reincorporated in Delaware in 1983. Since the incorporation of our predecessor company and including unconsolidated joint ventures, we have delivered in excess of 280,000 homes, including 11,281 homes in fiscal 2008. The Company consists of two distinct operations: homebuilding and financial services. Our homebuilding operations consist of six segments: Northeast, Mid-Atlantic, Midwest, Southeast, Southwest and West. Our financial services operations provide mortgage loans and title services to the customers of our homebuilding operations.

We are currently, excluding unconsolidated joint ventures, offering homes for sale in 284 communities in 44 markets in 18 states throughout the United States. We market and build homes for first-time buyers, first-time and second-time move-up buyers, luxury buyers, active adult buyers and empty nesters. We offer a variety of home styles at base prices ranging from \$36,000 (low income housing) to \$2,455,000 with an average sales price, including options, of \$300,000 nationwide in fiscal 2008.

Our operations span all significant aspects of the home-buying process – from design, construction and sale, to mortgage origination and title services.

The following is a summary of our growth history:

1959—Founded by Kevork Hovnanian as a New Jersey homebuilder.

1983—Completed initial public offering.

1986—Entered the North Carolina market through the investment in New Fortis Homes.

1992—Entered the greater Washington, D.C. market.

1994—Entered the Coastal Southern California market.

1998—Expanded in the greater Washington, D.C. market through the acquisition of P.C. Homes.

1999—Entered the Dallas, Texas market through our acquisition of Goodman Homes. Further diversified and strengthened our position as New Jersey's largest

homebuilder through the acquisition of Matzel & Mumford.

2001—Continued expansion in the greater Washington D.C. and North Carolina markets through the acquisition of Washington Homes. This acquisition further strengthened our operations in each of these markets.

2002—Entered the Central Valley market in Northern California and Inland Empire region of Southern California through the acquisition of Forecast Homes.

2003—Expanded operations in Texas and entered the Houston market through the acquisition of Parkside Homes and Brighton Homes. Entered the greater Ohio market through our acquisition of Summit Homes and entered the greater metro Phoenix market through our acquisition of Great Western Homes.

2004—Entered the greater Tampa, Florida market through the acquisition of Windward Homes, and started operations in the Minneapolis/St. Paul, Minnesota market.

2005—Entered the Orlando, Florida market through our acquisition of Cambridge Homes and entered the greater Chicago, Illinois market and expanded our position in Florida and Minnesota through the acquisition of the operations of Town & Country Homes, which occurred concurrently with our entering into a joint venture with affiliates of Blackstone Real Estate Advisors to own and develop Town & Country's existing residential communities. We also entered the Fort Myers market through the acquisition of First Home Builders of Florida, and the Cleveland, Ohio market through the acquisition of Oster Homes.

2006—Entered the coastal markets of South Carolina and Georgia through the acquisition of Craftbuilt Homes.

Geographic Breakdown of Markets by Segment

Hovnanian markets and builds homes that are constructed in 23 of the nation's top 50 housing markets. We segregate our homebuilding operations geographically into the following six segments:

Northeast: New Jersey, New York, Pennsylvania

Mid-Atlantic: Delaware, Maryland, Virginia, West Virginia, Washington, D.C.

Midwest: Illinois, Kentucky, Minnesota, Ohio

Southeast: Florida, Georgia, North Carolina, South Carolina

Southwest: Arizona, Texas

West: California

We employed approximately 2,816 full-time employees (which we refer to as associates) as of October 31, 2008.

Our Corporate offices are located at 110 West Front Street, P.O. Box 500, Red Bank, New Jersey 07701, our telephone number is (732)747-7800, and our Internet website address is www.khov.com. We make available through our website our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to these reports filed or furnished pursuant to Section 13(d) or 15(d) of the Exchange Act as soon as reasonably practicable after they are filed with, or furnished to, the SEC. Copies of the Company's Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to these reports are available free of charge upon request.

Business Strategies

Due to the progressive weakening of demand in our homebuilding markets over the past few years, we have experienced declines in revenues and gross profit, sustained significant asset impairment charges and incurred losses in fiscal 2007 and 2008. Although we believe the long-term fundamentals which support housing demand, namely population growth and household formation, remain solid and the current negative conditions will moderate over time, the timing of a recovery in the housing market is unclear. Consequently, our primary focus while market conditions are weak is to strengthen our financial condition by reducing inventories of homes and land, controlling and reducing construction and overhead costs, maximizing cash flows, reducing outstanding debt and maintaining strong liquidity.

In addition to our current focus on maintaining strong liquidity, we will continue to focus on our historic key business strategies. We believe that these strategies separate us from our competitors in the residential homebuilding industry and the adoption, implementation, and adherence to these principles will continue to improve our business, lead to higher profitability for our shareholders and give us a clear advantage over our competitors.

Our market concentration strategy is a key factor that enables us to achieve powers and economies of scale and differentiate ourselves from most of our competitors. Our goal is to become a significant builder in each of the selected markets in which we operate.

We offer a broad product array to provide housing to a wide range of customers. Our customers consist of first-time buyers, first-time and second-time move-up buyers, luxury buyers, active adult buyers and empty nesters. Our diverse product array includes single

family detached homes, attached townhomes and condominiums, mid-rise and high-rise condominiums, urban infill and active adult homes.

We are committed to customer satisfaction and quality in the homes that we build. We recognize that our future success rests in the ability to deliver quality homes to satisfied customers. We seek to expand our commitment to customer service through a variety of quality initiatives. In addition, our focus remains on attracting and developing quality associates. We use several leadership development and mentoring programs to identify key individuals and prepare them for positions of greater responsibility within our Company.

We focus on achieving high return on invested capital. Each new community, whether through organic growth or acquisition, is evaluated based on its ability to meet or exceed internal rate of return requirements. Our belief is that the best way to create lasting value for our shareholders is through a strong focus on return on invested capital. However, given current market conditions it has been difficult to find new land investments that meet or exceed these rate of return requirements. Therefore, we have focused on managing the balance sheet by selling through our currently owned inventory and conserving cash to be prepared to invest in new land when market conditions are right.

We utilize a risk averse land strategy. We attempt to acquire land with a minimum cash investment and negotiate takedown options, thereby limiting the financial exposure to the amounts invested in property and predevelopment costs. This policy significantly reduces our risk and generally allows us to obtain necessary development approvals before acquisition of the land.

We enter into homebuilding and land development joint ventures from time to time as a means of controlling lot positions, expanding our market opportunities, establishing strategic alliances, reducing our risk profile, leveraging our capital base and enhancing our returns on capital. Our homebuilding joint ventures are generally entered into with third party investors to develop land and construct homes that are sold directly to homebuyers. Our land development joint ventures include those with developers and other homebuilders as well as financial investors to develop finished lots for sale to the joint venture's members or other third parties. Our Hovnanian Land Investment Group ("HLIG"), a wholly owned subsidiary, identifies, acquires, and develops large land parcels for sale to our homebuilding operations or to other homebuilders. HLIG may acquire the property directly or via joint ventures.

We manage our financial services operations to better serve all of our homebuyers. Our current mortgage financing and title service operations enhance our contact with customers and allow us to coordinate the homebuying experience from beginning to end.

Operating Policies and Procedures

We attempt to reduce the effect of certain risks inherent in the housing industry through the following policies and procedures:

Training—Our training is designed to provide our associates with the knowledge, attitudes, skills and habits necessary to succeed at their jobs. Our Training Department regularly conducts training classes in sales, construction, administration, and managerial skills.

Land Acquisition, Planning and Development—Before entering into a contract to acquire land, we complete extensive comparative studies and analyses which assist us in evaluating the economic feasibility of such land acquisition. We generally follow a policy of acquiring options to purchase land for future community developments.

- We typically acquire land for future development principally through the use of land options which need not be exercised before the completion of the regulatory approval process. We attempt to structure these options with flexible take down schedules rather than with an obligation to take down the entire parcel upon receiving regulatory approval. Additionally, we purchase improved lots in certain markets by acquiring a small number of improved lots with an option on additional lots. This allows us to minimize the economic costs and risks of carrying a large land inventory, while maintaining our ability to commence new developments during favorable market periods.
- Our option and purchase agreements are typically subject to numerous conditions, including, but not limited to, our ability to obtain necessary governmental approvals for the proposed community. Generally, the deposit on the agreement will be returned to us if all approvals are not obtained, although predevelopment costs may not be recoverable. By paying an additional, nonrefundable deposit, we have the right to extend a significant number of our options for varying periods of time. In most instances, we have the right to cancel any of our land option agreements by forfeiture of our deposit on the agreement. In fiscal 2008 and 2007, rather than purchase additional lots in underperforming communities, we took advantage of this right and walked-away from 15,370 lots and 18,157 lots, respectively, out of

31,834 total lots and 54,261 total lots, respectively, under option, resulting in a pretax charge of \$114.1 million and \$126.0 million, respectively.

Design—Our residential communities are generally located in suburban areas easily accessible through public and personal transportation. Our communities are designed as neighborhoods that fit existing land characteristics. We strive to create diversity within the overall planned community by offering a mix of homes with differing architecture, textures and colors. Recreational amenities such as swimming pools, tennis courts, club houses, open areas and tot lots are frequently included.

Construction—We design and supervise the development and building of our communities. Our homes are constructed according to standardized prototypes which are designed and engineered to provide innovative product design while attempting to minimize costs of construction. We generally employ subcontractors for the installation of site improvements and construction of homes. However, we employ general contractors to manage the construction of most mid-rise or high-rise buildings. Agreements with subcontractors are generally short term and provide for a fixed price for labor and materials. We rigorously control costs through the use of computerized monitoring systems.

Because of the risks involved in speculative building, our general policy is to construct an attached condominium or townhouse building only after signing contracts for the sale of at least 50% of the homes in that building. For our mid-rise and high-rise buildings our general policy is to begin building after signing contracts for the sale of at least 40% of the homes in that building. A majority of our single family detached homes are constructed after the signing of a sales contract and mortgage approval has been obtained. This limits the build-up of inventory of unsold homes and the costs of maintaining and carrying that inventory.

Materials and Subcontractors—We attempt to maintain efficient operations by utilizing standardized materials available from a variety of sources. In addition, we generally contract with subcontractors to construct our homes. We have reduced construction and administrative costs by consolidating the number of vendors serving certain markets and by executing national purchasing contracts with select vendors. In most instances, we use general contractors for mid-rise and high-rise construction. In recent years, we have experienced no significant construction delays due to shortages of materials or labor, however, we cannot predict the extent to which shortages in necessary materials or labor may occur in the future.

Marketing and Sales—Our residential communities are sold principally through on-site sales offices. In order to respond to our customers' needs and trends in housing design, we rely upon our internal market research group to analyze information gathered from, among other sources, buyer profiles, exit interviews at model sites, focus groups and demographic data bases. We make use of newspaper, radio, television, internet advertisements, magazine, our website, billboard, video and direct mail advertising, special promotional events, illustrated brochures, and full-sized and scale model homes in our comprehensive marketing program. In addition, we have home design galleries in our New Jersey, Virginia, Maryland, Texas, North Carolina, Florida, Illinois, Ohio, and portions of our California markets, which offer a wide range of customer options to satisfy individual customer tastes. These galleries have increased option sales and profitability in these markets.

Customer Service and Quality Control—In many of our markets, associates are responsible for customer service and pre-closing quality control inspections as well as responding to post-closing customer needs. Prior to closing, each home is inspected and any necessary completion work is undertaken by us. Our homes are enrolled in a standard limited warranty program which, in general, provides a homebuyer with a one-year warranty for the home's materials and workmanship, a two-year warranty for the home's heating, cooling, ventilating, electrical and plumbing systems and a ten-year warranty for major structural defects. All of the warranties contain standard exceptions, including, but not limited to, damage caused by the customer.

Customer Financing— We sell our homes to customers who generally finance their purchases through mortgages. Our financial services segment provides our customers with competitive financing and coordinates and expedites the loan origination transaction through the steps of loan application, loan approval and closing and title services. We originate loans in New Jersey, New York, Pennsylvania, Delaware, Maryland, Washington, D.C., Virginia, West Virginia, North Carolina, South Carolina, Georgia, Texas, Arizona, Illinois, Ohio, Minnesota, Florida, and California. We believe that our ability to offer financing to customers on competitive terms as a part of the sales process is an important factor in completing sales.

During the year ended October 31, 2008, for the markets in which our mortgage subsidiaries originated loans, 9.0% of our homebuyers paid in cash and 74.9% of our non-cash homebuyers obtained mortgages from one of our mortgage banking subsidiaries. The loans we originated in fiscal 2008 were 35.5% FHA/VA, 7.7%

Alt-A, 52.6% prime, 0.3% broker sub-prime, 1.8% broker non-subprime and 2.1% construction to permanent.

We customarily sell virtually all of the loans and loan servicing rights that we originate within a short period of time. Loans are sold either individually or against forward commitments to institutional investors, including banks, mortgage banking firms, and savings and loan associations.

Code of Ethics—In almost 50 years of doing business, we have been committed to sustaining our shareholders' investment through conduct that is in accordance with the highest levels of integrity. Our Code of Ethics is a set of guidelines and policies that govern broad principles of ethical conduct and integrity embraced by our Company. Our Code of Ethics applies to our principal executive officer, principal financial officer, controller, and all other associates of our company, including our directors and other officers. The Company's Code of Ethics is available on the Company's website at www.khov.com under "Investor Relations/Governance/Code of Ethics".

Corporate Governance—We also remain committed to our shareholders in fostering sound corporate governance principles. The Company's "Corporate Governance Guidelines" assist the Board of Directors of the Company (the "Board") in fulfilling its responsibilities related to corporate governance conduct. These guidelines serve as a framework, addressing the function, structure, and operations of the Board, for purposes of promoting consistency of the Board's role in overseeing the work of management.

Residential Development Activities

Our residential development activities include site planning and engineering, obtaining environmental and other regulatory approvals and constructing roads, sewer, water and drainage facilities, recreational facilities and other amenities and marketing and selling homes. These activities are performed by our associates, together with independent architects, consultants and contractors. Our associates also carry out long-term planning of communities. A residential development generally includes single family detached homes and/or a number of residential buildings containing from two to twenty-four individual homes per building, together with amenities such as club houses, swimming pools, tennis courts, tot lots and open areas. We also develop mid-rise and high-rise buildings including some that contain over 300 homes per building.

Current base prices for our homes in contract backlog at October 31, 2008 range from \$36,000 (low income housing) to \$2,455,000 in the Northeast, from \$135,000 to \$1,404,000 in the Mid-Atlantic, from \$80,000 to \$667,000 in the Midwest, from \$139,000 to

\$551,000 in the Southeast, from \$88,000 to \$727,000 in the Southwest, and from \$136,000 to \$1,159,000 in the West. Closings generally occur and are typically reflected in revenues within eighteen months of when sales contracts are signed.

Information on homes delivered by segment for the year ended October 31, 2008 is set forth below:

(Housing Revenue in Thousands)	Housing Revenues	Homes Delivered	Average Price
Northeast	\$ 679,488	1,412	\$481,224
Mid-Atlantic	509,009	1,248	407,860
Midwest	209,759	965	217,367
Southeast	624,106	2,572	242,654
Southwest	603,513	2,616	230,701
West	551,978	1,764	312,913
Consolidated Total	\$3,177,853	10,577	\$300,449
Unconsolidated Joint Ventures	262,605	704	373,018
Total Including Unconsolidated Joint Ventures	\$3,440,458	11,281	\$304,978

The value of our net sales contracts, excluding unconsolidated joint ventures, decreased 48.4% to \$1.9 billion for the year ended October 31, 2008 from \$3.6 billion for the year ended October 31, 2007. This decrease was the result of a net 40.5% decrease in the number of homes contracted to 6,546 in 2008 from 11,006 in 2007, as well as increased incentives or base price reductions as the homebuilding market weakened further in 2008.

Information on the value of net sales contracts by segment for the years ended October 31, 2008 and 2007 is set forth below:

(Value of Net Sales Contracts in Thousands)	2008	2007	% Change
Northeast	\$ 381,401	\$ 802,459	52.5%
Mid-Atlantic	313,405	677,581	53.8%
Midwest	106,887	248,744	57.0%
Southeast	132,245	312,070	57.6%
Southwest	518,565	758,340	31.6%
West	421,292	833,986	49.5%
Consolidated Total	\$1,873,795	\$3,633,180	48.4%

As the homebuilding market and the economy as a whole have continued to weaken this year, the number of homes contracted has decreased in all of our segments by 32% or more. In addition, these weaker conditions have resulted in lower average prices in all segments except the Southwest, where the average prices are up 1.4%. This combination of lower net contracts and lower average prices has resulted in 48.4% lower value of net sales contracts.

The following table summarizes our active selling communities under development as of October 31, 2008. The contracted not delivered and remaining homes available in our active selling communities are included in the consolidated total home sites under the total residential real estate chart in Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations".

Active Selling Communities

	Communities	Approved Homes	Homes Delivered	Contracted Not Delivered(1)	Remaining Homes Available(2)
Northeast	31	7,965	5,269	495	2,201
Mid-Atlantic	48	10,231	5,568	385	4,278
Midwest	26	4,113	1,573	291	2,249
Southeast	32	10,079	7,180	163	2,736
Southwest	111	17,944	11,298	420	6,226
West	36	11,518	7,355	134	4,029
Total	284	61,850	38,243	1,888	21,719

(1) Includes 139 home sites under option.

(2) Of the total remaining homes available, 1,596 were under construction or completed (including 321 models and sales offices), 9,897 were under option, and 229 were financed through purchase money mortgages.

Backlog

At October 31, 2008 and October 31, 2007, including unconsolidated joint ventures, we had a backlog of signed contracts for 2,170 homes and 6,365 homes, respectively, with sales values aggregating \$0.8 billion and \$2.2 billion, respectively. The majority of our backlog at October 31, 2008 is expected to be completed and closed within the next twelve months. At November 30, 2008 and 2007, our backlog of signed contracts, including unconsolidated joint ventures, was 2,097 homes and 6,036 homes, respectively, with sales values aggregating \$0.8 billion and \$2.1 billion, respectively.

Sales of our homes typically are made pursuant to a standard sales contract that provides the customer with a statutorily mandated right of rescission for a period ranging up to 15 days after execution. This contract requires a nominal customer deposit at the time of signing. In addition, in the Northeast, Mid-Atlantic and some sections of the Southeast we typically obtain an additional 5% to 10% down payment due 30 to 60 days after signing. The contract may include a financing contingency, which permits the customers to cancel their obligation in the event mortgage financing at prevailing interest rates (including financing arranged or provided by us) is unobtainable within the period specified in the contract. This contingency period typically is four to eight weeks following the date of execution. As housing values decline in certain markets

some customers cancel their contracts and forfeit their deposits. Cancellation rates are discussed further in Item 7 "Managements' Discussion and Analysis of Financial Condition and Results of Operation". Sales contracts are included in backlog once the sales contract is signed by the customer, which in some cases includes contracts that are in the rescission or cancellation periods. However, revenues from sales of homes are recognized in the Consolidated Statement of Operations, in accordance with generally accepted accounting principles, when title to the home is conveyed to the buyer, adequate initial and continuing investment have been received and there is no continued involvement.

Residential Land Inventory in Planning

It is our objective to control a supply of land, primarily through options, consistent with anticipated homebuilding requirements in each of our housing markets. Controlled land as of October 31, 2008, exclusive of communities under development described above under "Active Selling Communities" and excluding unconsolidated joint ventures, is summarized in the following table. The proposed developable home sites in communities under development are included in the 40,095 consolidated total home sites under the total residential real estate chart in Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations".

Communities in Planning

(Dollars in Thousands)	Number of Proposed Communities	Proposed Developable Home Sites	Total Land Option Price	Book Value(2)

Owned	83	10,060		577,339
Combined Total	132	16,488		\$647,235

(1) Properties under option also include costs incurred on properties not under option but which are under evaluation. For properties under option, as of October 31, 2008, option fees and deposits aggregated approximately \$13.3 million. As of October 31, 2008, we spent an additional \$56.6 million in non-refundable predevelopment costs on such properties.

(2) The book value of \$647.2 million is identified on the balance sheet as "Inventories—land and land options held for future development or sale". The book value includes \$1.3 million for specific performance options, \$0.1 million for deposits on variable interest entity property and \$1.7 million for other options reported under "Consolidated inventory not owned".

We either option or acquire improved or unimproved home sites from land developers or other sellers. Under a typical agreement with the land developer, we purchase a minimal number of home sites. The balance of the home sites to be purchased is covered under an option agreement or a non-recourse purchase agreement. Due to the dwindling supply of improved lots in our segments, we have been increasing the percentage of optioned parcels of unimproved land for development as compared to owned land.

For additional financial information regarding our homebuilding segments, see Note 10 to the Consolidated Financial Statements.

Competition

Our homebuilding operations are highly competitive. We are among the top ten homebuilders in the United States in both homebuilding revenues and home deliveries. We compete with numerous real estate developers in each of the geographic areas in which we operate. Our competition ranges from small local builders to larger regional builders to publicly owned builders and developers, some of which have greater sales and financial resources than we do. Previously owned homes and the availability of rental housing provide additional competition. We compete primarily on the basis of reputation, price, location, design, quality, service and amenities.

Regulation and Environmental Matters

We are subject to various local, state and federal statutes, ordinances, rules and regulations concerning zoning, building design, construction and similar matters, including local regulations which impose restrictive zoning and density requirements in order to limit the number of homes that can eventually be built within the boundaries of a particular locality. In addition, we are subject to registration and filing requirements in connection with the construction, advertisement and sale of our communities in certain states and localities in which we operate even if all necessary government approvals have been obtained. We may also be subject to periodic delays or may be precluded entirely from developing communities due to building moratoriums that could be implemented in the future in the states in which we operate. Generally, such moratoriums relate to insufficient water or sewerage facilities or inadequate road capacity.

In addition, some state and local governments in markets where we operate have approved, and others may approve, slow growth or no growth initiatives that could negatively impact the availability of land and building opportunities within those areas. Approval of these initiatives could adversely affect our ability to build and sell homes in the affected markets and/or could require the satisfaction of additional administrative and regulatory requirements, which could result in slowing the progress or increasing the costs of our homebuilding operations in these markets. Any such delays or costs could have a negative effect on our future revenues and earnings.

We are also subject to a variety of local, state, federal and foreign laws and regulations concerning protection of health and the environment ("environmental laws"). The particular environmental laws which apply to any given community vary greatly according to the community site, the site's environmental conditions and the present and former uses of the site. These environmental laws may result in delays, may cause us to incur substantial compliance, remediation and/or other costs, and prohibit or severely restrict development and homebuilding activity.

Despite our past ability to obtain necessary permits and approvals for our communities, we anticipate that increasingly stringent requirements will be imposed on developers and homebuilders in the future. Although we cannot predict the effect of these requirements, they could result in time-consuming and expensive compliance programs and in substantial expenditures, which could cause delays and increase our cost of operations. In addition, the continued effectiveness of permits already granted or approvals already obtained is dependent upon many factors, some of which are beyond our control, such as changes in policies, rules

and regulations and their interpretation and application.

ITEM 1A RISK FACTORS

You should carefully consider the following risks in addition to the other information included in this Form 10-K.

The homebuilding industry is significantly affected by changes in general and local economic conditions, real estate markets and weather conditions, which could affect our ability to build homes at prices our customers are willing or able to pay, could reduce profits that may not be recaptured, could result in cancellation of sales contracts and could affect our liquidity.

The homebuilding industry is cyclical, has from time to time experienced significant difficulties and is significantly affected by changes in general and local economic conditions such as:

- employment levels and job growth;
- availability of financing for home buyers;
- interest rates;
- foreclosure rates;
- inflation;
- adverse changes in tax laws;
- consumer confidence;
- housing demand; and
- population growth.

Turmoil in the financial markets could affect our liquidity. In addition, our cash balances are held at numerous financial institutions and may, at times, exceed insurable amounts. We believe we help to mitigate this risk by depositing our cash in major financial institutions and diversifying our investments. We also depend upon the lenders under our Revolving Credit Agreement to be able to perform under their commitments. If one or more of our lenders default on their funding obligations, the other lenders are not obligated to make up the shortfall, which would reduce our available liquidity. In addition, it may be difficult to find a bank willing to issue a letter of credit under our Revolving Credit Agreement in such a circumstance.

Weather conditions and natural disasters such as hurricanes, tornadoes, earthquakes, floods and fires can harm the local homebuilding business. Our business in Florida was adversely affected in late 2005 and into 2006 due to the impact of Hurricane Wilma on materials and labor availability and pricing. Conversely, Hurricane Ike, which hit Houston in September 2008, did not have an impact on materials and labor

availability or pricing, but did impact the volume of home sales in subsequent weeks.

The difficulties described above could cause us to take longer and incur more costs to build our homes. We may not be able to recapture increased costs by raising prices in many cases because we fix our prices up to twelve months in advance of delivery by signing home sales contracts. In addition, some home buyers may cancel or not honor their home sales contracts altogether.

The homebuilding industry is undergoing a significant and sustained downturn which has, and could continue to, materially and adversely affect our business, liquidity and results of operations.

The homebuilding industry is now experiencing a significant and sustained downturn. An industry-wide softening of demand for new homes has resulted from a lack of consumer confidence, decreased housing affordability, decreased availability of mortgage financing, and large supplies of resale and new home inventories. In addition, an oversupply of alternatives to new homes, such as rental properties, resale homes and foreclosures, has depressed prices and reduced margins for the sale of new homes. Industry conditions had a material adverse effect on our business and results of operations during fiscal years 2008 and 2007. For example, we are continuing to experience significant declines in sales, significant reductions in our margins and higher cancellations. Further, we substantially increased our inventory through fiscal 2006, which required significant cash outlays and which has increased our price and margin exposure as we continue to work through this inventory. In addition, general economic conditions in the U.S. continue to weaken. Market volatility has been unprecedented and extraordinary in recent months, and the resulting economic turmoil may continue to exacerbate industry conditions or have other unforeseen consequences, leading to uncertainty about future conditions in the homebuilding industry. There can be no assurances that government responses to the disruptions in the financial markets will restore consumer confidence, stabilize the markets or increase liquidity and the availability of credit. Continuation or worsening of this downturn or general economic conditions would continue to have a material adverse effect on our business, liquidity and results of operations.

Leverage places burdens on our ability to comply with the terms of our indebtedness, may restrict our ability to operate, may prevent us from fulfilling our obligations and may adversely affect our financial condition.

We have a significant amount of debt. On a pro forma basis to give effect to the exchange offer (the "Exchange Offer") in which we issued \$29.3 million

aggregate principal amount of 18.0% Senior Secured Notes due 2017 in exchange for certain of our unsecured senior notes aggregating \$71.4 million on December 3, 2008 (for more details about the Exchange Offer see Note 23 to the Consolidated Financial Statements):

- our debt, as of October 31, 2008, including the debt of the subsidiaries that guarantee our debt, would have been \$2,472.9 million (\$2,463.7 million net of discount);
- as of October 31, 2008, the aggregate outstanding face amount of letters of credit under our Revolving Credit Agreement would have been \$197.5 million and we would have had no outstanding revolving loans (unchanged from the actual amount); and
- our debt service payments for the 12-month period ended October 31, 2008, which include interest incurred and mandatory principal payments on our corporate debt under the terms of our indentures (but which do not include principal and interest on non-recourse secured debt and debt of our financial subsidiaries), would have been approximately \$168.4 million.

In addition, we had substantial contractual commitments and contingent obligations, including \$632.5 million of performance bonds as of October 31, 2008. See Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations—Contractual Obligations".

Our significant amount of debt could have important consequences. For example, it could:

- limit our ability to obtain future financing for working capital, capital expenditures, acquisitions, debt service requirements or other requirements;
- require us to dedicate a substantial portion of our cash flow from operations to the payment of our debt and reduce our ability to use our cash flow for other purposes;
- limit our flexibility in planning for, or reacting to, changes in our business;
- place us at a competitive disadvantage because we have more debt than some of our competitors; and
- make us more vulnerable to downturns in our business and general economic conditions.

Our ability to meet our debt service and other obligations will depend upon our future performance. We are engaged in businesses that are substantially affected by changes in economic cycles. Our revenues

and earnings vary with the level of general economic activity in the markets we serve. Our businesses are also affected by customer sentiment and financial, political, business and other factors, many of which are beyond our control. The factors that affect our ability to generate cash can also affect our ability to raise additional funds for these purposes through the sale of equity securities, the refinancing of debt, or the sale of assets. Changes in prevailing interest rates may affect our ability to meet our debt service obligations, because borrowings under our Revolving Credit Agreement bear interest at floating rates. A higher interest rate on our debt service obligations could result in lower earnings.

Our business may not generate sufficient cash flow from operations and borrowings may not be available to us under our Revolving Credit Agreement in an amount sufficient to enable us to pay our indebtedness or to fund our other liquidity needs. Under the \$300 million Revolving Credit Agreement, the amount available for revolving loans is limited to \$100 million, with the remaining amounts available (subject to the borrowing base) for the issuance of letters of credit. We may need to refinance all or a portion of our debt on or before maturity, which we may not be able to do on favorable terms or at all.

Restrictive covenants in our debt instruments may restrict our ability to operate and if our financial performance worsens, we may not be able to maintain compliance with the financial covenants of our debt instruments.

The indentures governing our outstanding debt securities and our Revolving Credit Agreement impose restrictions on our operations and activities. The most significant restrictions relate to debt incurrence, sales of assets, cash distributions, including paying dividends on common and preferred stock, capital stock and debt repurchases, and investments by us and certain of our subsidiaries. The covenants in our Revolving Credit Agreement also include a borrowing base covenant and a covenant requiring either a minimum operating cash flow coverage ratio or minimum liquidity as of the last day of each fiscal quarter but do not contain any other financial covenants. Our level of home deliveries, amount of impairments and other financial performance factors negatively impacted the borrowing base and financial covenants under the Revolving Credit Agreement prior to its amendment in May 2008, and there can be no assurance that we will not violate the financial or other covenants under our debt instruments in the future or that the amount available under our Revolving Credit Agreement would not be reduced.

In addition, as a result of the restrictions in our indentures, which would require our fixed charge coverage ratio to be at least 2.0 to 1.0, we are

currently restricted from paying dividends on our Series A Preferred Stock. If current market trends continue or worsen, we will continue to be restricted from paying dividends into fiscal 2009 and possibly beyond.

If we fail to comply with any of the restrictions or covenants of our debt instruments, and are unable to amend the instrument or obtain a waiver, or make timely payments on this debt and other material indebtedness, we could be precluded from incurring additional borrowings under our Revolving Credit Agreement and the trustees or the banks, as appropriate, could cause our debt to become due and payable prior to maturity. In such a situation, there can be no assurance that we would be able to obtain alternative financing. In addition, if we are in default of these agreements, we may be prohibited from drawing additional funds under the Revolving Credit Agreement, which could impair our ability to maintain sufficient working capital. Either situation could have a material adverse effect on the solvency of the Company.

The terms of our debt instruments allow us to incur additional indebtedness.

Under the terms of our indebtedness under our indentures and under the Revolving Credit Agreement, we have the ability, subject to our debt covenants, to incur additional amounts of debt. The incurrence of additional indebtedness could magnify the risks described above. In addition, certain obligations such as standby letters of credit and performance bonds issued in the ordinary course of business are not considered indebtedness under our indentures (and may be secured) and therefore are not subject to limits in our debt covenants.

We could be adversely affected by a negative change in our credit rating.

Our ability to access capital on favorable terms is a key factor in continuing to grow our business and operations in a profitable manner. On March 26, 2008, Moody's lowered our overall credit rating to B3 from B2 and maintained its negative outlook. On February 2, 2008, S&P lowered our credit rating to B- from B+ and maintained its negative outlook. On January 18, 2008, Fitch lowered the Company's issuer default rating to B- from BB- and placed the Company on negative rating outlook. These downgrades may make it more difficult and costly for us to access capital. A further downgrade by any of the principal credit agencies may exacerbate these difficulties.

Our business is seasonal in nature and our quarterly operating results can fluctuate.

Our quarterly operating results generally fluctuate by season. Historically, a large percentage of our agreements of sale have been entered into in the

winter and spring. The construction of a customer's home typically begins after signing the agreement of sale and can take 12 months or more to complete. Weather-related problems, typically in the late winter and early spring, can delay starts or closings and increase costs and thus reduce profitability. In addition, delays in opening communities could have an adverse impact on our sales and revenues. Due to these factors, our quarterly operating results may continue to fluctuate.

Our success depends on the availability of suitable undeveloped land and improved lots at acceptable prices.

Our success in developing land and in building and selling homes depends in part upon the continued availability of suitable undeveloped land and improved lots at acceptable prices. The availability of undeveloped land and improved lots for purchase at favorable prices depends on a number of factors outside of our control, including the risk of competitive over-bidding on land and lots and restrictive governmental regulation. Should suitable land opportunities become less available, the number of homes we may be able to build and sell would be reduced, which would reduce revenue and profits.

Raw material and labor shortages and price fluctuations could delay or increase the cost of home construction and adversely affect our operating results.

The homebuilding industry has from time to time experienced raw material and labor shortages. In particular, shortages and fluctuations in the price of lumber or in other important raw materials could result in delays in the start or completion of, or increase the cost of, developing one or more of our residential communities. In addition, we contract with subcontractors to construct our homes. Therefore, the timing and quality of our construction depends on the availability, skill and cost of our subcontractors. Delays or cost increases caused by shortages and price fluctuations could harm our operating results, the impact of which may be further affected depending on our ability to raise sales prices.

Changes in economic and market conditions could result in the sale of homes at a loss or holding land in inventory longer than planned, the cost of which can be significant.

Land inventory risk can be substantial for homebuilders. We must continuously seek and make acquisitions of land for expansion into new markets

and for replacement and expansion of land inventory within our current markets. The market value of undeveloped land, buildable lots and housing inventories can fluctuate significantly as a result of changing economic and market conditions. In the event of significant changes in economic or market conditions, we may have to sell homes at a loss or hold land in inventory longer than planned. In the case of land options, we could choose not to exercise them, in which case we would write off the value of these options. Inventory carrying costs can be significant and can result in losses in a poorly performing project or market. The assessment of communities for indication of impairment is performed quarterly. While we consider available information to determine what we believe to be our best estimates as of the reporting period, these estimates are subject to change in future reporting periods as facts and circumstances change. See "Critical Accounting Policies." For example, during 2008 and 2007 we decided not to exercise many option contracts and walked away from land option deposits and predevelopment costs, which resulted in land option write-offs of \$114.1 million and \$126.0 million, respectively. Also, in 2008 and 2007, as a result of the slowing market, we recorded inventory impairment losses on owned property of \$596.0 million and \$331.8 million, respectively. If market conditions continue to worsen, additional inventory impairment losses and land option write-offs will likely be necessary.

Home prices and sales activities in the California, New Jersey, Texas, Virginia, Maryland, Florida and Arizona markets have a large impact on our profitability because we conduct a significant portion of our business in these markets.

We presently conduct a significant portion of our business in the California, New Jersey, Texas, Virginia, Maryland, Florida and Arizona markets. Home prices and sales activities in these markets, and in most of the other markets in which we operate, have declined from time to time, particularly as a result of slow economic growth. In particular, Arizona, California, Florida, New Jersey, Virginia and Maryland have declined significantly since the end of 2006. Furthermore, precarious economic and budget situations at the state government level may adversely affect the market for our homes in those affected areas. If home prices and sales activity decline in one or more of the markets in which we operate, our costs may not decline at all or at the same rate and profits may be reduced.

Because almost all of our customers require mortgage financing, increases in interest rates or the decreased availability of mortgage financing could impair the affordability of our homes, lower demand for our products, limit our marketing effectiveness, and limit our ability to fully realize our backlog.

Virtually all of our customers finance their acquisitions through lenders providing mortgage financing. Increases in interest rates or decreases in availability of mortgage financing could lower demand for new homes because of the increased monthly mortgage costs to potential home buyers. Even if potential customers do not need financing, changes in interest rates and mortgage availability could make it harder for them to sell their existing homes to potential buyers who need financing. This could prevent or limit our ability to attract new customers as well as our ability to fully realize our backlog because our sales contracts generally include a financing contingency. Financing contingencies permit the customer to cancel his obligation in the event mortgage financing at prevailing interest rates, including financing arranged or provided by us, is unobtainable within the period specified in the contract. This contingency period is typically four to eight weeks following the date of execution of the sales contract.

Over the last several quarters, many lenders have significantly tightened their underwriting standards, and many subprime and other alternative mortgage products are no longer being made available in the marketplace. If these trends continue and mortgage loans continue to be difficult to obtain, the ability and willingness of prospective buyers to finance home purchases or to sell their existing homes will be adversely affected, which will adversely affect our operating results.

In addition, we believe that the availability of mortgage financing, including FNMA, FHLMC and FHA / VA financing, is an important factor in marketing many of our homes. Any limitations or restrictions on the availability of those types of financing could reduce our sales.

We conduct certain of our operations through unconsolidated joint ventures with independent third parties in which we do not have a controlling interest. These investments involve risks and are highly illiquid.

We currently operate through a number of unconsolidated homebuilding and land development joint ventures with independent third parties in which we do not have a controlling interest. At October 31, 2008, we had invested an aggregate of \$71.1 million in these joint ventures, which had borrowings outstanding of approximately \$320.2 million. In addition, as part of our strategy, we intend to continue to evaluate additional joint venture opportunities.

These investments involve risks and are highly illiquid. There are a limited number of sources willing to provide acquisition, development and construction financing to land development and homebuilding joint ventures, and as market conditions become more challenging, it may be difficult or impossible to obtain financing for our joint ventures on commercially reasonable terms. In addition, we lack a controlling interest in these joint ventures and therefore are usually unable to require that our joint ventures sell assets or return invested capital, make additional capital contributions or take any other action without the vote of at least one of our venture partners. Therefore, absent partner agreement, we will be unable to liquidate our joint venture investments to generate cash.

Homebuilders are subject to a number of federal, local, state and foreign laws and regulations concerning the development of land, the home building, sales and customer financing processes and protection of the environment, which can cause us to incur delays and costs associated with compliance and which can prohibit or restrict our activity in some regions or areas.

We are subject to extensive and complex regulations that affect the development and home building, sales and customer financing processes, including zoning, density, building standards and mortgage financing. These regulations often provide broad discretion to the administering governmental authorities. This can delay or increase the cost of development or homebuilding. In addition, some state and local governments in markets where we operate have approved, and others may approve, slow growth or no growth initiatives that could negatively impact the availability of land and building opportunities within those areas. Approval of these initiatives could adversely affect our ability to build and sell homes in the affected markets and/or could require the satisfaction of additional administrative and regulatory requirements, which could result in slowing the progress or increasing the costs of our homebuilding operations in these markets. Any such delays or costs could have a negative effect on our future revenues and earnings.

We also are subject to a variety of local, state, federal and foreign laws and regulations concerning protection of health and the environment. The particular environmental laws which apply to any given community vary greatly according to the community site, the site's environmental conditions and the present and former uses of the site. These environmental laws may result in delays, may cause us to incur substantial compliance, remediation, and/or other costs, and can prohibit or severely restrict development and homebuilding activity.

For example, during 2005, we received two requests for information pursuant to Section 308 of the Clean

Water Act from Region 3 of the Environmental Protection Agency (the "EPA"). These requests sought information concerning storm water discharge practices in connection with completed, ongoing and planned homebuilding projects by subsidiaries in the states and district that comprise EPA Region 3. We also received a notice of violations for one project in Pennsylvania and requests for sampling plan implementation in two projects in Pennsylvania. We have subsequently received notification from the EPA alleging violations of storm water discharge practices at other locations and requesting related information. We provided the EPA with information in response to its requests. The Department of Justice ("DOJ") is also involved in the review of these practices and enforcement with respect to them. We are engaged in discussions with the DOJ and EPA regarding a resolution of these matters. We cannot predict whether those discussions will result in a resolution, or what any resolution of these matters ultimately will require of us.

We anticipate that increasingly stringent requirements will be imposed on developers and homebuilders in the future. Although we cannot predict the effect of these requirements, they could result in time-consuming and expensive compliance programs and in substantial expenditures, which could cause delays and increase our cost of operations. In addition, the continued effectiveness of permits already granted or approvals already obtained is dependent upon many factors, some of which are beyond our control, such as changes in policies, rules and regulations and their interpretation and application.

Product liability litigation and warranty claims that arise in the ordinary course of business may be costly.

As a homebuilder, we are subject to construction defect and home warranty claims arising in the ordinary course of business. Such claims are common in the homebuilding industry and can be costly. In addition, the amount and scope of coverage offered by insurance companies is currently limited, and this coverage may be further restricted and become more costly. If we are not able to obtain adequate insurance against such claims, we may experience losses that could hurt our financial results. Our financial results could also be adversely affected if we were to experience an unusually high number of claims or unusually severe claims.

We compete on several levels with homebuilders that may have greater sales and financial resources, which could hurt future earnings.

We compete not only for home buyers but also for desirable properties, financing, raw materials and skilled labor often within larger subdivisions designed, planned and developed by other homebuilders. Our competitors include other local, regional and national

homebuilders, some of which have greater sales and financial resources.

The competitive conditions in the homebuilding industry together with current market conditions have, and could continue to, result in:

- difficulty in acquiring suitable land at acceptable prices;
- increased selling incentives;
- lower sales; or
- delays in construction.

Any of these problems could increase costs and/or lower profit margins.

We may have difficulty in obtaining the additional financing required to operate and develop our business.

Our operations require significant amounts of cash, and we may be required to seek additional capital, whether from sales of equity or borrowing additional money, for the future growth and development of our business. The terms or availability of additional capital is uncertain. Moreover, the indentures for our outstanding debt securities and our Revolving Credit Agreement contain provisions that restrict the debt we may incur and the equity we may issue in the future. If we are not successful in obtaining sufficient capital, it could reduce our sales and may hinder our future growth and results of operations. In addition, pledging substantially all of our assets to support the Revolving Credit Agreement, the 11½% Senior Secured Notes due 2013 and the 18.0% Senior Secured Notes due 2017 issued in the Exchange Offer may make it more difficult to raise additional financing in the future.

Also, our mortgage business currently operates with working capital from a Mortgage Master Repurchase Agreement that comes due in July 2009. We believe we will be able to extend the Master Repurchase Agreement beyond its expiration date, but there can be no assurance of such extension.

Our future growth may include additional acquisitions of companies that may not be successfully integrated and may not achieve expected benefits.

Acquisitions of companies have contributed to our historical growth and may again be a component of our growth strategy in the future. In April 2006, we acquired Craftbuilt Homes. In the future, we may acquire other businesses, some of which may be significant. As a result of acquisitions of companies, we may need to seek additional financing and integrate product lines, dispersed operations and distinct corporate cultures. These integration efforts may not succeed or may distract our management from operating our existing business. Additionally, we may not be able to enhance our earnings as a result of acquisitions. Our failure to successfully identify and

manage future acquisitions could harm our operating results.

Our controlling stockholders are able to exercise significant influence over us.

Kevoork S. Hovnanian, the Chairman of our Board of Directors, and Ara K. Hovnanian, our President and Chief Executive Officer, have voting control, through personal holdings and family-owned entities, of Class A and Class B common stock that enables them to cast approximately 72.3% of the votes that may be cast by the holders of our outstanding Class A and Class B common stock combined. Their combined stock ownership enables them to exert significant control over us, including power to control the election of our Board of Directors and to approve matters presented to our stockholders. This concentration of ownership may also make some transactions, including mergers or other changes in control, more difficult or impossible without their support. Also, because of their combined voting power, circumstances may occur in which their interests could be in conflict with the interests of other stakeholders.

Our net operating loss carryforwards could be substantially limited if we experience an ownership change as defined in the Internal Revenue Code.

Based on recent impairments and our current financial performance, we generated a net operating loss carryforward of \$404.8 million for the year ending October 31, 2008, and we may generate net operating loss carryforwards in future years.

Section 382 of the Internal Revenue Code contains rules that limit the ability of a company that undergoes an ownership change, which is generally any change in ownership of more than 50% of its stock over a three-year period, to utilize its net operating loss carryforwards and certain built-in losses recognized in years after the ownership change. These rules generally operate by focusing on ownership changes among stockholders owning directly or indirectly 5% or more of the stock of a company and any change in ownership arising from a new issuance of stock by the company.

If we undergo an ownership change for purposes of Section 382 as a result of future transactions involving our common stock, including purchases or sales of stock between 5% shareholders, our ability to use our net operating loss carryforwards and to recognize certain built-in losses would be subject to the limitations of Section 382. Depending on the resulting limitation, a significant portion of our net operating loss carryforwards could expire before we would be able to use them. Our inability to utilize our net operating loss carryforwards could have a negative impact on our financial position and results of operations.

In August 2008, we announced that our Board of Directors adopted a shareholder rights plan designed to preserve shareholder value and the value of certain tax assets primarily associated with net loss carryforwards and built in losses under Section 382 of the Internal Revenue Code. See Note 3 to the Consolidated Financial Statements for further details about the shareholder rights plan.

Utility shortages and outages or rate fluctuations could have an adverse effect on our operations.

In prior years, the areas in which we operate in California have experienced power shortages, including periods without electrical power, as well as significant fluctuations in utility costs. We may incur additional costs and may not be able to complete construction on a timely basis if such power shortages/outages and utility rate fluctuations continue. Furthermore, power shortages and outages, such as the blackout that occurred in 2003 in the Northeast, and rate fluctuations may adversely affect the regional economies in which we operate, which may reduce demand for our homes. Our operations may be adversely affected if further rate fluctuations and/or power shortages and outages occur in California, the Northeast or in our other markets.

Geopolitical risks and market disruption could adversely affect our operating results and financial condition.

Geopolitical events, such as the aftermath of the war with Iraq and the continuing involvement in Iraq, may have a substantial impact on the economy and the housing market. The terrorist attacks on the World Trade Center and the Pentagon on September 11, 2001 had an impact on our business and the occurrence of similar events in the future cannot be ruled out. The war and the continuing involvement in Iraq and Afghanistan, terrorism and related geopolitical risks have created many economic and political uncertainties, some of which may have additional material adverse effects on the U.S. economy, and our customers and, in turn, our results of operations and financial condition.

ITEM 1B UNRESOLVED STAFF COMMENTS

None.

ITEM 2 PROPERTIES

We own a 69,000 square foot office complex located in the Northeast that serves as our corporate headquarters. We own 215,000 square feet of office and warehouse space throughout the Midwest. We lease approximately 868,000 square feet of space for our segments located in the Northeast, Mid-Atlantic, Midwest, Southeast, Southwest and West.

ITEM 3 LEGAL PROCEEDINGS

We are involved in litigation arising in the ordinary course of business, none of which is expected to have a material adverse effect on our financial position or results of operations, and we are subject to extensive and complex regulations that affect the development and home building, sales and customer financing processes, including zoning, density, building standards and mortgage financing. These regulations often provide broad discretion to the administering governmental authorities. This can delay or increase the cost of development or homebuilding.

We also are subject to a variety of local, state, federal and foreign laws and regulations concerning protection of health and the environment. The particular environmental laws that apply to any given community vary greatly according to the community site, the site's environmental conditions and the present and former uses of the site. These environmental laws may result in delays, may cause us to incur substantial compliance, remediation, and/or other costs, and can prohibit or severely restrict development and homebuilding activity.

In March 2005, we received two requests for information pursuant to Section 308 of the Clean Water Act from Region 3 of the Environmental Protection Agency (the "EPA"). These requests sought information concerning storm water discharge practices in connection with completed, ongoing and planned homebuilding projects by subsidiaries in the states and district that comprise EPA Region 3. We also received a notice of violations for one project in Pennsylvania and requests for sampling plan implementation in two projects in Pennsylvania. We have subsequently received notification from the EPA alleging violations of storm water discharge practices at other locations and requesting related information. We provided the EPA with information in response to its requests. The Department of Justice ("DOJ") is also involved in the review of these practices and enforcement with respect to them. We are engaged in discussions with the DOJ and EPA regarding a resolution of these matters. We cannot predict whether those discussions will result in a resolution, or what any resolution of these matters ultimately will require of us.

We anticipate that increasingly stringent requirements will be imposed on developers and homebuilders in the future. Although we cannot predict the effect of these requirements, they could result in time-consuming and expensive compliance programs and in substantial expenditures, which could cause delays and increase our cost of operations. In addition, the continued effectiveness of permits already granted or approvals already obtained is dependent upon many factors, some of which are beyond our control, such as

changes in policies, rules and regulations and their interpretations and application.

The Company is also involved in the following litigation in different parts of the country:

The Company, Chief Executive Officer and President Ara K. Hovnanian, Executive Vice President and Chief Financial Officer J. Larry Sorsby and a former officer of a Company subsidiary have been named as defendants in a purported class action. The original complaint, which only named Mr. Sorsby as a defendant, was filed on September 14, 2007 in the United States District Court for the Central District of California, captioned *Herbert Mankofsky v. J. Larry Sorsby*, and names only Mr. Sorsby as a defendant. On January 31, 2008, the court appointed Herbert Mankofsky as Lead Plaintiff. On February 19, 2008, the action was transferred to the United States District Court for the District of New Jersey. On March 10, 2008, plaintiff filed an amended complaint, captioned *In re Hovnanian Enterprises, Inc. Securities Litigation*, alleging, among other things, that the defendants violated federal securities laws by making false and misleading statements regarding the Company's business and future prospects in connection with the Company's acquisition of First Home Builders of Florida. The Company filed a Motion to Dismiss the amended complaint on July 14, 2008. On September 11, 2008, plaintiff filed his opposition to the Motion to Dismiss. The Company filed its reply brief on October 28, 2008. The Motion to Dismiss is now fully briefed and is pending before the court.

The Company has been named as a defendant in a purported class action suit filed May 30, 2007 in the United States District Court for the Eastern District of Pennsylvania, *Mark W. Mellar, et al., v. Hovnanian Enterprises, Inc., et al.*, asserting that the Company's sales of homes along with the financing of home purchases and the provision of title insurance by affiliated companies violated the Real Estate Settlement Procedures Act. Plaintiffs seek to represent a class of persons who purchased a home from the Company, who received a mortgage loan via a subsidiary of the Company and/or who bought title insurance from a company affiliated with the Company, and are seeking damages (including treble damages), declaratory and injunctive relief, and attorney's fees and costs. The Company's Motion to Dismiss the complaint was denied by the Court on March 4, 2008 without prejudice. The case was settled in October 2008 (with the Stipulation of Dismissal filed with the Court on November 5, 2008) and the terms of the settlement had no material impact on the Company.

A subsidiary of the Company has been named as a defendant in a purported class action suit filed on May 30, 2007 in the United States District Court for the Middle District of Florida, *Randolph Sewell, et al., v. D'Allesandro & Woodyard, et al.*, alleging violations of

the federal securities acts, among other allegations, in connection with the sale of some of the subsidiary's homes in Fort Myers, Florida. Plaintiffs filed an amended complaint on October 19, 2007. Plaintiffs sought to represent a class of certain home purchasers in southwestern Florida and sought damages, rescission of certain purchase agreements, restitution of out-of-pocket expenses, and attorneys' fees and costs. The Company's subsidiary filed a Motion to Dismiss the amended complaint on December 14, 2007. Following oral argument on the motion in September 2008, the court dismissed the amended complaint with leave for plaintiffs to amend. Plaintiffs filed a second amended complaint on October 31, 2008. Plaintiffs seek to represent a class of certain home purchasers in southwestern Florida and seek damages, rescission of certain purchase agreements, restitution of out-of-pocket expenses, and attorneys' fees and costs.

On April 4, 2008, K. Hovnanian Enterprises, Inc. ("K. Hovnanian"), a wholly-owned subsidiary of the Company, initiated arbitration proceedings against GMAC Model Home Finance, LLC ("GMAC") to resolve a dispute arising under a Model Purchase, Construction Management and Rental Agreement dated October 4, 2001 (the "Agreement"). The Company is the guarantor of K. Hovnanian's obligations under the Agreement. On March 31, 2008, GMAC advised K. Hovnanian that it was terminating all model home leases and intended to take possession of all model homes at issue based on the claim that K. Hovnanian had defaulted under the Agreement. In its arbitration demand, K. Hovnanian disputes the existence of any default and claims that GMAC has materially breached the Agreement by failing to fund certain construction costs. On April 25, 2008, GMAC asserted counterclaims against K. Hovnanian and the Company alleging that K. Hovnanian defaulted and that all leases were terminated. On September 4, 2008, parties entered into a settlement and release agreement resolving all disputes between them arising under the Agreement. The terms of the settlement had no material impact on the Company.

**ITEM 4
SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

During the fourth quarter of the fiscal year ended October 31, 2008, no matters were submitted to a vote of security holders. See Note 23 to the Consolidated Financial Statements for a discussion of the matters submitted to a vote of security holders during the first quarter of fiscal 2009.

EXECUTIVE OFFICERS OF THE REGISTRANT
Information on executive officers of the registrant is incorporated herein from Part III, Item 10.

Part II

**ITEM 5
MARKET FOR THE REGISTRANT'S COMMON EQUITY,
RELATED STOCKHOLDER MATTERS AND ISSUER
PURCHASES OF EQUITY SECURITIES**

Our Class A Common Stock is traded on the New York Stock Exchange and was held by 597 stockholders of record at December 19, 2008. There is no established public trading market for our Class B Common Stock, which was held by 284 stockholders of record at December 19, 2008. In order to trade Class B Common Stock, the shares must be converted into Class A Common Stock on a one-for-one basis. The high and low sales prices for our Class A Common Stock were as follows for each fiscal quarter during the years ended October 31, 2008 and 2007:

Quarter	Oct. 31, 2008		Oct. 31, 2007	
	High	Low	High	Low
First	\$10.45	\$4.80	\$38.01	\$27.81
Second	\$12.41	\$8.09	\$36.98	\$22.85
Third	\$11.87	\$4.64	\$25.95	\$13.24
Fourth	\$ 9.05	\$3.38	\$16.22	\$ 9.99

Certain debt instruments to which we are a party contain restrictions on the payment of cash dividends. As a result of the most restrictive of these provisions, we are not currently able to pay any cash dividends. We have never paid a cash dividend to common stockholders.

Issuer Purchases of Equity Securities

In July 2001, our Board of Directors authorized a stock repurchase program to purchase up to 4 million shares of Class A Common Stock (adjusted for a 2 for 1 stock dividend on March 5, 2004). No shares of our Class A Common Stock or Class B Common Stock were purchased by or on behalf of Hovnanian Enterprises or any affiliated purchaser during the fiscal fourth quarter of 2008 (excluding purchases by certain members of the Hovnanian family, which have been previously reported in filings with the Securities and Exchange Commission). The maximum number of shares that may yet be purchased under the Company's plans or programs is 0.6 million.

ITEM 6
SELECTED CONSOLIDATED FINANCIAL DATA

The following table sets forth selected consolidated financial data and should be read in conjunction with the financial statements included elsewhere in this Form 10-K. Per common share data and weighted average number of common shares outstanding reflect all stock splits. The selected consolidated financial data should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" and our Consolidated Financial Statements and Notes thereto included elsewhere in this Form 10-K.

Summary Consolidated Statements of Operations Data (In Thousands, Except Per Share Data)	Year Ended				
	October 31, 2008	October 31, 2007	October 31, 2006	October 31, 2005	October 31, 2004
Revenues	\$ 3,308,111	\$ 4,798,921	\$ 6,148,235	\$ 5,348,417	\$ 4,153,890
Expenses	4,439,559	5,417,664	5,930,514	4,602,871	3,608,909
(Loss) income from unconsolidated joint ventures	(36,600)	(28,223)	15,385	35,039	4,791
(Loss) income before income taxes	(1,168,048)	(646,966)	233,106	780,585	549,772
State and Federal income tax (benefit)/provision	(43,458)	(19,847)	83,573	308,738	201,091
Net (loss) income	(1,124,590)	(627,119)	149,533	471,847	348,681
Less: preferred stock dividends	—	10,674	10,675	2,758	—
Net (loss) income available to common stockholders	\$(1,124,590)	\$ (637,793)	\$ 138,858	\$ 469,089	\$ 348,681
Per share data:

Stockholders' equity	\$ 330,264	\$1,321,803	\$1,942,163	\$1,791,357	\$1,192,394

Ratios of Earnings to Fixed Charges and Earnings to Combined Fixed Charges and Preferred Stock Dividends

For purposes of computing the ratio of earnings to fixed charges and the ratio of earnings to combined fixed charges and preferred stock dividends, earnings consist of earnings from continuing operations before income taxes and income or loss from equity investees, plus fixed charges and distributed income of equity investees, less interest capitalized. Fixed charges consist of all interest incurred plus the amortization of debt issuance costs and bond discounts. Combined fixed charges and preferred stock dividends consist of fixed charges and preferred stock dividends declared. The fourth quarter of 2005 was the first period we declared and paid preferred stock dividends and, due to covenant restrictions, we have been prohibited from paying dividends beginning with the first quarter of fiscal 2008.

The following table sets forth the ratios of earnings to fixed charges and the ratios of earnings to combined fixed charges and preferred stock dividends for each of the periods indicated:

	Years Ended October 31,				
	2008	2007	2006	2005	2004
Ratio of earnings to fixed charges	(a)	(a)	2.0	7.8	6.3
Ratio of earnings to combined fixed charges and preferred stock dividends	(b)	(b)	1.8	7.5	6.3

(a) Earnings for the years ended October 31, 2008 and 2007 were insufficient to cover fixed charges for such period by \$1,138.5 million and \$667.5 million, respectively.

(b) Earnings for the years ended October 31, 2008 and 2007 were insufficient to cover fixed charges and preferred stock dividends for such period by \$1,138.5 million and \$678.6 million, respectively.

ITEM 7 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Beginning during the second half of our fiscal year ended October 31, 2006 and continuing through today, the U. S. housing market has been impacted by a lack of consumer confidence, increasing home foreclosure rates and large supplies of resale and new home inventories. The result has been weakened demand for new homes, slower sales, higher than normal cancellation rates, and increased price discounts and other sales incentives to attract homebuyers. Additionally, the availability of certain mortgage financing products became more constrained starting in February 2007 when the mortgage industry began to more closely scrutinize sub-prime, Alt-A, and other non-prime mortgage products. The combination of these homebuilding industry and related mortgage financing developments resulted in significant decreases in our revenues and gross margins during 2008 and 2007 compared with prior years. Additionally, we incurred total land-related charges of \$710.1 million and \$457.8 million for the years ended October 31, 2008 and 2007, respectively. These charges resulted from the write-off of deposit and preacquisition costs of \$114.1 million and \$126.0 million, respectively, related to land we no longer plan to pursue and impairments on owned inventory of \$596.0 million and \$331.8 million for the fiscal years ended October 31, 2008 and 2007. In addition to land related charges, the continued weakening of the market resulted in impairments of our intangible assets and goodwill of \$35.4 million and \$135.2 million during fiscal 2008 and 2007, respectively.

We have exposure to additional impairments of our inventories, which, as of October 31, 2008, have a book value of \$2.2 billion, net of \$719.0 million of impairments recorded on 181 of our communities. We also have \$161.7 million invested in 16,464 lots under option, including cash and letters of credit deposits of \$69.9 million as of October 31, 2008. We will record a write-off for the amounts associated with an option if we determine it is probable we will not exercise it. As of October 31, 2008, we have total investments in, and advances to, unconsolidated joint ventures of \$71.1 million. Each of our joint ventures assesses its inventory and other long-lived assets for impairment in accordance with U.S. GAAP, which has resulted in reductions in our investment in joint ventures of \$72.2 million from our second half of fiscal 2006 through October 31, 2008. We still have exposure to future write-downs of our investment in unconsolidated joint ventures if conditions continue to deteriorate in the markets that our joint ventures operate. With respect to goodwill and intangibles, there is no remaining risk of further exposure to impairments because both goodwill and definite life intangibles have been fully written off as of October 31, 2008.

We continue to operate our business with the expectation that difficult market conditions will continue to impact us for at least the near term. We have adjusted our approach to land acquisition and construction practices and continue to shorten our land pipeline, reduce production volumes, and balance home price and profitability with sales pace. We are delaying and cancelling planned land purchases and renegotiating land prices and have significantly reduced our total number of controlled lots owned and under option. Additionally, we are significantly reducing the number of speculative homes put into production. While we will continue to purchase select land positions where it makes strategic and economic sense to do so, we currently anticipate minimal investment in new land parcels in fiscal 2009. We have also closely evaluated and made reductions in selling, general and administrative expenses, including corporate general and administrative expenses, reducing these expenses \$165.3 million from \$625.2 million in fiscal 2007 to \$459.9 million in fiscal 2008 due in large part to a 59% reduction head count from our peak in June 2006. Given the persistence of these difficult market conditions, improving the efficiency of our selling, general and administrative expenses will continue to be a significant area of focus. We believe that these measures will help to strengthen our market position and allow us to take advantage of opportunities that will develop in the future.

Critical Accounting Policies

Management believes that the following critical accounting policies affect its more significant judgments and estimates used in the preparation of its consolidated financial statements:

Business Combinations—When we make an acquisition of another company, we use the purchase method of accounting in accordance with the Statement of Financial Accounting Standards (SFAS) No. 141 "Business Combinations" ("SFAS 141"). Under SFAS 141, we record as our cost the estimated fair value of the acquired assets less liabilities assumed. Any difference between the cost of an acquired company and the sum of the fair values of tangible and intangible assets less liabilities is recorded as goodwill. The reported income of an acquired company includes the operations of the acquired company from the date of acquisition.

Income Recognition from Home and Land Sales—We are primarily engaged in the development, construction, marketing and sale of residential single-family and multi-family homes where the planned construction cycle is less than 12 months. For these homes, in accordance with SFAS No. 66, "Accounting for Sales of Real Estate" ("SFAS 66"), revenue is recognized when title is conveyed to the buyer, adequate initial and continuing investments have been received and there is no continued involvement. In

situations where the buyer's financing is originated by our mortgage subsidiary and the buyer has not made an adequate initial or continuing investment as prescribed by SFAS 66, the profit on such sales is deferred until the sale of the related mortgage loan to a third-party investor has been completed.

Additionally, in certain markets, we sell lots to customers, transferring title, collecting proceeds, and entering into contracts to build homes on these lots. In these cases, we do not recognize the revenue from the lot sale until we deliver the completed home and have no continued involvement related to that home. The cash received on the lot is recorded as a component of inventory until the revenue is recognized.

Income Recognition from High-Rise/Mid-Rise Projects—

We are developing several high-rise/mid-rise buildings that will take more than 12 months to complete. If these buildings qualify, revenues and costs are recognized using the percentage of completion method of accounting in accordance with SFAS 66. Under the percentage of completion method, revenues and costs are to be recognized when construction is beyond the preliminary stage, the buyer is committed to the extent of having a sufficient initial and continuing investment that the buyer cannot require to be refunded except for non-delivery of the home, sufficient homes in the building have been sold to ensure that the property will not be converted to rental property, the sales prices are collectible and the aggregate sales proceeds and the total cost of the building can be reasonably estimated. We currently do not have any buildings that meet these criteria; therefore the revenues from delivering homes in high-rise/mid-rise buildings are recognized when title is conveyed to the buyer, adequate initial and continuing involvement have been received and there is no continued involvement with respect to that home.

*Income Recognition from Mortgage Loans—*Our Financial Services segment originates mortgages, primarily for our homebuilding customers. We use mandatory mortgage-backed securities ("MBS") forward commitments and investor commitments to hedge our mortgage-related interest rate exposure on agency and government loans. These instruments involve, to varying degrees, elements of credit and interest rate risk. Credit risk associated with MBS forward commitments and loan sales transactions is managed by limiting our counterparties to investment banks, federally regulated bank affiliates and other investors meeting our credit standards. Our risk, in the event of default by the purchaser, is the difference between the contract price and fair value of the MBS forward commitments. In an effort to reduce our exposure to the marketability and disposal of non-agency and non-governmental loans, including Alt-A (FICO scores below 680 and depending on credit criteria) and sub-prime loans (FICO scores below 580 and depending on credit criteria), we require our Financial Services

segment to either presell or broker all of these loans, on an individual loan basis as soon as they are committed to by the customer. However, because of the recent tightening by mortgage lenders, our origination of Alt-A and sub-prime loans has declined to only 7.6% and 0.3%, respectively, of the total loans we originated during fiscal 2008, as compared to 27.3% and 3.7%, respectively, for the same period last year. In addition, of the \$87.5 million of mortgage loans held for sale as of October 31, 2008, none were Alt-A or sub-prime loans. There were, however, \$3.2 million of mortgage loans held for investment at October 31, 2008, which represent loans that cannot currently be sold at reasonable terms in the secondary mortgage market. As Alt-A and sub-prime originations declined, we have seen an increase in our level of Federal Housing Administration and Veterans Administration ("FHA/VA") loan origination. For the twelve months ended October 31, 2008 and 2007, FHA/VA loans represented 35.5% and 6.5%, respectively, of our total loans. Profits and losses relating to the sale of mortgage loans are recognized when legal control passes to the buyer of the mortgage and the sales price is collected.

Interest Income Recognition for Mortgage Loans

*Receivable and Recognition of Related Deferred Fees and Costs—*Interest income is recognized as earned for each mortgage loan during the period from the loan closing date to the sale date when legal control passes to the buyer, and the sale price is collected. All fees related to the origination of mortgage loans and direct loan origination costs are deferred and recorded as either (a) an adjustment to the related mortgage loans upon the closing of a loan or (b) recognized as a deferred asset or deferred revenue while the loan is in process. These fees and costs include loan origination fees, loan discount, and salaries and wages. Such deferred fees and costs relating to the closed loans are recognized over the life of the loans as an adjustment of yield or taken into operations upon sale of the loan to a permanent investor.

*Inventories—*Inventories consist of land, land development, home construction costs, capitalized interest and construction overhead and are stated at cost, net of impairment losses, if any. Construction costs are accumulated during the period of construction and charged to cost of sales under specific identification methods. Land, land development and common facility costs are allocated based on buildable acres to product types within each community, then charged to cost of sales equally based upon the number of homes to be constructed in each product type.

We report inventories in our consolidated balance sheets at the lower of cost or fair value. Our inventories consist of the following three components: (1) Sold and unsold homes and lots under development, which includes all construction, land, and

land development costs related to started homes and land under development in our active communities; (2) Land and land options held for future development or sale, which includes all costs related to land in our communities in planning; and (3) Consolidated inventory not owned, which includes all cost related to specific performance options, variable interest entities, and other options, which consists primarily of our GMAC model homes and inventory related to structured lot options.

As a result of the declining homebuilding market, we have decided to mothball (or stop development on) certain communities where we determine the current performance does not justify further investment at this time. When we decide to mothball a community, the inventory is reclassified from Sold and unsold homes and lots under development to Land and land options held for future development or sale. As of October 31, 2008, the book value associated with the 54 mothballed communities was \$550.4 million, net of an impairment balance of \$290.1 million. We continually review communities to determine if mothballing is appropriate.

The recoverability of inventories and other long-lived assets are assessed in accordance with the provisions of Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"). SFAS 144 requires long-lived assets, including inventories, held for development to be evaluated for impairment based on undiscounted future cash flows of the assets at the lowest level for which there are identifiable cash flows. As such, we evaluate inventories for impairment at the individual community level, the lowest level of discrete cash flows that we measure.

We evaluate inventories of communities under development and held for future development for impairment when indicators of potential impairment are present. Indicators of impairment include, but are not limited to, decreases in local housing market values, decreases in gross margins or sales absorption rates, decreases in net sales prices (base sales price net of sales incentives), or actual or projected operating or cash flow losses. The assessment of communities for indication of impairment is performed quarterly, primarily by completing detailed budgets for all of our communities and identifying those communities with a projected operating loss for any projected fiscal year or for the entire projected community life. For those communities with projected losses, we estimate remaining undiscounted future cash flows and compare those to the carrying value of the community, to determine if the carrying value of the asset is recoverable.

The projected operating profits, losses or cash flows of each community can be significantly impacted by our estimates of the following:

- future base selling prices;
- future home sales incentives;

- future home construction and land development costs; and
- future sales absorption pace and cancellation rates.

These estimates are dependent upon specific market conditions for each community. While we consider available information to determine what we believe to be our best estimates as of the end of a quarterly reporting period, these estimates are subject to change in future reporting periods as facts and circumstances change. Local market-specific conditions that may impact our estimates for a community include:

- the intensity of competition within a market, including publicly available home sales prices and home sales incentives offered by our competitors;
- the current sales absorption pace for both our communities and competitor communities;
- community specific attributes, such as location, availability of lots in the market, desirability and uniqueness of our community, and the size and style of homes currently being offered;
- potential for alternative product offerings to respond to local market conditions;
- changes by management in the sales strategy of the community; and
- current local market economic and demographic conditions and related trends and forecasts.

These and other local market-specific conditions that may be present are considered by management in preparing projection assumptions for each community. The sales objectives can differ between our communities, even within a given market. For example, facts and circumstances in a given community may lead us to price our homes with the objective of yielding a higher sales absorption pace, while facts and circumstances in another community may lead us to price our homes to minimize deterioration in our gross margins, although it may result in a slower sales absorption pace. In addition, the key assumptions included in our estimate of future undiscounted cash flows may be interrelated. For example, a decrease in estimated base sales price or an increase in homes sales incentives may result in a corresponding increase in sales absorption pace. Additionally, a decrease in the average sales price of homes to be sold and closed in future reporting periods for one community that has not been generating what management believes to be an adequate sales absorption pace may impact the estimated cash flow assumptions of a nearby community. Changes in our key assumptions, including estimated construction and development costs, absorption pace and selling strategies, could materially impact future cash flow and fair value estimates. Due to the number of possible scenarios that would result from various changes in these factors, we do not believe it is possible to develop a sensitivity analysis with a level of precision that would be meaningful to an investor.

If the undiscounted cash flows are more than the carrying value of the community, then the carrying amount is recoverable, and no impairment adjustment is required. However, if the undiscounted cash flows are less than the carrying amount, then the community is deemed impaired and is written-down to its fair value. We determine the estimated fair value of each community by determining the present value of the estimated future cash flows at a discount rate commensurate with the risk of the respective community. Our discount rates used for the impairments recorded to date range from 13.5% to 17.0%. The estimated future cash flow assumptions are the same for both our recoverability and fair value assessments. Should the estimates or expectations used in determining estimated cash flows or fair value decrease or differ from current estimates in the future, we may be required to recognize additional impairments related to current and future communities. The impairment of a community is allocated to each lot on a straight line basis.

Inventories held for sale, which are land parcels where we have decided not to build homes, are a very small portion of our total inventories, and are reported at the lower of carrying amount or fair value less costs to sell. In determining whether land held for sale is impaired, management considers, among other things, prices for land in recent comparable sale transactions, market analysis studies, which include the estimated price a willing buyer would pay for the land (other than in a forced liquidation sale) and recent bona fide offers received from outside third parties, if available.

From time to time, we write-off deposits and approval, engineering and capitalized interest costs when we decide not to exercise options to buy land in various locations or when we redesign communities and/or abandon certain engineering costs. In deciding not to exercise a land option, we take into consideration changes in market conditions, the timing of required land takedowns, the willingness of land sellers to modify terms of the land option contract (including timing of land takedowns), and the availability and best use of our capital, among other factors. The write-off is recorded in the period it is deemed probable that the optioned property will not be acquired. In certain instances, we have been able to recover deposits and other preacquisition costs which were previously written off. These recoveries are generally not significant in comparison to the total costs written off.

The impairment of communities under development and held for future development and inventories held for sale, and the charge for land option write-offs, are reflected on the Consolidated Statement of Operations in a separate line entitled "Homebuilding – Inventory impairment loss and land option write-offs". See also

the "Results of Operations" below and Note 13 to the Consolidated Financial Statements for inventory impairment and write-off amounts by segment.

Insurance Deductible Reserves—For homes delivered in fiscal 2008 and 2007, our deductible is \$20 million per occurrence with an aggregate \$20 million for liability claims and an aggregate \$21.5 million for construction defect claims under our general liability insurance. Our worker's compensation insurance deductible is \$0.5 million per occurrence in fiscal 2008 and fiscal 2007. Reserves have been established based upon actuarial analysis of estimated losses for fiscal 2008 and fiscal 2007. We engage a third party actuary that uses our historical warranty data to estimate our unpaid claims, claim adjustment expenses and incurred but not reported claims reserves for the risks that we are assuming under the general liability and workers compensation programs. The estimates include provisions for inflation, claims handling and legal fees. These estimates are subject to a high degree of variability due to uncertainties such as trends in construction defect claims relative to our markets and the types of products we build, claim settlement patterns, insurance industry practices and legal interpretations, among others. Because of the high degree of judgment required in determining these estimated liability amounts, actual future costs could differ significantly from our currently estimated amounts.

Interest—In accordance with SFAS 34, "Capitalization of Interest Cost", interest incurred is first capitalized to properties under development during the land development and home construction period and expensed along with the associated cost of sales as the related inventories are sold. Interest incurred in excess of interest capitalized because qualifying assets for interest capitalization are less than debt, or interest incurred on borrowings directly related to properties not under development are expensed immediately in "Other interest".

Land Options—Costs are capitalized when incurred and either included as part of the purchase price when the land is acquired or charged to operations when we determine we will not exercise the option. In accordance with Financial Accounting Standards Board ("FASB") Interpretation No. 46R ("FIN 46R") "Consolidation of Variable Interest Entities", an interpretation of Accounting Research Bulletin No. 51, SFAS No. 49 "Accounting for Product Financing Arrangements" ("SFAS 49"), SFAS No. 98 "Accounting for Leases" ("SFAS 98"), and Emerging Issues Task Force ("EITF") No. 97-10 "The Effects of Lessee Involvement in Asset Construction" ("EITF 97-10"), we record on the Consolidated Balance Sheets specific performance options, options with variable interest

entities and other options under "Consolidated inventory not owned" with the offset to "Liabilities from inventory not owned" and "Minority interest from inventory not owned".

Unconsolidated Homebuilding and Land Development Joint Ventures—Investments in unconsolidated homebuilding and land development joint ventures are accounted for under the equity method of accounting. Under the equity method, we recognize our proportionate share of earnings and losses earned by the joint venture upon the delivery of lots or homes to third parties. Our ownership interest in joint ventures varies but is generally less than or equal to 50%. In determining whether or not we must consolidate joint ventures where we are the managing member of the joint venture, we consider the guidance in EITF 04-5, "Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights" ("EITF 04-5"), in assessing whether the other partners have specific rights to overcome the presumption of control by us as the manager of the joint venture. In most cases, the presumption is overcome because the joint venture agreements require that both partners agree on establishing the operating and capital decisions of the partnership, including budgets, in the ordinary course of business. In accordance with Accounting Principles Board Opinion 18 ("APB 18"), we assess our investments in unconsolidated joint ventures for recoverability, and if it is determined that a loss in value of the investment is other than temporary, we write-down the investment to the recoverable value. We evaluate our equity investments for recoverability based on the joint venture's projected cash flows. In fiscal 2008, we wrote-down certain joint venture investments by \$11.3 million, based on this recoverability analysis.

Intangible Assets—The intangible assets recorded on our October 31, 2007 balance sheet are goodwill, which has an indefinite life, and definite life intangibles, including trade names, architectural designs, distribution processes, and contractual agreements resulting from our acquisitions. We no longer amortize goodwill but instead assess it periodically for impairment. We performed such assessments utilizing a fair value approach as of October 31, 2008. If the fair value of the applicable business unit is less than the carrying amount of that business unit, the goodwill of that business unit is considered impaired. The amount of the impairment is determined as the excess of the book value of the goodwill over the implied fair value of the goodwill, and the implied fair value of the goodwill is determined in the same manner as the amount of goodwill recognized in a business combination is determined. That is, the fair value of the business unit is allocated to all of the assets and

liabilities of that business unit as if the business unit had been acquired in a business combination. The excess of the fair value of the business unit over the amounts assigned to its assets and liabilities is the implied fair value of goodwill. The estimates used in the determination of the estimated cash flows and fair value of a business unit are based on factors known to us at the time such estimates are made and our expectations of future operations and economic conditions. Should the estimates or expectations used in determining estimated cash flows or fair value decrease or differ from current estimates in the future, we may be required to recognize additional impairments. This was the case in fiscal 2008, whereby we wrote-off the remaining \$32.7 million of goodwill balance based upon present value cash flow analyses, bringing the balance to zero at October 31, 2008. The goodwill impairment charge was included in "Goodwill and intangible amortization and impairment" on the Consolidated Statements of Operations.

We also assess definite life intangibles for impairment whenever events or changes indicate that their carrying amount may not be recoverable. An intangible impairment is recorded when events and circumstances indicate the undiscounted future cash flows generated from the business unit with the intangible asset are less than the net assets of the business unit. The impairment loss is the lesser of the difference between the net assets of the business unit and the discounted future cash flows generated from the applicable business unit, which approximates fair value and the intangible asset balance. The estimates used in the determination of the estimated cash flows and fair value of a business unit are based on factors known to us at the time such estimates are made and our expectations of future operations and economic conditions. Should the estimates or expectations used in determining estimated cash flows or fair value decrease or differ from current estimates in the future, we may be required to recognize additional impairments. This was the case in fiscal 2008, whereby we wrote off \$2.7 million of intangible assets carrying amount, bringing the balance to zero at October 31, 2008. In fiscal 2007, we determined that the intangible assets associated with our Fort Myers, California, Tampa, Orlando, Canton and Building Products operations were impaired and wrote them off for a total reduction of \$162.2 million, of which \$135.2 million was included in "Goodwill and intangible amortization and impairment" on the Consolidated Statement of Operations and \$27.0 million was included in "Accounts payable and other liabilities" on the Consolidated Balance Sheets. The intangible impairment charge is included in "Goodwill and intangible amortization and impairment" on the Consolidated Statements of Operations.

Post-Development Completion and Warranty Costs—In those instances where a development is substantially completed and sold and we have additional construction work to be incurred, an estimated liability is provided to cover the cost of such work. In addition, we accrue warranty costs as part of cost of sales for repair costs under \$5,000 per occurrence to homes, community amenities and land development infrastructure. In addition, we accrue for warranty costs over \$5,000 per occurrence as part of our general liability insurance deductible expensed as selling, general and administrative costs. As previously stated, the deductible for our general liability insurance for homes delivered in fiscal 2008 and 2007 is \$20 million per occurrence with an aggregate \$20 million for liability claims, and an aggregate \$21.5 million for construction defect claims. Both of these liabilities are recorded in “Accounts payable and other liabilities” on the Consolidated Balance Sheets.

Deferred Income Taxes—Deferred income taxes or income tax benefits are provided for temporary differences between amounts recorded for financial reporting and for income tax purposes. If, for some reason, the combination of future years income (or loss) combined with the reversal of the timing differences results in a loss, such losses can be carried back to prior years or carried forward to future years to recover the deferred tax assets. In accordance with SFAS No. 109, “Accounting for Income Taxes” (“SFAS 109”), we evaluate our deferred tax assets quarterly to determine if valuation allowances are required. SFAS 109 requires that companies assess whether valuation allowances should be established based on the consideration of all available evidence using a “more likely than not” standard. See Total Taxes below under Results of Operations for further discussion of the valuation allowances.

Recent Accounting Pronouncements

See Note 3 to the Consolidated Financial Statements included elsewhere in this Form 10-K.

Capital Resources and Liquidity

Our operations consist primarily of residential housing development and sales in the Northeast (New Jersey, New York, Pennsylvania), the Midwest (Illinois, Kentucky, Minnesota, Ohio), the Mid-Atlantic (Delaware, Maryland, Virginia, West Virginia, Washington D. C.), the Southeast (Florida, Georgia, North Carolina, South Carolina), the Southwest (Arizona, Texas) and the West (California). In addition, we provide financial services to our homebuilding customers.

Our cash uses during the twelve months ended October 31, 2008 and 2007 were for operating expenses, construction, state income taxes, and interest. We provided for our cash requirements from

available cash on hand, housing and land sales, the issuance of \$600 million of senior secured second lien notes (“Senior Secured Notes”), the issuance of 14 million shares of Class A Common Stock, the revolving credit facility, financial service revenues, a federal tax refund and other revenues. We believe that these sources of cash are sufficient to finance our working capital requirements and other needs, despite continued declines in total revenues and a reduction in the availability under our revolving credit facility. For fiscal 2009, we are focused on maximizing cash flow, even at the expense of lower gross margins, by limiting investments in new communities and delaying further investment in current communities thereby reducing our inventory as we continue to build and deliver homes from our current communities. In addition, we anticipate receiving a federal tax refund in fiscal 2009 of \$145.2 million. We may also enter into land sale agreements or joint ventures to generate cash from our existing balance sheet.

On December 3, 2008, we issued \$29.3 million of 18% Senior Secured Notes in exchange for \$71.4 million of our unsecured senior notes. On May 27, 2008, we issued \$600 million of 11½% Senior Secured Notes, and the Amendment to the Seventh Amended and Restated Credit Agreement, which reduced the aggregate amount of commitments from \$900 million to \$300 million, became effective. Availability under the Amended Credit Agreement equals the lesser of \$300 million and the amount available pursuant to the borrowing base and the sub-limit for revolving loans is \$100 million. The Amended Credit Agreement eliminated all but one of the financial maintenance covenants, which requires that as of the last day of each fiscal quarter either (1) the ratio of our adjusted operating cash flow to fixed charges exceed 1.50 to 1.00 or (2) our liquidity, as defined in the Amended Credit Agreement, equals or exceeds \$100 million. Because of our \$838.2 million of homebuilding cash at October 31, 2008 and our expectations of cash flows in fiscal 2009, we believe we will be in compliance with this new covenant through 2009.

Our net (loss) income historically does not approximate cash flow from operating activities. The difference between net (loss) income and cash flow from operating activities is primarily caused by changes in inventory levels together with changes in receivables, prepaid and other assets, interest and other accrued liabilities, deferred income taxes, accounts payable, mortgage loans and liabilities, and non-cash charges relating to depreciation, amortization of computer software costs, amortization of definite life intangibles, stock compensation awards and impairment losses for inventory, definite life intangibles and goodwill. When we are expanding our operations, which was the case in fiscal 2006, inventory levels, prepaids and other assets increase causing cash flow from operating

activities to decrease. Certain liabilities also increase as operations expand and partially offset the negative effect on cash flow from operations caused by the increase in inventory levels, prepaids and other assets. Similarly, as our mortgage operations expand, net income from these operations increase, but for cash flow purposes are offset by the net change in mortgage assets and liabilities. The opposite is true as our investment in new land purchases and development of new communities decrease, which is what has been happening since the last half of fiscal 2007 allowing us to generate positive cash flow from operations during this period. Looking forward, given the continued deterioration in the housing market, it will become more difficult to generate positive cash flow. However, we will continue to make adjustments to our structure and our business plans in order to maximize our liquidity.

On July 3, 2001, our Board of Directors authorized a stock repurchase program to purchase up to 4 million shares of Class A Common Stock. As of October 31, 2008, 3.4 million shares of Class A Common Stock have been purchased under this program (See Part II, Item 5 for information on equity purchases). On March 5, 2004, our Board of Directors authorized a 2-for-1 stock split in the form of a 100% stock dividend. All share information reflects this stock dividend.

On July 12, 2005, we issued 5,600 shares of 7.625% Series A Preferred Stock, with a liquidation preference of \$25,000. Dividends on the Series A Preferred Stock are not cumulative and are paid at an annual rate of 7.625%. The Series A Preferred Stock is not convertible into the Company's common stock and is redeemable in whole or in part at our option at the liquidation preference of the shares beginning on the fifth anniversary of their issuance. The Series A Preferred Stock is traded as depositary shares, with each depositary share representing 1/1000th of a share of Series A Preferred Stock. The depositary shares are listed on the Nasdaq Global Market under the symbol "HOVNP". In each of fiscal year 2007 and 2006, we paid \$10.7 million of dividends on the Series A Preferred Stock. In fiscal 2008, we did not make any dividend payments as a result of covenant restrictions in the indentures governing our Senior Secured, Senior and Senior Subordinated Notes discussed below. We anticipate that we will continue to be restricted from paying dividends into fiscal 2009 and potentially beyond.

On May 14, 2008, we issued 14,000,000 shares of Class A Common Stock for net proceeds of \$125.9 million.

On May 16, 2008, we entered into Amendment No. 1 (the "Amendment") to the Seventh Amended and

Restated Credit Agreement (as amended, the "Amended Credit Agreement"). On May 27, 2008, in conjunction with the consummation of the issuance of \$600 million of 11½% Senior Secured Notes due 2013, the Amendment became effective. The Amendment decreased the aggregate amount of commitments under the Amended Credit Agreement from \$900 million to \$300 million. The maturity date of the facility remains May 31, 2011. Availability under the Amended Credit Agreement equals the lesser of \$300 million and the amount available pursuant to the borrowing base and the sub-limit for revolving loans is \$100 million. Borrowings under the Amended Credit Agreement bear interest at a rate equal, at the Company's option, to (1) one, two, three or six month LIBOR, plus 4.50%, (2) a base rate equal to the greater of PNC Bank, National Association's prime rate and the federal funds effective rate plus 0.50%, plus 2.75% or (3) an index rate based on daily LIBOR, plus 4.625%. In addition to paying interest on outstanding principal under the revolving facility, the Company is required to pay an unused fee equal to 0.55% per annum on the daily average unused portion of the revolving facility. The Company will also pay a letter of credit fee of 4.50% per annum on the average outstanding face amount of letters of credit issued under the revolving facility. Notwithstanding the foregoing, the interest rate and fees payable under the revolving facility may not be less than the applicable interest rates and fees that would have been payable pursuant to the revolving facility that was in effect prior to March 7, 2008, the date of the Amended Credit Agreement. Borrowings under the Amended Credit Agreement may be used for general corporate purposes and working capital. A portion of the proceeds of the issuance of 11½% Senior Secured Notes due 2013 were used to repay the outstanding balance of \$325.0 million at May 27, 2008 under the Amended Credit Agreement. As of October 31, 2008, there was zero drawn under the Amended Credit Agreement, excluding letters of credit totaling \$197.5 million. As of October 31, 2007, there was \$206.8 million drawn under the Revolving Credit Agreement then in effect, excluding letters of credit totaling \$306.4 million.

We and each of our subsidiaries are guarantors under the Amended Credit Agreement, except for K. Hovnanian Enterprises, Inc. ("K. Hovnanian"), the borrower, certain of our financial services subsidiaries and joint ventures. All obligations under the Amended Credit Agreement, and the guarantees of those obligations, are secured, subject to permitted liens and other exceptions, by a first-priority lien on substantially all of the assets owned by us, K. Hovnanian and the guarantors.

The Amended Credit Agreement has covenants that restrict, among other things, the ability of the Company and certain of its subsidiaries, including K.

Hovnanian, to incur additional indebtedness, pay dividends on, and make distributions with respect to, common and preferred stock and repurchase capital stock, make other restricted payments, make investments, dispose of assets, incur liens, consolidate, merge, sell or otherwise transfer all or substantially all of its assets and enter into certain transactions with affiliates. The Amended Credit Agreement also contains a covenant that requires that as of the last day of each fiscal quarter either (1) the ratio of our adjusted operating cash flow to fixed charges exceed 1.50 to 1.00 or (2) our liquidity, as defined in the Amended Credit Agreement, equals or exceeds \$100 million. However, the Amended Credit Agreement does not contain any other financial maintenance covenants. The Amended Credit Agreement contains events of default which would permit the lenders to accelerate the loans if not cured within applicable grace periods, including the failure to make timely payments under the Amended Credit Agreement or other material indebtedness, the failure to satisfy covenants, the failure of the documents granting security for the obligations under the Amended Credit Agreement to be in full force and effect and specified events of bankruptcy and insolvency. As of October 31, 2008, we were in compliance with the covenants under the Amended Credit Agreement.

Our wholly-owned mortgage banking subsidiary originates mortgage loans, primarily from the sale of our homes. Such mortgage loans and related servicing rights are sold in the secondary mortgage market within a short period of time. Our secured Master Repurchase Agreement, which was amended on July 7, 2008, with a group of banks is a short-term borrowing facility that provides up to \$151 million through July 6, 2009. Interest is payable monthly at LIBOR plus 1.50% (4.08% at October 31, 2008). The loan is secured by the mortgages held for sale and is repaid when we sell the underlying mortgage loans to permanent investors. We also had a commercial paper facility which provided for up to \$200 million through April 25, 2008 with interest payable monthly at LIBOR plus 0.40%. On November 28, 2007, we paid the outstanding balance in full and terminated the commercial paper facility. We believe that we will be able to extend the Master Repurchase Agreement beyond its expiration date, but there can be no assurance of such extension. As of October 31, 2008, the aggregate principal amount of all borrowings under the Master Repurchase Agreement was \$84.8 million. The Master Repurchase Agreement requires K. Hovnanian American Mortgage, LLC to satisfy and maintain specified financial ratios and other financial condition tests. As of October 31, 2008, we were in compliance with the covenants of the Master Repurchase Agreement.

On May 27, 2008, K. Hovnanian issued \$600 million (\$594.4 million net of discount) of 11½% Senior

Secured Notes due 2013. The notes are secured, subject to permitted liens and other exceptions, by a second-priority lien on substantially all of the assets owned by us, K. Hovnanian and the guarantors to the extent such assets secure obligations under the Amended Credit Agreement. The notes are redeemable in whole or in part at our option at 102% of principal commencing November 1, 2010, 101% of principal commencing May 1, 2011 and 100% of principal commencing May 1, 2012. In addition, we may redeem up to 35% of the aggregate principal amount of the notes before May 1, 2011 with the net cash proceeds from certain equity offerings at 111.50% of principal. A portion of the net proceeds of the issuance were used to repay the outstanding balance under the Amended Credit Agreement.

At October 31, 2008, we had \$600 million of outstanding Senior Secured Notes due 2013 (\$594.7 million net of discount). We also had \$1,515.0 million of outstanding senior notes (\$1,511.1 million, net of discount), comprised of \$100 million 8% Senior Notes due 2012, \$215 million 6½% Senior Notes due 2014, \$150 million 6¾% Senior Notes due 2014, \$200 million 6¼% Senior Notes due 2015, \$300 million 6¼% Senior Notes due 2016, \$300 million 7½% Senior Notes due 2016 and \$250 million 8⅝% Senior Notes due 2017. In addition, we had \$400.0 million of outstanding senior subordinated notes, comprised of \$150 million 8⅞% Senior Subordinated Notes due 2012, \$150 million 7¾% Senior Subordinated Notes due 2013 and \$100 million 6% Senior Subordinated Notes due 2010.

On December 3, 2008 we issued \$29.3 million of 18.0% Senior Secured Notes due 2017 in exchange for \$71.4 million of our unsecured senior notes as follows: \$0.5 million aggregate principal amount of the 8% Senior Notes due 2012, \$12.0 million aggregate principal amount of the 6½% Senior Notes due 2014, \$1.1 million aggregate principal amount of the 6¾% Senior Notes due 2014, \$3.3 million aggregate principal amount of the 6¼% Senior Notes due 2015, \$24.8 million aggregate principal amount of the 7½% Senior Notes due 2016, \$28.7 million aggregate principal amount of the 6¼% Senior Notes due 2016 and \$1.0 million aggregate principal amount of the 8⅝% Senior Notes due 2017. The notes are secured, subject to permitted liens and other exceptions, by a third-priority lien on substantially all of the assets owned by us, K. Hovnanian and the guarantors to the extent such assets secure obligations under the Amended Credit Agreement and the 11½% Senior Secured Notes due 2013. The notes are redeemable in whole or in part at our option at 102% of principal commencing May 1, 2011, 101% of principal commencing November 1, 2011 and 100% of principal commencing November 1, 2012. In addition, we may redeem up to 35% of the aggregate principal amount

of the notes before May 1, 2011 with the net cash proceeds from certain equity offerings at 118.0% of principal.

We and each of our subsidiaries are guarantors of the Senior Secured, Senior and Senior Subordinated Notes, except for K. Hovnanian, the issuer of the notes, certain of our financial services subsidiaries and joint ventures. The indentures governing the Senior Secured, Senior and Senior Subordinated Notes contain restrictive covenants that limit, among other things, the ability of Hovnanian and certain of its subsidiaries, including K. Hovnanian, the issuer of the Senior Secured, Senior and Senior Subordinated Notes, to incur additional indebtedness, pay dividends and make distributions on common and preferred stock, repurchase senior and senior subordinated notes (with respect to the senior secured notes indenture), make other restricted payments, make investments, sell certain assets, incur liens, consolidate, merge, sell or otherwise dispose of all or substantially all of its assets and enter into certain transactions with affiliates. If our consolidated fixed charge coverage ratio, as defined in the indentures governing our Senior Secured, Senior and Senior Subordinated Notes, is less than 2.0 to 1.0, we are restricted from making certain payments, including dividends, and from incurring indebtedness other than certain permitted indebtedness, refinancing indebtedness and non-recourse indebtedness. As a result of this restriction, we are currently restricted from paying dividends on our 7.625% Series A Preferred Stock. If current market trends continue or worsen, we will continue to be restricted from paying dividends into fiscal 2009 and possibly future years. The restriction on making preferred dividend payments under our bond indentures will not affect our compliance with any of the covenants contained in the Amended Credit Agreement and will not permit the lenders under the Amended Credit Agreement to accelerate the loans. The indentures also contain events of default which would permit the holders of the Senior Secured, Senior and Senior Subordinated Notes to declare those notes to be immediately due and payable if not cured within applicable grace periods, including the failure to make timely payments on the notes or other material indebtedness, the failure to satisfy covenants and specified events of bankruptcy and insolvency and, with respect to the indenture governing the senior secured notes, the failure of the documents granting security for the senior secured notes to be in full force and effect and the failure of the liens on any material portion of the collateral securing the senior secured notes to be valid and perfected. As of October 31, 2008, we were in compliance with the covenants of the indentures governing our outstanding notes. Under the terms of

the indentures, we have the right to make certain redemptions and, depending on market conditions and covenant restrictions, may do so from time to time. We may also make debt purchases and/or exchanges through open market purchases, private transactions or otherwise from time to time depending on market conditions and covenant restrictions.

Total inventory decreased \$1.3 billion, excluding inventory not owned, during the fiscal year ended October 31, 2008. This decrease excluded the decrease in consolidated inventory not owned of \$107.3 million consisting of specific performance options, options with variable interest entities, and other options that were added to our balance sheet in accordance with SFAS 49, SFAS 98, and EITF 97-10, and variable interest entities in accordance with FIN 46R. See "Notes to Consolidated Financial Statements"—Note 19 for additional information on FIN 46R. Total inventory decreased in the Northeast \$203.9 million, in the Mid-Atlantic \$189.8 million, in the Midwest \$29.6 million, in the Southeast \$166.8 million, in the Southwest \$138.4 million, and in the West \$523.4 million. These decreases were due to decisions to delay or terminate new communities, as well as slow spending in current communities and due to inventory impairments recorded in these segments. Substantially all homes under construction or completed and included in inventory at October 31, 2008 are expected to be closed during the next 12 months. Most inventory completed or under development was/is partially financed through our line of credit, preferred stock and senior secured, senior and senior subordinated indebtedness.

Despite the decrease in total inventory, our inventory representing "Land and land options held for future development or sale" on the Consolidated Balance Sheets increased by \$197.9 million compared to October 31, 2007. The increase is due to "Sold and unsold home and lots under development inventory" being reclassified to "Land and land options held for future development or sale inventory" when we decide to mothball (or stop development on) a community. We mothball communities when we determine the current performance does not justify further investment at this time. That is, we believe we will generate higher returns if we avoid spending money to improve land today and save the raw land until such times as the markets improve. As of October 31, 2008, we have mothballed land in 54 communities. The book value associated with these 54 communities at October 31, 2008 was \$550.4 million, net of an impairment balance of \$290.1 million. We continually review communities to determine if mothballing is appropriate.

We usually option property for development prior to acquisition. By optioning property, we are only subject to the loss of the cost of the option and predevelopment costs if we choose not to exercise the option. As a result, our commitment for major land acquisitions is reduced. Inventory impairment losses, which include inventory that has been written-off or written-down, increased \$252.3 million for the fiscal year ended October 31, 2008, compared to the prior year. During the fiscal year 2008, we incurred \$596.0 million in write-downs primarily attributable to impairments as a result of a continued decline in sales pace, sales price and general market conditions, as well as increased cancellation rates. In addition, we wrote-off costs in the amount of \$114.1 million during the fiscal year ended October 31, 2008.

The following table summarizes home sites included in our total residential real estate. The decrease in total home sites available in 2008 compared to 2007 is partially attributable to terminating certain option agreements, as discussed herein.

	Total Home Sites	Contracted Not Delivered	Remaining Home Sites Available
October 31, 2008:

The following table summarizes our started or completed unsold homes and models, excluding unconsolidated joint ventures, in active and substantially completed communities:

	October 31, 2008			October 31, 2007		
	Unsold Homes	Models	Total	Unsold Homes	Models	Total
Northeast	186	33	219	301	49	350
Mid-Atlantic	182	19	201	318	3	321
Midwest	70	27	97	125	28	153
Southeast	181	20	201	386	24	410
Southwest	566	125	691	787	91	878
West	90	97	187	473	237	710
Total	1,275	321	1,596	2,390	432	2,822
Started or completed unsold homes and models per active selling communities ⁽¹⁾	4.5	1.1	5.6	5.5	1.0	6.5

(1) Active selling communities were 284 at October 31, 2008 and 431 at October 31, 2007.

The decrease in total unsold homes compared to the prior year is primarily due to an effort to sell inventoried homes during fiscal 2008. In some instances, this required giving additional incentives to homebuyers on completed unsold homes.

Investments in and advances to unconsolidated joint ventures decreased \$105.3 million during the fiscal year ended October 31, 2008. A significant portion of the decrease is the result of consolidating a previously unconsolidated land development joint venture in our West segment, when our partner in the joint venture decided to terminate its investment. There was no debt associated with this joint venture and no further financial obligations required from us. However, we will be responsible for property taxes on the land previously owned by the joint venture going forward. Upon consolidating, no additional funds were invested in this land, as we had already invested the money in the lots via our investment in the joint venture. We decided not to walk away from the land investment of the joint venture because we believe we will be able to recover a portion of the original basis, whether or not developed. Because of the consolidation, we now own

the lots outright and they are included in our consolidated lot count. This resulted in reclassing \$61.5 million investment in this joint venture to inventory. This inventory was subsequently impaired by \$41.1 million in the fourth quarter of 2008 and we have mothballed the community for the time being. Also contributing to the decrease in investments in and advances to unconsolidated joint ventures are distributions received from joint ventures and losses incurred by joint ventures, primarily related to inventory impairments and land option and walk away costs during fiscal 2008, partially offset by increases resulting from joint venture income not distributed and additional investments in joint ventures. As of October 31, 2008, we have investments in ten homebuilding joint ventures and seven land development joint ventures. Other than guarantees limited only to completion of development, environmental indemnification and standard indemnification for fraud and misrepresentation including voluntary bankruptcy, we have no guarantees associated with unconsolidated joint ventures.

Receivables, deposits and notes decreased \$31.1 million to \$78.8 million at October 31, 2008. The decrease is primarily due to the receipt of cash of \$20.2 million from insurance carriers related to outstanding warranty claims, as well as the return of refundable deposits as we complete communities and the required land development.

Property, plant and equipment decreased \$14.0 million primarily due to depreciation and disposals, which were not offset by additions during the period as we elected to reduce our investment in new property, plant and equipment in the current market environment.

Prepaid expenses and other assets are as follows as of:

(In Thousands)	October 31, 2008	October 31, 2007	Dollar Change
Prepaid insurance	\$ 8,262	\$ 6,769	\$ 1,493
Prepaid project costs	82,394	110,439	(28,045)
Senior residential rental properties	7,321	7,694	(373)
Other prepaids	49,167	20,995	28,172
Other assets	9,451	28,135	(18,684)
Total	\$156,595	\$174,032	\$(17,437)

Prepaid insurance increased slightly due to the timing of payments for insurance premium costs. These costs are amortized over the life of the associated insurance policy. Prepaid project costs decreased for homes delivered and have not been replenished, as we have reduced the number of active selling communities given the current homebuilding environment. Prepaid project costs consist of community specific expenditures that are used over the life of the community. Such prepaids are expensed as homes are delivered. Other prepaids increased primarily as a result of fees paid in connection with the issuance of

the \$600 million 11½% senior secured notes due 2013 in May 2008. This increase was partially offset by a decrease for bank fees paid in connection with the entering into the Seventh Amended and Restated Credit Agreement in March 2008, which normally would be amortized over the loan period. Because we amended and reduced the aggregate commitment of the facility effective May 27, 2008, we wrote off a significant portion of these bank fees in the third quarter of fiscal 2008. Other assets decreased because there were significant distributions in the first quarter from our executive deferred compensation plan. These distributions also resulted in a corresponding decrease in accrued compensation discussed below under Accounts payable and other liabilities.

At October 31, 2007, we had \$32.7 million of goodwill. This amount resulted from Company acquisitions prior to fiscal 2002. As required by SFAS 142, Goodwill and Other Intangible Assets ("SFAS 142"), we performed an annual assessment of this goodwill for impairment, and despite years of significant income generation in the markets with goodwill, primarily Texas in the Southwest segment and the Mid-Atlantic segment, the current financial projections of these markets has resulted in a full impairment of existing goodwill. As such, as of October 31, 2008, the goodwill balance is zero. The impairment was written off in the line "Goodwill and intangible amortization and impairment" on the Consolidated Statement of Operations.

Definite life intangibles decreased \$4.2 million to zero at October 31, 2008. The decrease was the result of amortization during the twelve months of \$1.5 million, and the write-off of \$2.7 million for impaired intangible assets. In fiscal 2008, we determined that the remaining intangible assets in our Mid-Atlantic and Southeast segments were impaired, and wrote off the assets accordingly.

Financial Services - Mortgage loans held for sale or investment consist primarily of residential mortgages receivable held for sale of which \$87.5 million and \$177.0 million at October 31, 2008 and October 31, 2007, respectively, were being temporarily warehoused and awaiting sale in the secondary mortgage market. Also included are residential mortgages receivable held for investment of \$3.2 million and \$5.6 million at October 31, 2008 and October 31, 2007, which represent loans that cannot currently be sold at reasonable terms in the secondary mortgage market. We may incur risk with respect to mortgages that are delinquent, but only to the extent the losses are not covered by mortgage insurance or resale value of the house. Historically, we have incurred minimal credit losses. We have reserves for potential losses on mortgages we currently hold. The decrease in the receivable from October 31, 2007 is directly related to

a decrease in the amount of loans financed at October 31, 2008 as compared to October 31, 2007.

Income taxes receivable decreased \$67.6 million from October 31, 2007 to \$126.8 million. The decrease is primarily due to the receipt of our federal tax refund for fiscal year 2007 during the third quarter of fiscal 2008 of \$94.7 million, offset by the current tax receivable which can be carried back to 2006. The recoverability of the tax asset is limited to the use of loss carrybacks to 2006 and existing deferred tax liabilities. See Total Taxes later in Item 7 for further discussion of the valuation allowances recorded during fiscal 2008.

Accounts payable and other liabilities are as follows as of:

(In Thousands)	October 31, 2008	October 31, 2007	Dollar Change
Accounts payable	\$167,407	\$170,091	\$ (2,684)
Reserves	133,423	131,790	1,633
Accrued expenses	59,394	97,753	(38,359)
Accrued compensation	27,211	53,767	(26,556)
Other liabilities	33,260	62,021	(28,761)
Total	\$420,695	\$515,422	\$(94,727)

The decrease in accounts payable was primarily due to the lower volume of deliveries in the fourth quarter of 2008 compared to the prior year. The decrease in accrued expenses is primarily due to payments made for land options with letters of credit that were terminated and accrued in the fourth quarter of fiscal 2007. The decrease in accrued compensation was primarily due to the significant distributions in the first quarter from our executive deferred compensation plan as well as lower bonus accruals at October 31, 2008 compared to October 31, 2007. The decrease in other liabilities is primarily related to accrued costs paid for resolution of matter with respect to our Fort Myers operations, and the final scheduled payment associated with a 2005 acquisition, offset by an increase in deferred revenue on GMAC model homes.

Nonrecourse Land Mortgages decreased \$8.6 million from October 31, 2007 to \$0.8 million at October 31, 2008. The decrease is primarily due to purchase money mortgages for a property in our Mid-Atlantic segment that were paid during fiscal 2008.

Customer deposits decreased \$36.5 million from October 31, 2007 to \$28.7 million at October 31, 2008. The decrease is primarily due to the reduction in the number of homes in backlog from 5,938 at October 31, 2007 to 1,907 at October 31, 2008.

Mortgage warehouse line of credit under our secured Master Repurchase Agreement decreased \$86.3 million from \$171.1 million at October 31, 2007 to \$84.8 million at October 31, 2008. The decrease is

directly correlated to the decrease in mortgage loans held for sale from October 31, 2007 to October 31, 2008.

Liabilities from inventory not owned and Minority interest from inventory not owned decreased \$54.9 million and \$37.4 million, respectively, from \$189.9 million and \$62.2 million, respectively, at October 31, 2007 to \$135.1 million and \$24.9 million at October 31, 2008, respectively. These decreases are directly correlated to the decrease in "Consolidated inventory not owned" on the Consolidated Balance Sheets, which is discussed above.

Accrued interest increased \$28.5 million from \$43.9 million at October 31, 2007 to \$72.5 million at October 31, 2008. The increase is primarily due to interest on our new \$600 million Senior Secured Notes due 2013.

Results of Operations

Total Revenues

Compared to the same prior period, revenues increased (decreased) as follows:

(Dollars in Thousands)	Year Ended		
	October 31, 2008	October 31, 2007	October 31, 2006
Homebuilding:			
Sale of homes	\$(1,403,522)	\$(1,322,012)	\$725,732
Land sales	(50,179)	(32,434)	52,130
Other revenues	(13,137)	18,539	4,729
Financial services	(23,972)	(13,407)	17,227
Total change	\$(1,490,810)	\$(1,349,314)	\$799,818
Total revenues percent change	(31.1)%	(22.0)%	15.0%

Homebuilding

Compared to the same prior period, housing revenues decreased \$1,403.5 million, or 30.6%, for the year ended October 31, 2008, decreased \$1,322.0 million, or 22.4%, for the year ended October 31, 2007, and increased \$725.7 million or 14.0%, for the year ended October 31, 2006. Increases in 2006 were the result of both organic growth and acquisition of other homebuilders. Decreased revenue in 2007 and 2008 are primarily due to weakening market conditions and increased competition in most of our markets. Housing revenues are recorded at the time when title is conveyed to the buyer, adequate cash payment has been received and there is no continued involvement. Land sales are ancillary to our residential homebuilding operations and are expected to continue in the future but may significantly fluctuate up or down. For further details on land sales and other revenues, see the section titled "Land Sales and Other Revenues" below.

Information on homes delivered by segment is set forth below:

(Housing Revenue in Thousands)	Year Ended		
	October 31, 2008	October 31, 2007	October 31, 2006

Homes delivered	11,281	14,928	20,201
Average price	\$ 304,978	\$ 342,740	\$ 335,212

(1) Southeast includes deliveries from our acquisition of CraftBuilt Homes on April 17, 2006.

The decrease in housing revenues during the year ended October 31, 2008 was primarily due to weakening market conditions in most of our markets. Housing revenues in 2008 decreased in all of our homebuilding segments combined by 30.6%, and average sales prices decreased 11.0%. In our homebuilding segments, homes delivered decreased 29.4%, 35.2%, 7.5%, 7.2%, 28.2% and 19.2% in the Northeast, Mid-Atlantic, Midwest, Southeast, Southwest and West, respectively.

Unaudited quarterly housing revenues and net sales contracts by segment, excluding unconsolidated joint ventures, for the years ending October 31, 2008, 2007 and 2006 are set forth below:

(In Thousands)	Quarter Ended			
	October 31, 2008	July 31, 2008	April 30, 2008	January 31, 2008
Housing revenues:				
Northeast	\$ 181,158	\$ 169,394	\$ 168,590	\$ 160,346

Consolidated total	\$ 980,340	\$1,095,022	\$1,386,209	\$1,153,657

Our reported level of sales contracts (net of cancellations) has been impacted by a slow down in sales and an increase in our cancellation rates over the past two years, due to weakening market conditions and tighter mortgage loan underwriting criteria. Cancellation rates represent the number of cancelled contracts in the quarter divided by the number of gross sales contracts executed in the quarter. For comparison, the following are historical cancellation rates, excluding unconsolidated joint ventures. The more recent spike in the fourth quarter of fiscal 2008 cancellation rate, we believe, is partially due to the significant financial market turmoil that began in mid-September 2008:

Quarter	2008	2007	2006	2005	2004
First	38%	36%	30%	27%	23%
Second	29%	32%	32%	21%	19%
Third	32%	35%	33%	24%	20%
Fourth	42%	40%	35%	25%	24%

Another common and meaningful way to analyze our cancellation trends is to compare the number of contract cancellations as a percentage of beginning backlog. The following table provides this historical comparison, excluding unconsolidated joint ventures.

Quarter	2008	2007	2006	2005	2004
First	16%	17%	11%	15%	14%
Second	24%	19%	15%	17%	18%
Third	20%	18%	14%	15%	13%
Fourth	30%	26%	16%	12%	15%

Historically, most cancellations occur within the legal rescission period, which varies by state but is generally less than two weeks. Cancellations also occur as a result of a buyer's failure to qualify for a mortgage, which generally occurs during the first few weeks after signing. However, in 2008 and 2007, we have experienced a higher than normal number of cancellations later in the construction process. These cancellations are related primarily to falling prices, sometimes due to new discounts offered by us or other builders, leading the buyer to lose confidence in their contract price and due to tighter mortgage underwriting criteria leading to some customer's inability to be approved for a mortgage loan. In some cases, the buyer will walk away from a significant nonrefundable deposit that we recognize as other revenues. We expect that cancellation rates will return to a more normal level at some point as prices stabilize, but it is difficult to predict when this will occur, and the timing will vary by market.

An important indicator of our future results is recently signed contracts and our home contract backlog for future deliveries. Our consolidated contract backlog, excluding unconsolidated joint ventures, using base

sales prices by segment is set forth below:

(Dollars In Thousands)	October 31, 2008	October 31, 2007	October 31, 2006
Northeast:			
Total contract backlog	\$ 215,604	\$ 503,445	\$ 591,849
Number of homes	497	975	1,218
Mid-Atlantic:			
Total contract backlog	\$ 165,871	\$ 358,778	\$ 562,670
Number of homes	385	753	1,134
Midwest:			
Total contract backlog	\$ 61,108	\$ 153,171	\$ 117,148
Number of homes	291	759	668
Southeast:			
Total contract backlog	\$ 45,657	\$ 614,575	\$ 1,093,299
Number of homes	163	2,151	3,813
Southwest:			
Total contract backlog	\$ 100,305	\$ 174,206	\$ 224,482
Number of homes	420	751	999
West:			
Total contract backlog	\$ 57,642	\$ 205,716	\$ 334,102
Number of homes	151	549	664
Totals:			
Total consolidated contract backlog	\$ 646,187	\$ 2,009,891	\$ 2,923,550
Number of homes	1,907	5,938	8,496

The decline in our backlog from October 31, 2007 to October 31, 2008 is a direct result of a falloff in our contract pace. Our net contracts for the full year of fiscal 2008, excluding unconsolidated joint ventures, declined 40.5% compared to fiscal 2007. In the month of November 2008, excluding unconsolidated joint ventures, we signed an additional 284 net contracts amounting to \$63.4 million in contract value.

Cost of sales includes expenses for consolidated housing and land and lot sales, including inventory impairment loss and land option write-offs (defined as

“land charges” in the schedules below). A breakout of such expenses for consolidated housing sales and housing gross margin is set forth below:

(Dollars In Thousands)	Year Ended		
	October 31, 2008	October 31, 2007	October 31, 2006
Sale of homes	\$3,177,853	\$4,581,375	\$5,903,387
Cost of sales, excluding interest expense	2,965,886	3,890,474	4,538,795
Homebuilding gross margin, before cost of sales interest expense and land charges	211,967	690,901	1,364,592
Cost of sales interest expense, excluding land sales interest expense	136,439	130,825	106,892
Homebuilding gross margin, after cost of sales interest expense, before land charges	75,528	560,076	1,257,700
Land charges	710,120	457,773	336,204
Homebuilding gross margin, after cost of sales interest expense and land charges	\$ (634,592)	\$ 102,303	\$ 921,496
Gross margin percentage, before cost of sales interest expense and land charges	6.7%	15.1%	23.1%
Gross margin percentage, after cost of sales interest expense, before land charges	2.4%	12.2%	21.3%
Gross margin percentage after cost of sales interest expense and land charges	(20.0)%	2.2%	15.6%

Cost of sales expenses as a percentage of consolidated home sales revenues are presented below:

	Year Ended		
	October 31, 2008	October 31, 2007	October 31, 2006
Sale of homes	100%	100.0%	100.0%
Cost of sales, excluding interest:			
Housing, land and development costs	82.1%	74.3%	68.6%
Commissions	2.7%	2.8%	2.5%
Financing concessions	1.7%	1.4%	1.0%
Overheads	6.8%	6.4%	4.8%
Total cost of sales, before interest expense and land charges	93.3%	84.9%	76.9%
Gross margin percentage, before cost of sales interest expense and land charges	6.7%	15.1%	23.1%
Cost of sales interest	4.3%	2.9%	1.8%
Gross margin percentage, after cost of sales interest expense and before land charges	2.4%	12.2%	21.3%

We sell a variety of home types in various communities, each yielding a different gross margin. As a result, depending on the mix of communities delivering homes, consolidated gross margin may fluctuate up or down. Total homebuilding gross margins, before interest expense and land impairment and option write off charges decreased to 6.7% for the year ended October 31, 2008 compared to 15.1% for the same period last year. Continued declines in percentages in fiscal 2008 are primarily the result of decreased sales prices and increased buyer concessions. The declining pace of sales in our markets in 2006, 2007 and 2008 has led to intense competition in many of our specific community locations. In order to maintain a reasonable pace of absorption, we have increased incentives, reduced lot location premiums, as well as lowered some base prices, all of which have impacted our margins significantly. In addition, homes for which contracts have been cancelled have typically been resold at a lower price, resulting in a further decline in margins. As discussed in "Homebuilding Results by Segment" below, certain of our segments experienced increases in average selling prices for the year ended October 31, 2008 compared to 2007. It should be noted however, that these increases are primarily the result of geographic and community mix of our deliveries, rather than an ability to increase home prices.

Reflected as inventory impairment loss and land option write-offs in cost of sales ("land charges"), we have written-off or written-down certain inventories totaling \$710.1 million, \$457.8 million, and \$336.2 million during the years ended October 31, 2008, 2007, and 2006, respectively, to their estimated fair value. See "Notes to Consolidated Financial Statements— Note 13" for an additional discussion. During the years ended October 31, 2008, 2007, and 2006, we wrote-off residential land options and approval and engineering costs amounting to \$114.1 million, \$126.0 million, and \$159.1 million, respectively, which are included in the total write-offs mentioned above. When a community is redesigned, abandoned engineering cost are written-off. Option and approval and engineering costs are written-off when a community's proforma profitability does not produce adequate returns on the investment commensurate with the risk and we cancel the option. Such write-offs were located in all of our segments. The impairments amounting to \$596.0 million, \$331.8 million and \$177.1 million for the years ending October 31, 2008, 2007 and 2006, respectively, were incurred because of recent changes in the value of land in many of our markets and a change in the market strategy to liquidate a particular property or lower sales prices.

Below is a break-down of our lot option walk-aways and impairments by segment for fiscal 2008. In 2008, in total, we walked away from 48.3% of all the lots we controlled under option contracts. The remaining 51.7% of our option lots are in communities that remain economically feasible, including a substantial number that were successfully renegotiated over the past year. The largest concentration of lots we walked away from was in the Mid-Atlantic and Southeast segments.

The following table represents lot option walk-aways by segment for the year ended October 31, 2008:

(In Millions)	Dollar Amount of Walk Away	Number of Walk-Away Lots	% of Walk-Away Lots	Total Option Lots at October 31, 2008(1)	Walk-Away Lots as a % of Total Lots
Northeast	\$ 20.7	2,155	14.0%	7,069	30.5%
Mid-Atlantic	45.6	5,017	32.6%	8,183	61.3%
Midwest	0.7	257	1.7%	2,537	10.1%
Southeast	32.2	5,833	38.0%	7,169	81.4%
Southwest	10.4	1,689	11.0%	5,321	31.7%
West	4.5	419	2.7%	1,555	26.9%
Total	\$114.1	15,370	100.0%	31,834	48.3%

(1) Includes lots optioned that the Company walked-away from in the year ended October 31, 2008.

The following table represents impairments by segment for the year ended October 31, 2008:

(In Millions)	Dollar Amount of Impairment	% of Impairments	Pre-Impairment Value	% of Pre-Impairment Value
Northeast	\$ 43.5	7.3%	\$ 208.2	20.9%
Mid-Atlantic	38.1	6.4%	155.3	24.5%
Midwest	7.7	1.3%	32.3	23.8%
Southeast	53.4	9.0%	160.5	33.3%
Southwest	81.1	13.6%	212.8	38.1%
West	372.2	62.4%	1,018.2	36.6%
Total	\$596.0	100.0%	\$1,787.3	33.3%

Homebuilding selling, general, and administrative expenses decreased to \$377.1 million for the year ended October 31, 2008, and decreased to \$539.4 million for the year ended October 31, 2007 from \$593.9 million for the year ended October 31, 2006. The decrease in expenses in 2008 and 2007 is the result of a reduction of personnel in order to better manage our overhead during the current market decline, partially offset by severance costs associated with involuntary terminations that occurred during the year and decreases in incentive compensation, that were based on profitability. Also adding to the decrease is the reduction in the number of open for sale communities of 284 in fiscal 2008 from 431 in fiscal 2007.

Land Sales and Other Revenues

Land sales and other revenues consist primarily of land and lot sales. A breakout of land and lot sales is set forth below:

(In Thousands)	Year Ended		
	October 31, 2008	October 31, 2007	October 31, 2006
Land and lot sales	\$57,776	\$107,955	\$140,389
Cost of sales, excluding interest	45,016	87,179	94,286
Land and lot sales gross margin, excluding interest	12,760	20,776	46,103
Land sales interest expense	9,522	1,132	1,437
Land and lot sales gross margin, including interest	\$ 3,238	\$ 19,644	\$ 44,666

Land sales are ancillary to our residential homebuilding operations and are expected to continue in the future but may significantly fluctuate up or down. Profits from land sales for the year ended October 31, 2008 were less than for the year ended October 31, 2007.

Although we budget land sales, they are often dependent upon receiving approvals and entitlements, the timing of which can be uncertain. As a result, projecting the amount and timing of land sales is difficult.

Other revenues decreased \$13.1 million for the year ended October 31, 2008 compared to the year ended October 31, 2007. Other revenues include income from contract cancellations, where the deposit has been forfeited due to contract terms, interest income, cash discounts and miscellaneous one-time receipts. For fiscal 2007, Other revenues also included \$19.1 million related to the termination of our Credit Agreement and Agreement for Letter of Credit with Citicorp USA, Inc. which was the primary reason for the decrease from fiscal 2008 to 2007. This is also the cause of the \$18.5 million increase in Other revenue for the year ended October 31, 2007 when compared to the year ended October 31, 2006.

Homebuilding Operations by Segment

Financial information relating to the Company's operations was as follows:

Segment Analysis (Dollars in Thousands, except average sales price)

Homebuilding Results by Segment

Northeast—Homebuilding revenues decreased 26.5% in 2008 compared to 2007 primarily due to a 29.4% decrease in homes delivered offset by a 2.8% increase in average selling price as the mix of communities that had deliveries in 2008 was different than 2007. Loss before income taxes increased \$95.6 million to a loss of \$114.4 million, which is mainly due to a significant reduction in gross margin percentage before interest expense as the markets in this segment have become

much more competitive and a \$7.8 million increase in inventory impairment loss and land option write-offs in 2008.

Homebuilding revenues decreased 5.8% in 2007 compared to 2006 primarily due to an 8.6% decrease in homes delivered offset by a 3.1% increase in average selling price as the mix of communities that had deliveries in 2007 was different than 2006. Income before income taxes decreased \$98.9 million to a loss of \$18.8 million, which was mainly due to a significant

reduction in gross margin percentage before interest expense as the markets in this segment have become much more competitive.

Mid-Atlantic—Homebuilding revenues decreased 43.8% in 2008 compared to 2007 primarily due to a 35.2% decrease in homes delivered and a 11.3% decrease in average selling price due to increased incentives and the mix of communities delivered in 2008 was different than 2007. Income before income taxes decreased \$217.1 million to a loss of \$142.2 million, which \$64.3 million is from the increase in inventory impairment loss and land option write-offs in 2008. Additionally, there was a \$15.1 million goodwill impairment charge recorded in 2008. The segment also had a significant reduction in gross margin percentage before interest expense as the markets in this segment have become much more competitive.

Homebuilding revenues decreased 11.7% in 2007 compared to 2006 primarily due to a 2.9% decrease in homes delivered and a 7.0% decrease in average selling price due to increased incentives and the mix of communities delivered in 2007 was different than 2006. Income before income taxes was down \$81.1 million to \$74.8 million, which is mainly due to a significant reduction in gross margin percentage before interest expense as the markets in this segment have become much more competitive.

Midwest—Homebuilding revenues decreased 7.1% in 2008 compared to 2007 primarily due to a 7.5% decrease in homes delivered, while average selling prices remained flat. The decreases in deliveries was the result of a more competitive and slowing housing market. The segment loss before income taxes decreased \$42.8 million to a loss of \$37.4 million. This was due to only \$8.4 million of inventory impairment loss and land option write-offs in 2008, compared to \$28.1 million in 2007 and no intangible impairment in 2008 compared to \$14.6 million in 2007.

Homebuilding revenues increased 32.5% in 2007 compared to 2006 primarily due to a 22% increase in homes delivered and a 7.0% increase in average selling price. The increases in deliveries and average selling price were the result of organic growth in this segment in Cleveland. Despite the growth in revenues, the segment loss before income taxes increased \$20.1 million to a loss of \$80.2 million. This was due to a \$14.6 million intangible impairments and a sizable reduction in gross margin percentage before interest expense.

Southeast—Homebuilding revenues decreased 18.8% in 2008 compared to 2007 primarily due to a 7.2% decrease in homes delivered and a 9.8% decrease in average selling price. The primary reason for the decrease in deliveries and average selling price is the continuing declining market conditions in Florida and in

the mix of communities delivering homes. The loss before income taxes decreased \$122.1 million to a loss of \$146.4 million, due mainly to \$85.6 million of inventory impairment losses and land option write-offs in 2008 compared to \$113.3 million in 2007 and \$2.4 million of intangible impairments in 2008 compared to \$108.6 million in 2007.

Homebuilding revenues decreased 38.3% in 2007 compared to 2006 primarily due to a 45.4% decrease in homes delivered, partially offset by a 9.7% increase in average selling price. The primary reason for the decrease in deliveries is the continuing declining market conditions in Florida. The average price increase is due to the change in the mix of communities delivering homes. The loss before income taxes increased \$267.0 million to a loss of \$268.5 million, due mainly to a \$7.3 million increase in inventory impairment loss and land option write-offs in 2007 and \$108.6 million of intangibles impairments, as well as a significant reduction in gross margin percentage before interest expense as the markets in this segment have become much more competitive.

Southwest—Homebuilding revenues decreased 27.5% in 2008 compared to 2007 primarily due to a 28.2% decrease in homes delivered offset by 1.4% increase in average selling price. The reduction of deliveries resulted from a decline in the activity in the Arizona market, as that market has been impacted by tighter mortgage lending requirements, thus eliminating certain potential homebuyers. The increase in average selling price is due to the mix of communities that had deliveries in 2008 compared to 2007. Income before income taxes decreased \$127.2 million to a loss of \$101.5 million in 2008 mainly due to a \$75.5 million increase in inventory impairment losses and land option write-offs in 2008, a goodwill impairment of \$14.9 million and a significant reduction in gross margin percentage before interest expense.

Homebuilding revenues decreased 9.5% in 2007 compared to 2006 primarily due to a 14.3% decrease in homes delivered offset by 4.4% increase in average selling price. The reduction of deliveries resulted from a decline in the activity in the Arizona market, as that market has been impacted by tighter mortgage lending requirements, thus eliminating certain potential homebuyers. The increase in average selling price is due to the mix of communities that had deliveries in 2007 compared to 2006. Income before income taxes decreased \$50.0 million to \$25.7 million in 2007 mainly due to a \$15.4 million increase in land charges in 2007 and a reduction in gross margin percentage before interest expense.

West—Homebuilding revenues decreased 41.3% in 2008 compared to 2007 primarily due to a 19.2% decrease in homes delivered and a 28.9% decrease in average selling price. This reduced revenue was further

compounded by a significant reduction in gross margin percentage before interest expense. The decrease in deliveries and the reduced gross margin was the result of the more competitive and slowing housing market in California throughout 2007 and more so in 2008. As a result of the above and a \$152.1 million increase in inventory impairment losses and land option write-offs in 2008, loss before income taxes increased \$187.5 million to a loss of \$524.7 million in 2008.

Homebuilding revenues decreased 40.1% in 2007 compared to 2006 primarily due to a 39.2% decrease in homes delivered and a 0.6% decrease in average selling price. This reduced revenue was further compounded by a significant reduction in gross margin percentage before interest expense. The decrease in deliveries and the reduced gross margin was the result of the more competitive and slowing housing market in California throughout 2007. As a result of the above and a \$123.2 million increase in inventory impairment losses and land option write-offs in 2007, income before income taxes decreased \$386.3 million to a loss of \$337.2 million in 2007.

Financial Services

Financial services consist primarily of originating mortgages from our homebuyers, selling such mortgages in the secondary market, and title insurance activities. During the years ended October 31, 2008, October 31, 2007, and October 31, 2006, financial services provided a \$16.7 million, \$27.9 million, and \$31.0 million pretax profit, respectively. In 2008 financial services revenue decreased \$24.0 million to \$52.2 million due to a decrease in the number of mortgage settlements and a decrease in the average loan amount. Revenues from October 31, 2006 to October 31, 2007 decreased \$13.4 million to \$76.2 million consistent with our reduction in deliveries. In the market areas served by our wholly-owned mortgage banking subsidiaries, approximately 75%, 71%, and 63% of our non-cash homebuyers obtained mortgages originated by these subsidiaries during the years ended October 31, 2008, 2007, and 2006, respectively. Servicing rights on new mortgages originated by us will be sold as the loans are closed.

Corporate General and Administrative

Corporate general and administrative expenses include the operations at our headquarters in Red Bank, New Jersey. These expenses include our executive offices, information services, human resources, corporate accounting, training, treasury, process redesign, internal audit, construction services, and administration of insurance, quality, and safety. Corporate general and administrative expenses declined \$3.0 million for the year ended October 31, 2008 compared to the year ended October 31, 2007 and \$10.9 million for the year ended October 31, 2007 compared to the year ended

October 31, 2006. The reduction in expenses is due to personnel reductions, reduced bonuses and other overhead cost savings.

Other Interest

Other interest increased \$20.6 million to \$30.4 million for the year ended October 31, 2008. In 2007, other interest increased \$6.2 million to \$9.8 million for the year ended October 31, 2007. Beginning in the third quarter of fiscal 2008, our assets that qualify for interest capitalization (inventory under development) no longer exceeded our debt, and therefore a portion of interest not covered by qualifying assets must be directly expensed. The increase for 2007, from 2006, is due to the interest on completed homes in backlog in Fort Myers, unsold homes in completed high rise communities and interest on land in planning being expensed as incurred. The interest related to Fort Myers was capitalized during construction, but in 2007 many of the homes were complete. When we incur interest on completed homes, it is expensed as it no longer qualifies for capitalization.

Other Operations

Other operations consist primarily of miscellaneous residential housing operations expenses, senior rental residential property operations, earnout payments from homebuilding company acquisitions, minority interest relating to consolidated joint ventures, and corporate owned life insurance. Other operations increased \$5.0 million to \$9.8 million for the year ended October 31, 2008 and decreased \$40.4 million to \$4.8 million for the year ended October 31, 2007. The increase in other operations from October 31, 2007 to October 31, 2008, is attributed to the \$2.1 million in legal and settlement costs in 2008, related to cases dismissed in Item 3, Legal Proceedings, as well as an increase in rent expense from a new commercial rental property. The decrease from October 31, 2006 to October 31, 2007 is primarily due to decreased accrued earnout obligations, resulting from two earnout agreements ending and lower profits in fiscal 2007, compared to the prior year. Other operations was further decreased by reduced profits from a consolidated joint venture that has finished delivering the homes in its community.

Goodwill and Intangible Amortization and Impairments

We amortized our definite life intangibles over their expected useful life, ranging from one to four years. In fiscal 2008, this expense includes the impairment of the remaining \$2.7 million balance of definite life intangibles and \$32.7 million of goodwill. Goodwill and Intangible amortization and impairments decreased \$125.2 million for the year ended October 31, 2008, when compared to the same period last year. The decrease for the year ended October 31, 2008 was

primarily the result of reduced intangible amortization in 2008 as a result of the extensive write-offs during the fourth quarter of 2007, partially offset by the impairments recorded in 2008. The amortization expense increased \$107.3 million to \$162.1 million for the year ended October 31, 2007. This increase is primarily due the impairment of intangible assets of \$135.2 million previously discussed, as well as additional amortization from our 2006 acquisitions.

(Loss) Income From Unconsolidated Joint Ventures

(Loss) income from unconsolidated joint ventures consists of our share of the losses or earnings of the joint venture. The loss increased \$8.4 million to a loss of \$36.6 million for the year ended October 31, 2008. Our share of operations decreased \$43.6 million to a loss of \$28.2 million for the year ended October 31, 2007. The increase in the loss in 2008 is mainly due to our share of the losses from operations on our unconsolidated joint ventures, as well as the write-off of the investment we had in two of our homebuilding joint ventures, as the recoverability of these investments have been deemed unlikely. The loss in 2007 is primarily related to our share of the losses from inventory impairments, land-option and walk-away costs, and the write-off of the intangibles from our joint venture with Blackstone Real Estate Advisors.

Total Taxes

Total tax provision (benefit) as a percentage of the loss before taxes was 3.7% for the twelve months ended October 31, 2008. The rate was significantly below the statutory tax rate, because we recorded an additional \$409.6 million charge to our current and deferred tax asset valuation allowance in the twelve months ended October 31, 2008, as discussed further below.

Deferred federal and state income tax assets primarily represent the deferred tax benefits arising from temporary differences between book and tax income which will be recognized in future years as an offset against future taxable income. If, for some reason, the combination of future years income (or loss) combined with the reversal of the timing differences results in a loss, such losses can be carried back to prior years or carried forward to future years to recover the deferred tax assets. In accordance with SFAS No. 109, "Accounting for Income Taxes" ("SFAS 109"), we evaluate our deferred tax assets quarterly to determine if valuation allowances are required. SFAS 109 requires that companies assess whether valuation allowances should be established based on the consideration of all available evidence using a "more likely than not" standard. Given the continued downturn in the homebuilding industry during 2007 and 2008, resulting in additional inventory and intangible impairments, we are now in a three-year cumulative loss position. According to SFAS 109, a three-year cumulative loss is

significant negative evidence in considering whether deferred tax assets are realizable and also precludes relying on projections of future taxable income to support the recovery of deferred tax assets. Therefore, during the fourth quarter of 2007, we recorded a valuation allowance of \$265.9 million against our deferred tax assets. Our valuation allowance for current and deferred taxes increased \$409.6 million during the twelve months ended October 31, 2008, to \$675.5 million at October 31, 2008. Our deferred tax assets at October 31, 2007 and October 31, 2008, for which there is no valuation allowance, relate to amounts that can be realized through future reversals of existing taxable temporary differences or through carrybacks to the 2005 and 2006 years.

Off-Balance Sheet Financing

In the ordinary course of business, we enter into land and lot option purchase contracts in order to procure land or lots for the construction of homes. Lot option contracts enable us to control significant lot positions with a minimal capital investment and substantially reduce the risks associated with land ownership and development. At October 31, 2008, we had \$69.9 million in option deposits in cash and letters of credit to purchase land and lots with a total purchase price of \$862.8 million. Our liability is generally limited to forfeiture of the nonrefundable deposits, letters of credit and other nonrefundable amounts incurred. We have no material third party guarantees. However, \$9.4 million of the \$862.8 million in land and lot option purchase contracts contain specific performance clauses which require us to purchase the land or lots upon satisfaction of certain requirements by both the sellers and the Company. Therefore, this specific performance obligation of \$9.4 million, which is the purchase price for these lots net of cash deposits already paid, is recorded on the balance sheet in Liabilities from inventory not owned.

Pursuant to FASB Interpretation No. 46 (FIN 46R), "Consolidation of Variable Interest Entities" ("VIE"), we consolidated \$77.0 million of inventory not owned at October 31, 2008, representing the fair value of the optioned property. Additionally, to reflect the fair value of the inventory consolidated under FIN 46R, we eliminated \$8.3 million of its related cash deposits for lot option contracts, which are included in Consolidated inventory not owned. Since we do not own an equity interest in any of the unaffiliated variable interest entities that we must consolidate pursuant to FIN 46R, we generally have little or no control or influence over the operations of these entities or their owners. When our requests for financial information are denied by the land sellers, certain assumptions about the assets and liabilities of such entities are required. In most cases, the fair value of the assets of the consolidated entities have been based on the

remaining contractual purchase price of the land or lots we are purchasing. In these cases, it is assumed that the entities have no debt obligations and the only asset recorded is the land or lots we have the option to buy with a related offset to minority interest for the assumed third party investment in the variable interest entity. At October 31, 2008, the balance reported in Minority interest from inventory not owned was

Contractual Obligations

The following summarizes our aggregate contractual commitments at October 31, 2008:

(In Thousands)	Payments Due by Period				
	Total	Less than 1 year	1-3 years	3-5 years	More than 5 years
Long term debt(1)	\$3,635,738	\$209,104	\$507,209	\$1,556,340	\$1,363,085
Operating leases	78,493	18,942	27,169	16,534	15,848
Purchase obligations(2)	11,226	10,089	1,137	—	—
Total	\$3,725,457	\$238,135	\$535,515	\$1,572,874	\$1,378,933

(1) Represents our Senior Secured, Senior and Senior Subordinated Notes, Other Notes Payable and related interest payments for the life of the debt of \$1,097.1 million. Interest on variable rate obligations is based on rates effective as of October 31, 2008. See Note 23 to the Consolidated Financial Statements for a discussion of the exchange offer completed in December 2008.

(2) Represents obligations under option contracts with specific performance provisions, net of cash deposits.

We had outstanding letters of credit and performance bonds of approximately \$197.5 million and \$632.5 million, respectively, at October 31, 2008 related principally to our obligations to local governments to construct roads and other improvements in various developments. We do not believe that any such letters of credit or bonds are likely to be drawn upon.

Inflation

Inflation has a long-term effect, because increasing costs of land, materials, and labor result in increasing sale prices of our homes. In general, these price increases have been commensurate with the general rate of inflation in our housing markets and have not had a significant adverse effect on the sale of our homes. A significant risk faced by the housing industry generally is that rising house construction costs, including land and interest costs, will substantially outpace increases in the income of potential purchasers. Recently in the more highly regulated markets that have seen significant home price appreciation, customer affordability has become a concern. Our broad product array insulates us to some extent, but customer affordability of our homes is something we monitor closely.

Inflation has a lesser short-term effect, because we generally negotiate fixed price contracts with many, but not all, of our subcontractors and material suppliers for the construction of our homes. These prices usually are applicable for a specified number of residential buildings or for a time period of between three to twelve months. Construction costs for residential buildings represent approximately 59.3% of our homebuilding cost of sales.

\$24.9 million. At October 31, 2008, we had cash deposits and letters of credit totaling \$8.7 million, representing our current maximum exposure associated with the consolidation of lot option contracts. Creditors of these VIEs, if any, have no recourse against us. In addition, see Note 19 to the Consolidated Financial Statements for disclosure related to our investment in unconsolidated joint ventures.

Mergers and Acquisitions

On April 17, 2006, we acquired for cash the assets of CraftBuilt Homes, a privately held homebuilder headquartered in Bluffton, South Carolina. The acquisition expands our operations into the coastal markets of South Carolina and Georgia. CraftBuilt Homes designs, markets and sells single family detached homes. Due to its close proximity to Hilton Head, CraftBuilt Homes focuses on first-time, move-up, empty-nester and retiree homebuyers. This acquisition is being accounted for as a purchase with the results of its operations included in our consolidated financial statements as of the date of the acquisition.

In connection with the CraftBuilt Homes acquisition, we have definite life intangible assets equal to the excess purchase price over fair value of net tangible assets of \$4.5 million in aggregate. During the fourth quarter of 2008, we determined that these assets were impaired and wrote off the remaining asset balance of \$2.7 million. Prior to the impairment, we were amortizing the definite life intangibles over their estimated lives.

On May 1, 2006, we acquired through the issuance of 175,936 shares of Class A common stock substantially all of the assets of two mechanical contracting businesses. These acquisitions were accounted for as purchases with the results of their operations included in our consolidated financial statements as of the date of acquisition.

In connection with the two mechanical contracting business acquisitions, we recorded definite life intangible assets equal to the excess purchase price over fair value of net tangible assets of \$4.0 million in aggregate. During the fourth quarter of fiscal 2007, we

determined that these intangible assets were impaired and wrote off the remaining asset balance of \$2.8 million. Prior to the impairment, we were amortizing the definite life intangibles over their estimated lives.

All fiscal 2006 acquisitions provide for other payments to be made, generally dependant upon achievement of certain future operating and return objectives, however, we do not expect to make any future payments based on our forecasts for these businesses.

Safe Harbor Statement

All statements in this Form 10-K that are not historical facts should be considered as "Forward-Looking Statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Although we believe that our plans, intentions and expectations reflected in, or suggested by such forward-looking statements are reasonable, we can give no assurance that such plans, intentions, or expectations will be achieved. Such risks, uncertainties and other factors include, but are not limited to:

- Changes in general and local economic and industry and business conditions;
- Adverse weather conditions and natural disasters;
- Changes in market conditions and seasonality of the Company's business;
- Changes in home prices and sales activity in the markets where the Company builds homes;
- Government regulation, including regulations concerning development of land, the home building, sales and customer financing processes, and the environment;
- Fluctuations in interest rates and the availability of mortgage financing;
- Shortages in, and price fluctuations of, raw materials and labor;
- The availability and cost of suitable land and improved lots;
- Levels of competition;

Long Term Debt Tables

Long Term Debt as of October 31, 2008 by Year of Debt Maturity

(Dollars in Thousands)	2009	2010	2011	2012	2013	Thereafter	Total	FMV at 10/31/08
Long term debt(1)(2):	\$1,615	\$100,850	\$ 910	\$250,973	\$751,041	\$1,432,733	\$2,538,122	\$1,147,422
Fixed rate								
Weighted average interest rate	6.69%	6.01%	6.77%	8.52%	10.74%	6.99%	8.21%	

(1) Does not include the mortgage warehouse line of credit made under our secured master repurchase agreement.

(2) See Note 23 to the Consolidated Financial Statements for a discussion of the exchange offer completed in December 2008.

- Availability of financing to the Company;
- Utility shortages and outages or rate fluctuations;
- Levels of indebtedness and restrictions on the Company's operations and activities imposed by the agreements governing the Company's outstanding indebtedness;
- Operations through joint ventures with third parties;
- Product liability litigation and warranty claims;
- Successful identification and integration of acquisitions;
- Significant influence of the Company's controlling stockholders; and
- Geopolitical risks, terrorist acts and other acts of war.

Certain risks, uncertainties, and other factors are described in detail in Item 1 "Business" and Item 1A "Risk Factors" in this Form 10-K. Except as otherwise required by applicable securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, changed circumstances or any other reason after the date of this Form 10-K.

ITEM 7A

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

A primary market risk facing us is interest rate risk on our long term debt. In connection with our mortgage operations, mortgage loans held for sale and the associated mortgage warehouse line of credit under our secured master repurchase agreement are subject to interest rate risk; however, such obligations repriced frequently and are short-term in duration. In addition, we hedge the interest rate risk on mortgage loans by obtaining forward commitments from private investors. Accordingly the risk from mortgage loans is not material. We do not use financial instruments to hedge interest rate risk except with respect to mortgage loans. We are also subject to foreign currency risk but we do not believe this risk is material. The following tables set forth as of October 31, 2008 and 2007, our long term debt obligations, principal cash flows by scheduled maturity, weighted average interest rates and estimated fair market value ("FMV").

(Dollars in Thousands)	2008	2009	2010	2011	2012	Thereafter	Total	FMV at 10/31/07
Long term debt(1)(2):	\$10,178	\$ 800	\$100,855	\$ 914	\$250,979	\$1,583,690	\$1,947,416	\$1,519,516
Fixed rate								
Weighted average interest rate	5.26%	6.73%	6.01%	6.77%	8.52%	7.06%	7.18%	

(1) Does not include the mortgage warehouse line of credit made under our secured master repurchase agreement.

(2) See Note 23 of the Consolidated Financial Statements for a discussion of the exchange offer completed in December 2008.

In addition, we have reassessed the market risk for our variable debt at October 31, 2008 under the terms of the May 2008 Amended Credit Agreement, under which interest is based on (1) one, two, three or six month LIBOR, plus 4.50%, (2) a base rate equal to the greater of PNC Bank, National Association's prime rate and the federal funds effective rate plus 0.50%, plus 2.75% or (3) an index rate based on daily LIBOR, plus 4.625%. We believe that a 1% increase in this rate would have resulted in an approximate \$1.7 million increase in interest expense for the twelve months ended October 31, 2008, assuming an average of \$171.4 million of variable rate debt outstanding from November 1, 2007 to October 31, 2008.

ITEM 9

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A

CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to the Company's management, including its chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosures. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. The Company's management, with the participation of the Company's chief executive officer and chief

financial officer, has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of October 31, 2008. Based upon that evaluation and subject to the foregoing, the Company's chief executive officer and chief financial officer concluded that the design and operation of the Company's disclosure controls and procedures are effective to accomplish their objectives.

Changes in Internal Control Over Financial Reporting

There was no change in the Company's internal control over financial reporting that occurred during the quarter ended October 31, 2008 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f).

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in Internal Control—Integrated Framework, our management concluded that our internal control over financial reporting was effective as of October 31, 2008.

The effectiveness of the Company's internal control over financial reporting as of October 31, 2008 has been audited by Ernst & Young, LLP, the Company's independent registered public accounting firm, as stated in their report below.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Hovnanian Enterprises, Inc.

We have audited Hovnanian Enterprises, Inc. and subsidiaries' (the "Company") internal control over financial reporting as of October 31, 2008, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). The Company's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with the authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Hovnanian Enterprises, Inc. and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of October 31, 2008, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the 2008 consolidated financial statements of Hovnanian Enterprises, Inc. and subsidiaries and our report dated December 23, 2008 expressed an unqualified opinion thereon.

ITEM 9B
OTHER INFORMATION

None.

PART III

ITEM 10
DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information called for by Item 10, except as set forth below in this Item 10, is incorporated herein by reference to our definitive proxy statement to be filed pursuant to Regulation 14A in connection with the Company's annual meeting of shareholders to be held on March 19, 2009, which will involve the election of directors.

Executive Officers of the Registrant

Our executive officers are listed below and brief summaries of their business experience and certain other information with respect to them are set forth following the table. Each executive officer holds such office for a one year term.

Name	Age	Position	Year Started With Company
Kevoork S. Hovnanian	85	Chairman of the Board and Director of the Company	1967
Ara K. Hovnanian	51	Chief Executive Officer, President and Director of the Company	1979
Paul W. Buchanan	58	Senior Vice President and Chief Accounting Officer	1981
Peter S. Reinhart	58	Senior Vice President and General Counsel	1978
J. Larry Sorsby	53	Executive Vice President, Chief Financial Officer and Director of the Company	1988
David G. Valiaveedan	41	Vice President—Finance	2005

Mr. K. Hovnanian founded the predecessor of the Company in 1959 (Hovnanian Brothers, Inc.) and has served as Chairman of the Board of the Company since its incorporation in 1967. Mr. K. Hovnanian was also Chief Executive Officer of the Company from 1967 to July 1997.

Mr. A. Hovnanian was appointed President in April 1988, after serving as Executive Vice President from March 1983. He has also served as Chief Executive Officer since July 1997. Mr. A. Hovnanian was elected a Director of the Company in December 1981. Mr. A. Hovnanian is the son of Mr. K. Hovnanian.

Mr. Buchanan was appointed Senior Vice President and Chief Accounting Officer in December 2007.

Mr. Buchanan was Senior Vice President and Corporate Controller from May 1990 until December 2007.

Mr. Buchanan resigned as a Director of the Company on September 13, 2002, a position in which he served since March 1982, for the purpose of reducing the number of non-independent board members.

Mr. Reinhart has been Senior Vice President and General Counsel since April 1985. Mr. Reinhart resigned as a Director of the Company on September 13, 2002, a position in which he served since December 1981, for the purpose of reducing the number of non-independent board members.

Mr. Sorsby was appointed Executive Vice President and Chief Financial Officer of the Company in October 2000 after serving as Senior Vice President, Treasurer, and Chief Financial Officer from February 1996 and as Vice President-Finance/Treasurer of the Company since March 1991. Mr. Sorsby was elected a Director of the Company in 1997.

Mr. Valiaveedan joined the Company as Vice President—Finance in September 2005. In August 2008, he was also named as an executive officer of the Company. Prior to joining the Company, Mr. Valiaveedan served as Vice President—Finance for AIG Global Real Estate Investment Corp.

Code of Ethics and Corporate Governance Guidelines

We have adopted a Code of Ethics that applies to Hovnanian's principal executive officer, principal financial officer, controller, and all other associates of the Company, including its directors and other officers. We have posted the text of this Code of Ethics on our website at www.khov.com under "Investor Relations/Corporate Governance". We have also adopted Corporate Governance Guidelines and posted them on our website at www.khov.com under "Investor Relations/Corporate Governance". A printed copy of the Code of Ethics and Guidelines is also available to the public at no charge by writing to: Hovnanian Enterprises, Inc., Attn: Human Resources Department, 110 West Front Street, P.O. Box 500, Red Bank,

N.J. 07701 or calling Corporate headquarters at 732-747-7800. We will post amendments to or waivers from our Code of Ethics that are required to be disclosed by the rules of either the SEC or the New York Stock Exchange on our website at www.khov.com under "Investor Relations/Corporate Governance".

Audit Committee and Compensation Committee Charters

We have adopted charters that apply to Hovnanian's Audit Committee and Compensation Committee. We have posted the text of these charters on our website at www.khov.com under "Investor Relations/Corporate Governance". A printed copy of each charter is available at no charge to any shareholder who requests it by writing to: Hovnanian Enterprises, Inc., Attn: Human Resources Department, 110 West Front Street, P.O. Box 500, Red Bank, N.J. 07701 or calling corporate headquarters at 732-747-7800.

ITEM 11 EXECUTIVE COMPENSATION

The information called for by Item 11 is incorporated herein by reference to our definitive proxy statement to Equity Compensation Plan Information

Plan Category	Number of Class A Common Stock securities to be issued upon exercise of outstanding options, warrants and rights (in thousands) (a)	Number of Class Stock B Common securities to be issued upon exercise of outstanding options, warrants and rights (in thousands) (a)	Weighted average exercise price of outstanding Class A Common Stock options, warrants and rights(2) (b)	Weighted average exercise price of outstanding Class B Common Stock options, warrants and rights(3) (b)	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in columns (a)) (in thousands)(1) (c)
Equity compensation plans approved by security holders:	6,501	2,188	\$16.28	\$32.32	11,274
Equity compensation plans not approved by security holders:					
Total	6,501	2,188	\$16.28	\$32.32	11,274

(1) Under the Company's equity compensation plans, securities may be issued in either Class A Common Stock or Class B Common Stock.

(2) Does not include 1,387 shares to be issued upon vesting of restricted stock, because they have no exercise price.

(3) Does not include 342 shares to be issued upon vesting of restricted stock, because they have no exercise price.

ITEM 13 CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information called for by Item 13 is incorporated herein by reference to our definitive proxy statement to be filed pursuant to Regulation 14A in connection with our annual meeting of shareholders to be held on March 19, 2009.

be filed pursuant to Regulation 14A in connection with our annual meeting of shareholders to be held on March 19, 2009.

ITEM 12 SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information called for by Item 12, except as set forth below in this Item 12, is incorporated herein by reference to our definitive proxy statement to be filed pursuant to Regulation 14A in connection with our annual meeting of shareholders to be held on March 19, 2009.

The following table provides information as of October 31, 2008 with respect to compensation plans (including individual compensation arrangements) under which our equity securities are authorized for issuance.

ITEM 14 PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information called for by Item 14 is incorporated herein by reference to our definitive proxy statement to be filed pursuant to Regulation 14A in connection with our annual meeting of shareholders to be held on March 19, 2009.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and
Stockholders of
Hovnanian Enterprises, Inc.

We have audited the accompanying consolidated balance sheets of Hovnanian Enterprises, Inc. and subsidiaries (the "Company") as of October 31, 2008 and 2007, and the related consolidated statements of operations, stockholders' equity, and cash flows for each of the three years in the period ended October 31, 2008. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Hovnanian Enterprises, Inc. and subsidiaries at October 31, 2008 and 2007, and the consolidated results of their operations and their cash flows for each of the three years in the period ended October 31, 2008, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Hovnanian Enterprises, Inc.'s internal control over financial reporting as of October 31, 2008, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated December 23, 2008 expressed an unqualified opinion thereon.

As discussed in Note 3 to the consolidated financial statements, effective November 1, 2007, the Company changed its method of accounting for uncertainty in income tax positions upon the adoption of Statements of Financial Accounting Standards Board Interpretation No. 48, "Accounting for Uncertainty in Income Taxes," and effective November 1, 2005, the Company adopted Statement of Financial Accounting Standards No. 123R, "Share-Based Payments" using the modified-prospective transition method.

Ernst + Young LLP

Supplemental disclosure of noncash investing activities:

In 2006, the Company acquired substantially all of the assets of two mechanical contracting businesses by issuing 175,936 Class A common shares with a fair value of \$5.9 million on the date of the transaction.

In 2008, the Company consolidated a previously unconsolidated joint venture, resulting in a reduction in investments in unconsolidated joint ventures and an increase in inventory of \$61.5 million.

See notes to consolidated financial statements.

1. Basis of Presentation

Basis of Presentation—The accompanying Consolidated Financial Statements include our accounts and all wholly-owned subsidiaries after elimination of all significant intercompany balances and transactions.

2. Business

Our operations consist of homebuilding, financial services, and corporate. Our homebuilding operations are made up of six reportable segments defined as Northeast, Mid-Atlantic, Midwest, Southeast, Southwest, and West. Homebuilding operations comprise the substantial part of our business, with approximately 98% of consolidated revenues for the years ended October 31, 2008 and 2007 and 99% for the year ended October 31, 2006 contributed by the homebuilding operations. We are a Delaware corporation, currently building and selling homes in 284 consolidated new home communities in New Jersey, Pennsylvania, New York, Ohio, Virginia, West Virginia, Delaware, Washington, D.C., Kentucky, Illinois, Minnesota, Maryland, Georgia, North Carolina, South Carolina, Florida, Texas, Arizona, and California. We offer a wide variety of homes that are designed to appeal to first-time buyers, first and second-time move-up buyers, luxury buyers, active adult buyers and empty nesters. Our financial services operations, which are a reportable segment, provide mortgage banking and title services to the homebuilding operations' customers. We do not retain or service the mortgages that we originate but rather sell the mortgages and related servicing rights to investors. Corporate primarily includes the operations of our corporate office whose primary purpose is to provide executive services, accounting, information services, human resources, management reporting, training, cash management, internal audit, risk management, and administration of process redesign, quality and safety.

See Note 10 "Operating and Reporting Segments" for further disclosure of our reportable segments.

3. Summary of Significant Accounting Policies

Use of Estimates—The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and these differences could have a significant impact on the financial statements.

Business Combinations—When we make an acquisition of another company, we use the purchase method of

accounting in accordance with the Statement of Financial Accounting Standards ("SFAS") No. 141 "Business Combinations" ("SFAS 141"). Under SFAS 141, we record as our cost the estimated fair value of the acquired assets less liabilities assumed. Any difference between the cost of an acquired company and the sum of the fair values of tangible and intangible assets less liabilities is recorded as goodwill. The reported income of the acquired company includes the operations of the acquired company from the date of acquisition.

Income Recognition from Home and Land Sales—We are primarily engaged in the development, construction, marketing and sale of residential single-family and multi-family homes where the planned construction cycle is less than 12 months. For these homes, in accordance with SFAS No. 66, "Accounting for Sales of Real Estate" ("SFAS 66"), revenue is recognized when title is conveyed to the buyer, adequate initial and continuing investments have been received and there is no continued involvement. In situations where the buyer's financing is originated by our mortgage subsidiary and the buyer has not made an adequate initial or continuing investment as prescribed by SFAS 66, the profit on such sales is deferred until the sale of the related mortgage loan to a third-party investor has been completed.

Additionally, in certain markets, we sell lots to customers, transferring title, collecting proceeds, and entering into contracts to build homes on these lots. In these cases, we do not recognize the revenue from the lot sale until we deliver the completed home and have no continued involvement related to that home. The cash received on the lot is recorded as customer deposits until the revenue is recognized.

Income Recognition from High-Rise/Mid-Rise Buildings—We are developing several high-rise/mid-rise buildings that will take more than 12 months to complete. If these buildings qualify, revenues and costs are recognized using the percentage of completion method of accounting in accordance with SFAS 66. Under the percentage of completion method, revenues and costs are to be recognized when construction is beyond the preliminary stage, the buyer is committed to the extent of having a sufficient initial and continuing investments that the buyer cannot require be refunded except for non-delivery of the home, sufficient homes in the building have been sold to ensure that the property will not be converted to rental property, the sales prices are collectible and the aggregate sales proceeds and the total cost of the building can be reasonably estimated. We currently do not have any buildings that meet these criteria, therefore the revenues from delivering homes in

high-rise/mid-rise buildings are recognized when title is conveyed to the buyer, adequate cash payment has been received and there is no continued involvement with respect to that home.

Income Recognition from Mortgage Loans—Our Financial Services segment originates mortgages, primarily for our homebuilding customers. We use mandatory mortgage-backed securities (“MBS”) forward commitments and investor commitments to hedge our mortgage-related interest rate exposure on agency and government loans. These instruments involve, to varying degrees, elements of credit and interest rate risk. Credit risk associated with MBS forward commitments and loan sales transactions is managed by limiting our counterparties to investment banks, federally regulated bank affiliates and other investors meeting our credit standards. Our risk, in the event of default by the purchaser, is the difference between the contract price and fair value of the MBS forward commitments. In an effort to reduce our exposure to the marketability and disposal of non-agency and non-governmental loans, including Alt-A (FICO scores below 680 and depending on credit criteria) and sub-prime loans (FICO scores below 580 and depending on credit criteria), we require our Financial Services segment to either presell or broker all of these loans, on an individual loan basis as soon as they are committed to by the customer. However, because of the recent tightening by mortgage lenders, our origination of Alt-A and sub-prime loans has declined to only 7.6% and 0.3%, respectively, of the total loans we originated during fiscal 2008, as compared to 27.3% and 3.7%, respectively, for the same period last year. In addition, of the \$87.5 million of mortgage loans held for sale as of October 31, 2008, none were Alt-A or sub-prime loans. There were, however, \$3.2 million of mortgage loans held for investment at October 31, 2008, which represent loans that cannot currently be sold at reasonable terms in the secondary market. As Alt-A and sub-prime originations declined, we have seen an increase in our level of FHA/VA loan origination. For the twelve months ended October 31, 2008 and 2007, FHA loans represented 35.5% and 6.5%, respectively, of our total loans. Profits and losses relating to the sale of mortgage loans are recognized when legal control passes to the buyer of the mortgage and the sales price is collected.

Interest Income Recognition for Mortgage Loans Receivable and Recognition of Related Deferred Fees and Costs—Interest income is recognized as earned for each mortgage loan during the period from the loan closing date to the loan sale date when legal control passes to the buyer and the sale price is collected. All fees related to the origination of mortgage loans and direct loan origination costs are deferred and recorded as either (a) an adjustment to the related mortgage loans upon the closing of a loan or (b) recognized as a

deferred asset or deferred revenue while the loan is in process. These fees and costs include loan origination fees, loan discount, and salaries and wages. Such deferred fees and costs relating to the closed loans are recognized over the life of the loans as an adjustment of yield or taken into operations upon sale of the loan to a permanent investor.

Cash and Cash Equivalents—Cash and cash equivalents include cash deposited in checking accounts, overnight repurchase agreements, certificates of deposit, Treasury Bills and government money market funds with maturities of 90 days or less when purchased. Our cash balances are held at a few financial institutions and may, at times, exceed insurable amounts. We believe we mitigate this risk by depositing our cash in major financial institutions. At October 31, 2008, \$817.6 million of the total cash and cash equivalents was in cash equivalents, the book value of which approximates fair value.

Fair Value of Financial Instruments—The fair value of financial instruments is determined by reference to various market data and other valuation techniques as appropriate. Our financial instruments consist of cash and cash equivalents, restricted cash, receivables, deposits and notes, accounts payable and other liabilities, customer deposits, mortgage loans held for sale or investment, nonrecourse land and operating properties mortgages, our revolving credit agreement, mortgage warehouse line of credit, accrued interest, and the Senior Secured, Senior and Senior Subordinated Notes payable. The fair value of both the Senior Secured, Senior and Senior Subordinated Notes is estimated based on the quoted market prices for the same or similar issues or on the current rates offered to us for debt of the same remaining maturities. The fair value of the Senior Secured, Senior and Senior Subordinated Notes is estimated at \$480.0 million, \$483.3 million and \$161.0 million respectively, as of October 31, 2008. Unless otherwise disclosed, the fair value of financial instruments approximates their recorded values.

Inventories—Inventories consist of land, land development, home construction costs, capitalized interest and construction overhead and are stated at cost, net of impairment losses, if any. Construction costs are accumulated during the period of construction and charged to cost of sales under specific identification methods. Land, land development and common facility costs are allocated based on buildable acres to product types within each community, then charged to cost of sales equally based upon the number of homes to be constructed in each product type.

We report inventories in our consolidated balance sheets at the lower of cost or fair value. Our inventories consist of the following three components: (1) Sold and unsold homes and lots under

development, which includes all construction, land, and land development costs related to started homes and land under development in our active communities; (2) Land and land options held for future development or sale, which includes all costs related to land in our communities in planning; and (3) Consolidated inventory not owned, which includes all cost related to specific performance options, variable interest entities, and other options, which consists primarily of our GMAC model homes and inventory related to structured lot options.

As a result of the declining homebuilding market, we have decided to mothball (or stop development on) certain communities where we determine the current performance does not justify further investment at this time. When we decide to mothball a community, the inventory is reclassified from Sold and unsold homes and lots under development to Land and land options held for future development or sale. As of October 31, 2008, the book value associated with the 54 mothballed communities was \$550.4 million, net of an impairment balance of \$290.1 million. We continually review communities to determine if mothballing is appropriate.

The recoverability of inventories and other long-lived assets are assessed in accordance with the provisions of Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"). SFAS 144 requires long-lived assets, including inventories, held for development to be evaluated for impairment based on undiscounted future cash flows of the assets at the lowest level for which there are identifiable cash flows. As such, we evaluate inventories for impairment at the individual community level, the lowest level of discrete cash flows that we measure.

We evaluate inventories of communities under development and held for future development for impairment when indicators of potential impairment are present. Indicators of impairment include, but are not limited to, decreases in local housing market values, decreases in gross margins or sales absorption rates, decreases in net sales prices (base sales price net of sales incentives), or actual or projected operating or cash flow losses. The assessment of communities for indication of impairment is performed quarterly, primarily by completing detailed budgets for all of our communities and identifying those communities with a projected operating loss for any projected fiscal year or for the entire projected community life. For those communities with projected losses, we estimate remaining undiscounted future cash flows and compare those to the carrying value of the community, to determine if the carrying value of the asset is recoverable.

The projected operating profits, losses or cash flows of each community can be significantly impacted by our estimates of the following:

- future base selling prices;
- future home sales incentives;
- future home construction and land development costs; and
- future sales absorption pace and cancellation rates.

These estimates are dependent upon specific market conditions for each community. While we consider available information to determine what we believe to be our best estimates as of the end of a quarterly reporting period, these estimates are subject to change in future reporting periods as facts and circumstances change. Local market-specific conditions that may impact our estimates for a community include:

- the intensity of competition within a market, including publicly available home sales prices and home sales incentives offered by our competitors;
- the current sales absorption pace for both our communities and competitor communities;
- community specific attributes, such as location, availability of lots in the market, desirability and uniqueness of our community, and the size and style of homes currently being offered;
- potential for alternative product offerings to respond to local market conditions;
- changes by management in the sales strategy of the community; and
- current local market economic and demographic conditions and related trends and forecasts.

These and other local market-specific conditions that may be present are considered by management in preparing projection assumptions for each community. The sales objectives can differ between our communities, even within a given market. For example, facts and circumstances in a given community may lead us to price our homes with the objective of yielding a higher sales absorption pace, while facts and circumstances in another community may lead us to price our homes to minimize deterioration in our gross margins, although it may result in a slower sales absorption pace. In addition, the key assumptions included in our estimate of future undiscounted cash flows may be interrelated. For example, a decrease in estimated base sales price or an increase in homes sales incentives may result in a corresponding increase in sales absorption pace. Additionally, a decrease in the average sales price of homes to be sold and closed in future reporting periods for one community that has not been generating what management believes to be an adequate sales absorption pace may impact the

estimated cash flow assumptions of a nearby community. Changes in our key assumptions, including estimated construction and development costs, absorption pace and selling strategies, could materially impact future cash flow and fair value estimates. Due to the number of possible scenarios that would result from various changes in these factors, we do not believe it is possible to develop a sensitivity analysis with a level of precision that would be meaningful to an investor.

If the undiscounted cash flows are more than the carrying value of the community, then the carrying amount is recoverable, and no impairment adjustment is required. However, if the undiscounted cash flows are less than the carrying amount, then the community is deemed impaired and is written-down to its fair value. We determine the estimated fair value of each community by determining the present value of the estimated future cash flows at a discount rate commensurate with the risk of the respective community. Our discount rates used for the impairments recorded to date range from 13.5% to 17.0%. The estimated future cash flow assumptions are the same for both our recoverability and fair value assessments. Should the estimates or expectations used in determining estimated cash flows or fair value decrease or differ from current estimates in the future, we may be required to recognize additional impairments related to current and future communities. The impairment of a community is allocated to each lot on a straight line basis.

Inventories held for sale, which are land parcels where we have decided not to build homes, are a very small portion of our total inventories, and are reported at the lower of carrying amount or fair value less costs to sell. In determining whether land held for sale is impaired, management considers, among other things, prices for land in recent comparable sale transactions, market analysis studies, which include the estimated price a willing buyer would pay for the land (other than in a forced liquidation sale) and recent bona fide offers received from outside third parties.

From time to time, we write-off deposits and approval, engineering and capitalized interest costs when we decide not to exercise options to buy land in various locations or when we redesign communities and/or abandon certain engineering costs. In deciding not to exercise a land option, we take into consideration changes in market conditions, the timing of required land takedowns, the willingness of land sellers to modify terms of the land option contract (including timing of land takedowns), and the availability and best use of our capital, among other factors. The write-off is

recorded in the period it is deemed probable that the optioned property will not be acquired. In certain instances, we have been able to recover deposits and other preacquisition costs which were previously written off. These recoveries are generally not significant in comparison to the total costs written off.

The impairment of communities under development, communities held for future development and inventories held for sale, and the charge for land option write-offs, are reflected on the Consolidated Statement of Operations in a separate line entitled "Homebuilding—Inventory impairment loss and land option write-offs". See also Note 13 to the Consolidated Financial Statements for inventory impairment and write-off amounts by segment.

Insurance Deductible Reserves—For homes delivered in fiscal 2008 and 2007, our deductible is \$20 million per occurrence with an aggregate \$20 million for liability claims and an aggregate \$21.5 million for construction defect claims under our general liability insurance. Our worker's compensation insurance deductible is \$0.5 million per occurrence in fiscal 2008 and fiscal 2007. Reserves have been established based upon actuarial analysis of estimated losses for fiscal 2008 and fiscal 2007. We engage a third party actuary that uses our historical warranty data to estimate our unpaid claims, claim adjustment expenses and incurred but not reported claims reserves for the risks that we are assuming under the general liability and workers compensation programs. The estimates include provisions for inflation, claims handling and legal fees. These estimates are subject to a high degree of variability due to uncertainties such as trends in construction defect claims relative to our markets and the types of products we build, claim settlement patterns, insurance industry practices and legal interpretations, among others. Because of the high degree of judgment required in determining these estimated liability amounts, actual future costs could differ significantly from our currently estimated amounts.

Interest—In accordance with SFAS 34, "Capitalization of Interest Cost", interest incurred is first capitalized to properties under development during the land development and home construction period and expensed along with the associated cost of sales as the related inventories are sold. Interest incurred in excess of interest capitalized because qualifying assets for interest capitalization are less than debt, or interest incurred on borrowings directly related to properties not under development are expensed immediately in "Other interest".

Interest costs incurred, expensed and capitalized were:

(Dollars in Thousands)	Year Ended		
	October 31, 2008	October 31, 2007	October 31, 2006
Interest capitalized at beginning of year	\$155,642	\$102,849	\$ 48,366
Plus interest incurred(1)	190,801	194,547	166,427
Less cost of sales interest expensed	145,961	131,957	108,329
Less other interest expensed (2)(3)	30,375	9,797	3,615
Interest capitalized at end of year(4)	\$170,107	\$155,642	\$102,849

(1) Data does not include interest incurred by our mortgage and finance subsidiaries.

(2) Beginning in the third quarter of fiscal 2008, our assets that qualify for interest capitalization (inventory under development) no longer exceed our debt, and therefore the portion of interest not covered by qualifying assets must be directly expensed.

(3) Represents interest on completed homes and land in planning, which does not qualify for capitalization.

(4) We have incurred significant inventory impairments in recent quarters, which are determined based on total inventory including capitalized interest. However, the capitalized interest amounts above are shown gross before allocating any portion of the impairments to capitalized interest.

Land Options—Costs are capitalized when incurred and either included as part of the purchase price when the land is acquired or charged to operations when we determine we will not exercise the option. In accordance with the Financial Accounting Standards Board's ("FASB") revision to Interpretation No. 46 "Consolidation of Variable Interest Entities", an interpretation of Accounting Research Bulletin No. 51 ("FIN 46-R"), SFAS No. 49 "Accounting for Product Financing Arrangements" ("SFAS 49"), SFAS No. 98 "Accounting for Leases" ("SFAS 98"), and Emerging Issues Task Force ("EITF") No. 97-10 "The Effects of Lessee Involvement in Asset Construction" ("EITF 97-10"), we record on the Consolidated Balance Sheets specific performance options, options with variable interest entities, and other options under "Consolidated inventory not owned" with the offset to "Liabilities from inventory not owned", and "Minority interest from inventory not owned" and "Minority interest from consolidated joint ventures".

Unconsolidated Homebuilding and Land Development Joint Ventures—Investments in unconsolidated homebuilding and land development joint ventures are accounted for under the equity method of accounting. Under the equity method, we recognize our proportionate share of earnings and losses earned by the joint venture upon the delivery of lots or homes to third parties. Our ownership interest in joint ventures varies but is generally less than or equal to 50%. In determining whether or not we must consolidate joint ventures where we are the managing member of the joint venture, we consider the guidance in EITF 04-5, "Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights" ("EITF 04-5"), in assessing whether the other partners have specific rights to overcome the presumption of control by us as the manager of the joint venture. In most cases, the presumption is overcome because the joint venture agreements require that both partners agree on establishing the operating and capital decisions of the

partnership, including budgets, in the ordinary course of business. In accordance with Accounting Principles Board Opinion 18 ("APB 18"), we assess our investments in unconsolidated joint ventures for recoverability, and if it is determined that a loss in value of the investment is other than temporary, we write-down the investment to the recoverable value. We evaluate our equity investments for recoverability based on the joint venture's projected cash flows. In fiscal 2008, we wrote-down certain joint venture investments by \$11.3 million, based on this recoverability analysis.

Intangible Assets—The intangible assets recorded on our October 31, 2007 balance sheet are goodwill, which has an indefinite life, and definite life intangibles, including trade names, architectural designs, distribution processes, and contractual agreements resulting from our acquisitions. We no longer amortize goodwill but instead assess it periodically for impairment. We performed such assessments utilizing a fair value approach as of October 31, 2008. If the fair value of the applicable business unit is less than the carrying amount of that business unit, the goodwill of that business unit is considered impaired. The amount of the impairment is determined as the excess of the book value of the goodwill over the implied fair value of the goodwill, and the implied fair value of the goodwill is determined in the same manner as the amount of goodwill recognized in a business combination is determined. That is, the fair value of the business unit is allocated to all of the assets and liabilities of that business unit as if the business unit had been acquired in a business combination. The excess of the fair value of the business unit over the amounts assigned to its assets and liabilities is the implied fair value of goodwill. The estimates used in the determination of the estimated cash flows and fair value of a business unit are based on factors known to us at the time such estimates are made and our expectations of future operations and economic conditions. Should the estimates or expectations used in determining estimated cash flows or fair value

decrease or differ from current estimates in the future, we may be required to recognize additional impairments. Despite years of significant income generation in our markets with goodwill, primarily Texas in the Southwest segment and our Mid-Atlantic segment, the current weakening market resulted in financial estimates in 2008 that resulted in fully impairing the remaining \$32.7 million of goodwill, based upon present value of cash flow analyses. The goodwill impairment charge was included in "Goodwill and intangible amortization and impairment" on the Consolidated Statement of Operations.

We also assess definite life intangibles for impairment whenever events or changes indicate that their carrying amount may not be recoverable. An intangible impairment is recorded when events and circumstances indicate the undiscounted future cash flows generated from the business unit with the intangible asset are less than the net assets of the business unit. The impairment loss is the lesser of the difference between the net assets of the business unit and the discounted future cash flows generated from the applicable business unit, which approximates fair value and the intangible asset balance. The estimates used in the determination of the estimated cash flows and fair value of a business unit are based on factors known to us at the time such estimates are made and our expectations of future operations and economic conditions. Should the estimates or expectations used in determining estimated cash flows or fair value decrease or differ from current estimates in the future, we may be required to recognize additional impairments. This was the case in fiscal 2008, whereby we wrote off the carrying amount of \$2.7 million of intangible assets in our Mid-Atlantic segment, bringing the balance to zero at October 31, 2008. In fiscal 2007, we determined that the intangible assets associated with our Fort Myers, California, Tampa, Orlando, Canton and Building Products operations were impaired and wrote them off for a total reduction of \$162.2 million, of which \$135.2 million was included in "Goodwill and intangible amortization and impairment" on the Consolidated Statement of Operations and \$27.0 million was included in "Accounts payable and other liabilities" on the Consolidated Balance Sheets. The intangible impairment charge is included in "Goodwill and intangible amortization and impairment" on the Consolidated Statements of Operations.

Finance Subsidiary Net Worth—In accordance with Statement of Position 01-6 ("SOP 01-6") of the Accounting Standards Executive Committee of the American Institute of Certified Public Accountants, we are required to disclose the minimum net worth requirements by regulatory agencies, secondary market investors and states in which our mortgage subsidiary conducts business. At October 31, 2008 and 2007, our mortgage subsidiary's net worth was \$68.5 million and

\$59.2 million, respectively, which exceeded all our regulatory agencies net worth requirements.

Deferred Bond Issuance Costs—Costs associated with the issuance of our Senior Secured, Senior and Senior Subordinated Notes are capitalized and amortized over the associated term of each note issuance.

Debt Issued At a Discount—Debt issued at a discount to the face amount is accreted up to its face amount utilizing the effective interest method over the term of the note and recorded as a component of interest on the Consolidated Statements of Operations.

Post Development Completion and Warranty Costs—In those instances where a development is substantially completed and sold and we have additional construction work to be incurred, an estimated liability is provided to cover the cost of such work. In addition, we accrue warranty costs as part of cost of sales for repair costs under \$5,000 per occurrence to homes, community amenities and land development infrastructure. In addition, we accrue for warranty costs over \$5,000 per occurrence as part of our general liability insurance deductible as part of Selling, general and administrative costs. As previously stated, the deductible for our general liability insurance for homes delivered in fiscal 2008 and 2007 is \$20 million per occurrence with an aggregate \$20 million for liability claims, and an aggregate \$21.5 million for construction defect claims. Both of these liabilities are recorded in "Accounts payable and other liabilities" in the Consolidated Balance Sheets.

Advertising Costs—Advertising costs are treated as period costs and expensed as incurred. During the years ended October 31, 2008, 2007, and 2006, advertising costs expensed amounted to \$57.3 million, \$102.3 million, and \$107.9 million, respectively.

Deferred Income Tax—Deferred income taxes or income tax benefits are provided for temporary differences between amounts recorded for financial reporting and for income tax purposes. If, for some reason, the combination of future years income (or loss) combined with the reversal of the timing differences results in a loss, such losses can be carried back to prior years or carried forward to future years to recover the deferred tax assets. In accordance with SFAS No. 109, "Accounting for Income Taxes" ("SFAS 109"), we evaluate our deferred tax assets quarterly to determine if valuation allowances are required. SFAS 109 requires that companies assess whether valuation allowances should be established based on the consideration of all available evidence using a "more likely than not" standard. See Note 12 for further discussion of the valuation allowances recorded during fiscal 2008 and 2007, as well as discussion of the adoption of FIN 48 for uncertain tax positions on November 1, 2007.

Common Stock—Each share of Class A Common Stock entitles its holder to one vote per share and each share of Class B Common Stock entitles its holder to ten votes per share. The amount of any regular cash dividend payable on a share of Class A Common Stock will be an amount equal to 110% of the corresponding regular cash dividend payable on a share of Class B Common Stock. If a shareholder desires to sell shares of Class B Common Stock, such stock must be converted into shares of Class A Common Stock.

In July 2001, our Board of Directors authorized a stock repurchase program to purchase up to 4 million shares of Class A Common Stock. As of October 31, 2008, approximately 3.4 million shares have been purchased under this program, of which zero and 0.2 million were repurchased during the twelve months ended October 31, 2008 and 2007, respectively.

On August 4, 2008, we announced that our Board of Directors adopted a shareholder rights plan (the "Rights Plan") designed to preserve shareholder value and the value of certain tax assets primarily associated with net operating loss carryforwards (NOL) and built-in losses under Section 382 of the Internal Revenue Code. Our ability to use NOLs and built-in losses would be limited, if there was an "ownership change" under Section 382. This would occur if shareholders owning (or deemed under Section 382 to own) 5% or more of our stock increase their collective ownership of the aggregate amount of our outstanding shares by more than 50 percentage points over a defined period of time. The Rights Plan was adopted to reduce the likelihood of an "ownership change" occurring as defined by Section 382. Under the Rights Plan, one right was distributed for each share of Class A Common Stock and Class B Common Stock outstanding as of the close of business on August 15, 2008. Effective August 15, 2008, if any person or group acquires 4.9% or more of the outstanding shares of Class A Common Stock without the approval of the Board of Directors, there would be a triggering event causing significant dilution in the voting power of such person or group. However, existing stockholders who owned, at the time of the Rights Plan's adoption, 4.9% or more of the outstanding shares of Class A Common Stock will trigger a dilutive event only if they acquire additional shares. The approval of the Board of Directors' decision to adopt the Rights Plan may be terminated by the Board at any time, prior to the Rights being triggered. The Rights Plan will continue in effect until August 15, 2018, unless it is terminated or redeemed earlier by the Board of Directors. The approval of the Board of Directors' decision to adopt the Rights Plan was submitted to a stockholder vote and approved at a Special Meeting of stockholders held on December 5, 2008. Also at the Special Meeting on December 5, 2008, our stockholders approved an amendment to our Certificate of

Incorporation to restrict certain transfers of Class A Common Stock in order to preserve the tax treatment of our net operating loss carryforwards and built-in losses under Section 382 of the Internal Revenue Code. See Note 23 for additional details.

Preferred Stock—On July 12, 2005, we issued 5,600 shares of 7.625% Series A Preferred Stock, with a liquidation preference of \$25,000 per share. Dividends on the Series A Preferred Stock are not cumulative and are paid at an annual rate of 7.625%. The Series A Preferred Stock is not convertible into the Company's common stock and is redeemable in whole or in part at our option at the liquidation preference of the shares beginning on the fifth anniversary of their issuance. The Series A Preferred Stock is traded as depositary shares, with each depositary share representing 1/1000th of a share of Series A Preferred Stock. The depositary shares are listed on the Nasdaq Global Market under the symbol "HOVNP". In fiscal 2008, 2007 and 2006 we paid zero (due to covenant restrictions in our indentures), \$10.7 million and \$10.7 million, respectively, as dividends on the Series A Preferred Stock.

Depreciation—Property, plant and equipment are depreciated using the straight-line method over the estimated useful life of the assets ranging from three to forty years.

Prepaid Expenses—Prepaid expenses which relate to specific housing communities (model setup, architectural fees, homeowner warranty program fees, etc.) are amortized to costs of sales as the applicable inventories are sold. All other prepaid expenses are amortized over a specific time period or as used and charged to overhead expense.

Stock Options—Effective November 1, 2005, the Company adopted Statement of Financial Accounting Standards ("SFAS") 123R, "Share-Based Payments", which revises SFAS 123, "Accounting for Stock-Based Compensation". Prior to fiscal year 2006, the Company accounted for stock awards granted to employees under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees", and related interpretations. As a result, the recognition of stock-based compensation expense was generally limited to the expense attributed to nonvested stock awards, as well as the amortization of certain acquisition-related deferred compensation.

SFAS 123R applies to new awards and to awards modified, repurchased, or cancelled after the required effective date, as well as to the unvested portion of awards outstanding as of the required effective date. The Company uses the Black-Scholes model to value its new stock option grants under SFAS 123R, applying the "modified prospective method" for existing grants which requires the Company to value stock options

prior to its adoption of SFAS 123R under the fair value method and expense the unvested portion over the remaining vesting period. The fair value for options is established at the date of grant using a Black-Scholes option pricing model with the following weighted average assumptions for October 31, 2008 and October 31, 2007: risk-free interest rate of 4.27% and 5.12%, respectively; dividend yield of zero; historical volatility factor of the expected market price of our common stock of 0.50 for year ended 2008 and 0.44 for year ended 2007; and a weighted average expected life of the option of 5.86 years for 2008 and 5.74 years for 2007. SFAS 123R also requires the Company to estimate forfeitures in calculating the expense related to stock-based compensation (estimated at 8.4%), and requires the Company to reflect the benefits of tax deductions in excess of recognized compensation cost to be reported as both a financing cash inflow and an operating cash outflow upon adoption.

Compensation cost arising from nonvested stock granted to employees and from non-employee stock awards is recognized as expense using the straight-line method over the vesting period.

For the years ended October 31, 2008 and October 31, 2007, the Company's total stock-based compensation expense was \$25.2 million (\$24.3 million net of tax) and \$24.4 million (\$23.6 million net of tax), respectively. Included in this total stock-based compensation expense was incremental expense for stock options of \$13.1 million (\$12.6 million net of tax) and \$13.7 million (\$13.3 million net of tax) for the years ended October 31, 2008 and October 31, 2007, respectively.

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options, which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility. Because our employee stock options have characteristics significantly different from traded options, and changes in the subjective input assumptions can materially affect the fair value estimate, management believes the existing models do not necessarily provide a reliable measure of the fair value of its employee stock options.

Per Share Calculations—Basic earnings per common share is computed using the weighted average number of shares outstanding. Diluted earnings per common share is computed using the weighted average number of shares outstanding adjusted for the incremental

shares attributed to outstanding options to purchase common stock shares and non-vested common stock of approximately 2.0 million for the year ended October 31, 2006. For the years ended October 31, 2008 and 2007, there were no incremental shares attributed to nonvested stock and outstanding options to purchase common stock because we had a net loss for the year, and any incremental shares would not be dilutive.

Computer Software Development—In accordance with Statements of Position 98-1, we capitalize certain costs incurred in connection with developing or obtaining software for internal use. Once the software is substantially complete and ready for its intended use, the capitalized costs are amortized over the systems estimated useful life.

Recent Accounting Pronouncements—In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" ("SFAS 157"), which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. In February 2008, the FASB issued FASB Staff Position No. FAS 157-2, which partially defers the effective date of SFAS No. 157 for nonfinancial assets and liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis, until fiscal years beginning after November 15, 2008. Implementation of SFAS 157 will apply to our Financial Services segment in fiscal 2009, however, the impact is not expected to be material to our consolidated financial position, results of operations or cash flows. This pronouncement is effective for our other segments' non-financial assets in fiscal 2010. We are currently evaluating the impact, if any, that FAS 157 may have on our consolidated financial positions, results of operations or cash flows.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities—Including an amendment of FASB Statement No. 115" ("SFAS 159"). The statement permits entities to choose to measure certain financial assets and liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. SFAS 159 is effective as of the beginning of an entity's fiscal year that begins after November 15, 2007. We do not expect that FAS 159 will have a material impact on our consolidated financial positions, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 160, "Non-controlling Interests in Consolidated Financial Statements—an amendment of ARB No. 51" ("SFAS 160"). The statement clarifies the accounting for non-controlling interests and establishes accounting and reporting standards for the non-controlling interest in a subsidiary, including classification as a component of equity. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008, and earlier adoption is prohibited. We are currently evaluating the impact, if any, that SFAS 160 may have on our consolidated financial position, results of operations or cash flows.

In December 2007, the FASB issued SFAS No. 141 (revised 2007), "Business Combinations" ("SFAS 141(R)"). The statement replaces SFAS No. 141, "Business Combinations", and provides revised guidance for recognizing and measuring identifiable assets and goodwill acquired, liabilities assumed, and any non-controlling interest in the acquiree. It also provides disclosure requirements to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141(R) is effective for fiscal years beginning on or after December 15, 2008, and is to be applied prospectively. We are currently evaluating the impact, if any, that SFAS 141(R) may have on our consolidated financial positions, results of operations or cash flows.

In March 2008, the FASB issued SFAS No. 161, "Disclosures About Derivative Instruments and Hedging Activities—an amendment of FASB Statement No. 133" ("SFAS 161"). SFAS 161 expands the disclosure requirements in SFAS 133, "Accounting for Derivative Instruments and Hedging Activities," regarding an entity's derivative instruments and hedging activities. SFAS 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. We are currently evaluating the impact, if any, SFAS 161 may have on our consolidated financial positions, results of operations or cash flows.

In May 2008, the FASB issued Statement of Financial Accounting Standards No. 162, "The Hierarchy of Generally Accepted Accounting Principles" ("SFAS No. 162"). SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles in the United States. SFAS No. 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, "The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principals." We are currently evaluating the impact, if any, that SFAS No. 162 may have on our

consolidated financial positions, results of operations or cash flows.

In May 2008, the FASB issued Statement of Financial Accounting Standards No. 163, "Accounting for Financial Guarantee Insurance Contracts—an interpretation of FASB Statement No. 60" ("SFAS No. 163"). SFAS No. 163 clarifies how Statement of Financial Accounting Standards No. 60, "Accounting and Reporting by Insurance Enterprises," applies to financial guarantee insurance contracts, including the recognition and measurement of premium revenue and claim liabilities. SFAS No. 163 also requires expanded disclosures about financial guarantee insurance contracts. SFAS No. 163 is effective for financial statements issued for fiscal years and interim periods beginning after December 15, 2008. The Company does not have any guarantee insurance contracts, and therefore, we do not expect that SFAS No. 163 will have a material impact on our consolidated financial positions, results of operations or cash flows.

In June 2008, the FASB issued FASB Staff Position Emerging Issues Task Force 03-6-1, "Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities" ("FSP-EITF 03-6-1"). Under FSP-EITF 03-6-1, unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of earnings per share pursuant to the two-class method. FSP-EITF 03-6-1 is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those years and requires retrospective application. We are currently evaluating the impact, if any, that FSP-EITF 03-6-1 may have on our consolidated financial positions, results of operations or cash flows.

In December 2008, the FASB issued FASB Staff Position ("FSP") FAS 140-4 and FIN 46(R)-8, *Disclosures by Public Entities (Enterprises) about Transfers of Financial Assets and Interests in Variable Interest Entities*. The document increases disclosure requirements for public companies and is effective for reporting periods (interim and annual) that end after December 15, 2008. The purpose of this FSP is to promptly improve disclosures by public entities and enterprises until the pending amendments to FASB Statement No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, and FASB Interpretation No. 46 (revised December 2003), *Consolidation of Variable Interest Entities*, are finalized and approved by the Board. The FSP amends Statement 140 to require public entities to provide additional disclosures about transferors' continuing involvements with transferred financial

assets. It also amends Interpretation 46(R) to require public enterprises, including sponsors that have a variable interest in a variable interest entity, to provide additional disclosures about their involvement with variable interest entities. This pronouncement is related to disclosure only and will not have an impact on our consolidated financial position, results of operations or cash flows.

Reclassifications—Certain amounts in the 2007 and 2006 Consolidated Financial Statements have been reclassified to conform to the 2008 presentation.

4. Leases

We lease certain property under non-cancelable leases. Office leases are generally for terms of three to five years and generally provide renewal options. Model home leases are generally for shorter terms of approximately one to three years with renewal options on a month-to-month basis. In most cases, we expect that in the normal course of business, leases that will expire will be renewed or replaced by other leases. The future lease payments required under operating leases that have initial or remaining non-cancelable terms in excess of one year are as follows:

Years Ending October 31,	(In Thousands)
2009	\$19,848
2010	15,807
2011	13,012
2012	10,506
2013	7,111
After 2013	15,848
Total	\$82,132

Net rental expense for the three years ended October 31, 2008, 2007 and 2006 was \$45.2 million, \$52.2 million and \$49.0 million, respectively. These amounts include rent expense for various month-to-month leases on model homes, furniture and equipment. Certain leases contain renewal or purchase options and generally provide that the Company shall pay for insurance, taxes and maintenance.

5. Property

Homebuilding property, plant, and equipment consists of land, land improvements, buildings, building improvements, furniture and equipment used to conduct day to day business and are recorded at cost less accumulated depreciation. Homebuilding accumulated depreciation related to these assets at October 31, 2008 and October 31, 2007 amounted to \$70.5 million and \$57.4 million, respectively.

6. Deposits

We hold escrow cash reflected in "Restricted cash" on the Consolidated Balance Sheets, amounting to

\$8.3 million and \$18.2 million at October 31, 2008 and October 31, 2007, respectively, which primarily represents customers' deposits which are restricted from use by us.

Total "Customer deposits" are shown as a liability on the Consolidated Balance Sheets. These liabilities are significantly more than the applicable years' escrow cash balances because in some states the deposits are not restricted from use and in other states we are able to release the majority of this escrow cash by pledging letters of credit and surety bonds. Escrow cash accounts are substantially invested in short-term certificates of deposit, time deposits, or money market accounts.

7. Mortgage Loans Held for Sale or Investment

Our wholly-owned mortgage banking subsidiary originates mortgage loans, primarily from the sale of our homes. Such mortgage loans are sold in the secondary mortgage market with servicing released within a short period of time. Mortgage loans held for sale consist primarily of single-family residential loans collateralized by the underlying property. Loans that have been closed but not committed to a third party investor are matched with forward sales of mortgage-backed securities designed as fair value hedges. Hedged loans are committed to third party investors shortly after origination. Loans held for sale are carried at cost adjusted for changes in fair value after the date of designation of an effective accounting hedge, based on either sale commitments or current market quotes. Loans held for sale, not subject to an effective accounting hedge are carried at the lower of cost or fair value. Any gain or loss on the sale of the loans is recognized at the time of sale. We currently use forward sales of mortgage-backed securities, interest rate commitments from borrowers and mandatory and or best efforts forward commitments to sell loans to investors to protect us from interest rate fluctuations. These short-term instruments, which do not require any payments to be paid to the counter-party or investor in connection with the execution of the commitments, are generally executed simultaneously. Loans held for investment represent loans that cannot currently be sold at reasonable terms in the secondary mortgage market.

At October 31, 2008 and 2007, respectively, \$88.3 million and \$180.7 million of such mortgages were pledged against our mortgage warehouse line (see Note 8). We may incur risk with respect to mortgages that are delinquent, but only to the extent the losses are not covered by mortgage insurance or resale value of the home. Historically, we have incurred minimal credit losses. We have reserves for potential losses on mortgages we currently hold. The reserve is included in the "Mortgage loans held for sale" balance on the Consolidated Balance Sheet.

8. Mortgages and Notes Payable

We have nonrecourse mortgages for a small number of our communities totaling \$0.8 million as well as our Corporate Headquarters totaling \$22.3 million which are secured by the real property and any improvements. These loans have installment obligations with annual principal maturities in the following years ending October 31 of approximately: \$1.6 million in 2009, \$0.9 million in 2010 and 2011, \$1.0 million in 2012 and 2013 and \$17.7 million after 2013. The interest rate on these obligations range from 5.67% to 8.82% at October 31, 2008.

Our homebuilding bank borrowings are made pursuant to our Revolving Credit Agreement with a group of lenders. We and each of our significant subsidiaries, except for K. Hovnanian, the borrower, certain of our financial services subsidiaries and joint ventures are a guarantor under the Revolving Credit Agreement.

On May 16, 2008, we entered into Amendment No. 1 (the "Amendment") to the Seventh Amended and Restated Credit Agreement (as amended, the "Amended Credit Agreement"). On May 27, 2008, in conjunction with the consummation of the issuance of \$600 million of 11½% Senior Secured Notes due 2013 (See Note 9), the Amendment became effective. The Amendment decreased the aggregate amount of commitments under the Amended Credit Agreement from \$900 million to \$300 million. The maturity date of the facility remains May 31, 2011. Availability under the Amended Credit Agreement equals the lesser of \$300 million and the amount available pursuant to the borrowing base and the sub-limit for revolving loans is \$100 million. Borrowings under the Amended Credit Agreement bear interest at a rate equal, at the Company's option, to (1) one, two, three or six month LIBOR, plus 4.50%, (2) a base rate equal to the greater of PNC Bank, National Association's prime rate and the federal funds effective rate plus 0.50%, plus 2.75% or (3) an index rate based on daily LIBOR, plus 4.625%. In addition to paying interest on outstanding principal under the revolving facility, the Company is required to pay an unused fee equal to 0.55% per annum on the daily average unused portion of the revolving facility. The Company will also pay a letter of credit fee of 4.50% per annum on the average outstanding face amount of letters of credit issued under the revolving facility. Notwithstanding the foregoing, the interest rate and fees payable under the revolving facility may not be less than the applicable interest rates and fees that would have been payable pursuant to the revolving facility that was in effect prior to March 7, 2008, the date of the Amended Credit Agreement. Borrowings

under the Amended Credit Agreement may be used for general corporate purposes and working capital. A portion of the proceeds of the issuance of \$600 million of 11½% Senior Secured Notes due 2013 were used to repay the outstanding balance of \$325.0 million at May 27, 2008 under the Amended Credit Agreement. As of October 31, 2008, there was zero drawn under the Amended Credit Agreement, excluding letters of credit totaling \$197.5 million. As of October 31, 2007, there was \$206.8 million drawn under the Revolving Credit Agreement then in effect, excluding letters of credit totaling \$306.4 million.

We and each of our subsidiaries are guarantors under the Amended Credit Agreement, except for K. Hovnanian Enterprises, Inc. ("K. Hovnanian"), the borrower, certain of our financial services subsidiaries and joint ventures. All obligations under the Amended Credit Agreement, and the guarantees of those obligations, are secured, subject to permitted liens and other exceptions, by a first-priority lien on substantially all of the assets owned by us, K. Hovnanian and the guarantors.

The Amended Credit Agreement has covenants that restrict, among other things, the ability of the Company and certain of its subsidiaries, including K. Hovnanian, to incur additional indebtedness, pay dividends on, and make distributions with respect to, common and preferred stock and repurchase capital stock, make other restricted payments, make investments, dispose of assets, incur liens, consolidate, merge, sell or otherwise transfer all or substantially all of its assets and enter into certain transactions with affiliates. The Amended Credit Agreement also contains a covenant that requires that as of the last day of each fiscal quarter either (1) the ratio of our adjusted operating cash flow to fixed charges exceed 1.50 to 1.00 or (2) our liquidity, as defined in the Amended Credit Agreement, equals or exceeds \$100 million. However, the Amended Credit Agreement does not contain any other financial maintenance covenants. The Amended Credit Agreement contains events of default which would permit the lenders to accelerate the loans if not cured within applicable grace periods, including the failure to make timely payments under the Amended Credit Agreement or other material indebtedness, the failure to satisfy covenants, the failure of the documents granting security for the obligations under the Amended Credit Agreement to be in full force and effect and specified events of bankruptcy and insolvency. As of October 31, 2008, we were in compliance with the covenants under the Amended Credit Agreement.

Average interest rates and average balances outstanding under the Amended Credit Agreement (as in effect at such year end) are as follows:

(Dollars in Thousands)	Year Ended		
	October 31, 2008	October 31, 2007	October 31, 2006
Average monthly outstanding borrowings	\$171,350	\$371,502	\$231,381
Average interest rate during period	7.0%	8.0%	7.7%
Average interest rate at end of period(1)	(2)	6.9%	6.6%
Maximum outstanding at any month end	\$344,375	\$584,000	\$405,900

(1) Average interest rate at the end of the period excludes any charges on unused loan balances.

(2) Not applicable as there is no amount outstanding at October 31, 2008.

On August 8, 2007, we terminated our credit agreement and agreement for letter of credit with Citicorp, USA, Inc. The termination resulted in a fee payable to us of \$19.1 million in accordance with the termination provision of the agreement, which stated that upon termination we would pay or receive a fee based on the change in our credit default swap rate. This fee was included in Land sales and other revenues in the fourth quarter of fiscal 2007, since we were only entitled to such a fee in the event the facility was terminated.

Our wholly-owned mortgage banking subsidiary originates mortgage loans, primarily from the sale of our homes. Such mortgage loans and related servicing rights are sold in the secondary mortgage market within a short period of time. Our secured Master Repurchase Agreement, which was amended on July 7, 2008 with a group of banks, is a short-term borrowing facility that provides up to \$151 million through July 6, 2009. Interest is payable monthly at LIBOR plus 1.50%

(4.08% at October 31, 2008). The loan is secured by the mortgages held for sale and is repaid when we sell the underlying mortgage loans to permanent investors. We also had a commercial paper facility which provided for up to \$200 million through April 25, 2008 with interest payable monthly at LIBOR plus 0.40%. On November 28, 2007, we paid the outstanding balance in full and terminated the commercial paper facility. We believe that we will be able to extend the Master Repurchase Agreement beyond its expiration date, but there can be no assurance of such extension. As of October 31, 2008, the aggregate principal amount of all borrowings under the Master Repurchase Agreement was \$84.8 million. The Master Repurchase Agreement requires K. Hovnanian American Mortgage, LLC to satisfy and maintain specified financial ratios and other financial condition tests. As of October 31, 2008, we were in compliance with the covenants of the master repurchase agreement.

9. Senior Secured, Senior and Senior Subordinated Notes

Senior Secured, Senior and Senior Subordinated Notes balances as of October 31, 2008 and 2007 were as follows:

(In Thousands)	Year Ended	
	October 31, 2008	October 31, 2007
Senior Secured Notes:		
11½% Senior Secured Notes due May 1, 2013 (net of discount)	\$ 594,734	—
Senior Notes:		
8% Senior Notes due April 1, 2012 (net of discount)	\$ 99,627	\$ 99,537
6½% Senior Notes due January 15, 2014	215,000	215,000
6¾% Senior Notes due December 15, 2014	150,000	150,000
6¼% Senior Notes due January 15, 2015	200,000	200,000
6¼% Senior Notes due January 15, 2016 (net of discount)	296,444	296,063
7½% Senior Notes due May 15, 2016	300,000	300,000
8½% Senior Notes due January 15, 2017	250,000	250,000
Total Senior Notes	\$1,511,071	\$1,510,600
Senior Subordinated Notes:		
8¾% Senior Subordinated Notes due April 1, 2012	\$ 150,000	\$ 150,000
7¾% Senior Subordinated Notes due May 15, 2013	150,000	150,000
6% Senior Subordinated Notes due January 15, 2010	100,000	100,000
Total Senior Subordinated Notes	\$ 400,000	\$ 400,000

We and each of our subsidiaries are guarantors of the Senior Secured, Senior and Senior Subordinated Notes, except for K. Hovnanian, the issuer of the notes, certain of our financial services subsidiaries and joint ventures (see Note 22). The indentures governing the Senior Secured, Senior and Senior Subordinated Notes contain restrictive covenants that limit, among other things, the ability of Hovnanian and certain of its subsidiaries, including K. Hovnanian, the issuer of the Senior Secured, Senior and Senior Subordinated Notes, to incur additional indebtedness, pay dividends and make distributions on common and preferred stock, repurchase senior and senior subordinated notes (with respect to the senior secured notes indenture), make other restricted payments, make investments, sell certain assets, incur liens, consolidate, merge, sell or otherwise dispose of all or substantially all of its assets and enter into certain transactions with affiliates. If our consolidated fixed charge coverage ratio, as defined in the indentures governing our Senior Secured, Senior and Senior Subordinated Notes, is less than 2.0 to 1.0, we are restricted from making certain payments, including dividends, and from incurring indebtedness other than certain permitted indebtedness, refinancing indebtedness and non-recourse indebtedness. As a result of this restriction, we are currently restricted from paying dividends on our 7.625% Series A Preferred Stock. If current market trends continue or worsen, we will continue to be restricted from paying dividends into fiscal 2009, and possibly beyond. The restriction on making preferred dividend payments under our bond indentures will not affect our compliance with any of the covenants contained in the Amended Credit Agreement and will not permit the lenders under the Amended Credit Agreement to accelerate the loans. The indentures also contain events of default which would permit the holders of the Senior Secured, Senior and Senior Subordinated Notes to declare those notes to be immediately due and payable if not cured within applicable grace periods, including the failure to make timely payments on the notes or other material indebtedness, the failure to satisfy covenants and specified events of bankruptcy and insolvency and, with respect to the indenture governing the senior secured notes, the failure of the documents granting security for the senior secured notes to be in full force and effect and the failure of the liens on any material portion of the collateral securing the senior secured notes to be valid and perfected. As of October 31, 2008, we were in compliance with the covenants of the indentures governing our outstanding notes. Under the terms of the indentures, we have the right to make certain redemptions and, depending on market conditions and covenant restrictions, may do so from time to time. We may also make debt purchases and/or exchanges through open market purchases, private transactions or otherwise from time to time depending on market conditions and covenant restrictions.

At October 31, 2008, we had total issued and outstanding \$2,515.0 million (\$2,505.8 million, net of discount) Senior Secured, Senior and Senior Subordinated Notes. These notes have annual principal maturities in the following years ending October 31; \$100.0 million in 2010 \$250.0 million in 2012, \$750.0 million in 2013 and \$1,415.0 million thereafter.

On October 2, 2000, we issued \$150 million principal amount of 10½% Senior Notes due October 1, 2007. During the year ended October 31, 2003, we paid down \$9.8 million of these notes. We recorded \$1.6 million of expenses associated with the early extinguishment of the debt at that time. The 10½% Senior Notes were issued at a discount to yield 11% and have been reflected net of the unamortized discount in the accompanying Consolidated Balance Sheets. In August 2007, we purchased in open market transactions \$17.6 million of our 10½% Senior Notes due October 1, 2007 for \$17.5 million. The net amount is reported as a gain in Other operations in the fourth quarter of fiscal 2007. In addition, the funds we had deposited in escrow for such purpose were used to pay the remaining principal balance of \$122.7 million of the 10½% Senior Notes on October 1, 2007.

On March 26, 2002, we issued \$100 million 8% Senior Notes due 2012 and \$150 million 8¾% Senior Subordinated Notes due 2012. The 8% Senior Notes were issued at a discount to yield 8.125% and have been reflected net of the unamortized discount in the accompanying Consolidated Balance Sheets. Interest on both notes is paid semi-annually. The notes are redeemable in whole or in part, at any time on or after April 1, 2007, at our option at redemption prices expressed as percentages of principal amount that decline to 100% on April 1, 2010. The proceeds were used to redeem the remainder of 9¾% Subordinated Notes due June 1, 2005, repay a portion of a term loan facility, repay the current outstanding indebtedness under our Revolving Credit Agreement, and the remainder for general corporate purposes.

On May 9, 2003, we issued \$150 million 7¾% Senior Subordinated Notes due 2013. The notes are redeemable in whole or in part, at any time on or after May 15, 2008, at redemption prices expressed as percentages of principal amount that decline to 100% on May 15, 2011. The net proceeds of the note offering were used to repay the indebtedness then outstanding under the Revolving Credit Agreement and the remainder for general corporate purposes.

On November 3, 2003, we issued \$215 million 6½% Senior Notes due 2014. The notes are redeemable in whole or in part at our option at 100% of their principal amount upon payment of a make-whole price. The net proceeds of the issuance were used for general corporate purposes.

On March 18, 2004, we issued \$150 million 6¾% Senior Notes due 2014. The notes are redeemable in whole or in part at our option at 100% of their principal amount upon payment of a make-whole price. The net proceeds of the issuance were used to redeem all of our \$150 million outstanding 9½% Senior Notes due 2009, which occurred on May 3, 2004 and for general corporate purposes. Also on March 18, 2004, we paid off our \$115 million Term Loan with available cash.

On November 30, 2004, we issued \$200 million 6¼% Senior Notes due 2015 and \$100 million 6% Senior Subordinated Notes due 2010. The notes are redeemable in whole or in part at our option at 100% of their principal amount upon payment of a make-whole price. The net proceeds of the issuance were used to repay the outstanding balance on our Revolving Credit Facility and for general corporate purposes.

On August 8, 2005, we issued \$300 million 6¼% Senior Notes due 2016. The 6¼% Senior Notes were issued at a discount to yield 6.46% and have been reflected net of the unamortized discount in the accompanying Consolidated Balance Sheets. The notes are redeemable in whole or in part at our option at 100% of their principal amount plus the payment of a make-whole amount. The net proceeds of the issuance were used to repay the outstanding balance under our Revolving Credit Facility as of August 8, 2005, and for general corporate purposes, including acquisitions.

On February 27, 2006, we issued \$300 million of 7½% Senior Notes due 2016. The notes are redeemable in whole or in part at our option at 100% of their principal amount plus the payment of a make-whole amount. The net proceeds of the issuance were used to repay a portion of the outstanding balance under our revolving credit facility as of February 27, 2006.

On June 12, 2006, we issued \$250 million of 8¾% Senior Notes due 2017. The notes are redeemable in whole or in part at our option at 100% of their principal amount plus the payment of a make-whole amount. The net proceeds of the issuance were used to repay a portion of the outstanding balance under our revolving credit facility as of June 12, 2006.

On May 27, 2008, we issued \$600 million (\$594.4 million net of discount) of 11½% Senior Secured Notes due 2013. The notes are secured, subject to permitted liens and other exceptions, by a second-priority lien on substantially all of the assets owned by us, K. Hovnanian and the guarantors to the extent such assets secure obligations under the Amended Credit Agreement. The notes are redeemable in whole or in part at our option at 102% of principal commencing November 1, 2010, 101% of principal commencing May 1, 2011 and 100% of

principal commencing May 1, 2012. In addition, we may redeem up to 35% of the aggregate principal amount of the notes before May 1, 2011 with the net cash proceeds from certain equity offerings at 111.50% of principal. A portion of the net proceeds of the issuance were used to repay the outstanding balance under the Amended Credit Agreement.

On December 3, 2008, we issued \$29.3 million of 18.0% Senior Secured Notes due 2017 in exchange for \$71.4 million of our unsecured senior notes as follows: \$0.5 million aggregate principal amount of the 8% Senior Notes due 2012, \$12.0 million aggregate principal amount of the 6½% Senior Notes due 2014, \$1.1 million aggregate principal amount of the 6¾% Senior Notes due 2014, \$3.3 million aggregate principal amount of the 6¼% Senior Notes due 2015, \$24.8 million aggregate principal amount of the 7½% Senior Notes due 2016, \$28.7 million aggregate principal amount of the 6¼% Senior Notes due 2016 and \$1.0 million aggregate principal amount of the 8¾% Senior Notes due 2017. The notes are secured, subject to permitted liens and other exceptions, by a third-priority lien on substantially all of the assets owned by us, K. Hovnanian and the guarantors to the extent such assets secure obligations under the Amended Credit Agreement and the 11½% Senior Secured Notes due 2013. The notes are redeemable in whole or in part at our option at 102% of principal commencing May 1, 2011, 101% of principal commencing November 1, 2011 and 100% of principal commencing November 1, 2012. In addition, we may redeem up to 35% of the aggregate principal amount of the notes before May 1, 2011 with the net cash proceeds from certain equity offerings at 118.0% of principal.

10. Operating and Reporting Segments

SFAS 131, *Disclosures About Segments of an Enterprise and Related Information* ("SFAS 131") defines operating segments as a component of an enterprise for which discrete financial information is available and is reviewed regularly by the chief operating decision-maker, or decision-making group, to evaluate performance and make operating decisions. The Company has identified its chief operating decision-maker as the Chief Executive Officer. Under the definition, we have more than 36 homebuilding operating segments, and therefore, in accordance with paragraph 24 of SFAS 131, it is impractical to provide segment disclosures for this many segments. As such, we have aggregated the homebuilding operating segments into six reportable segments.

The Company's operating segments are aggregated into reportable segments in accordance with SFAS 131, based primarily upon geographic proximity, similar regulatory environments, land acquisition characteristics

and similar methods used to construct and sell homes. The Company's reportable segments consist of:

Homebuilding:

Northeast (New Jersey, New York, Pennsylvania)
 Mid-Atlantic (Delaware, Maryland, Virginia, West Virginia, Washington, D.C.)
 Midwest (Illinois, Kentucky, Minnesota, Ohio)
 Southeast (Florida, Georgia, North Carolina, South Carolina)
 Southwest (Arizona, Texas)
 West (California)
 Financial Services

Operations of the Company's Homebuilding segments primarily include the sale and construction of single-family attached and detached homes, attached townhomes and condominiums, mid-rise and high-rise condominiums, urban infill and active adult homes in planned residential developments. Operations of the Company's Financial Services segment includes mortgage banking and title services to the homebuilding operations' customers. We do not retain or service mortgages that we originate but rather sell the mortgages and related servicing right to investors.

Corporate and unallocated primarily represents operations at our headquarters in Red Bank, New Jersey. This includes our executive offices, information services, human resources, corporate accounting, training, treasury, process redesign, internal audit, construction services, and administration of insurance, quality, and safety. It also includes interest income and interest expense resulting from interest incurred that cannot be capitalized in inventory in the homebuilding segments.

Evaluation of segment performance is based primarily on operating earnings from continuing operations before provision for income taxes ("(Loss) income before income taxes"). (Loss) income before income taxes for the Homebuilding segments consist of revenues generated from the sales of homes and land, equity in earnings from unconsolidated joint ventures and management fees and other income, net, less the cost of homes and land sold, selling, general and administrative expenses and minority interest expense, net. Income before income taxes for the Financial Services segment consist of revenues generated from mortgage financing, title insurance and closing services, less the cost of such services and certain selling, general and administrative expenses incurred by the Financial Services segment.

Each reportable segment follows the same accounting policies described in Note 3—"Summary of Significant Accounting Policies" to the consolidated financial

statements. Operational results of each segment are not necessarily indicative of the results that would have occurred had the segment been an independent, stand-alone entity during the periods presented.

Financial information relating to operations of the Company's segments was as follows:

(In Thousands)	Year Ended October 31,		
	2008	2007	2006
Revenues:

11. Retirement Plan

In December 1982, we established a defined contribution savings and investment retirement plan (a 401K plan). Under such plan there are no prior service costs. All associates are eligible to participate in the retirement plan and employer contributions are based on a percentage of associate contributions and the Company's operating results. Plan costs charged to operations amount to \$2.9 million, \$6.4 million, and \$14.2 million for the years ended October 31, 2008, 2007, and 2006, respectively. The decreases in 2008 and 2007 are due to a decrease in participants as our workforce has been reduced, refunds to the Company of unvested contributions for terminated associates and no profit sharing payment made in 2008 or 2007.

12. Income Taxes

Income Taxes payable (receivable), including deferred benefits, consists of the following:

(In Thousands)	Year Ended	
	October 31, 2008	October 31, 2007
State income taxes:		
Current	\$ 18,706	\$ 6,993
Deferred	0	(13,038)
Federal income taxes:		
Current	(145,532)	(96,101)
Deferred	0	(92,264)
Total	\$(126,826)	\$(194,410)

The provision for income taxes is composed of the following charges (benefits):

(In Thousands)	Year Ended		
	October 31, 2008	October 31, 2007	October 31, 2006
Current			
income tax (benefit) expense:			
Federal	\$(146,865)	\$(103,407)	\$ 190,132
State(1)	1,157	2,745	24,030
	(145,708)	(100,662)	214,162
Deferred			
income tax (benefit) expense:			
Federal	89,647	76,472	(107,925)
State	12,603	4,343	(22,664)
	102,250	80,815	(130,589)
Total	\$ (43,458)	\$ (19,847)	\$ 83,573

(1) The current state income tax expense is net of the use of state net operating losses amounting to \$1.1 million, \$1.0 million, and \$46.3 million for the years ended October 31, 2008, 2007, and 2006, respectively.

Deferred federal and state income tax assets primarily represent the deferred tax benefits arising from temporary differences between book and tax income which will be recognized in future years as an offset against future taxable income. If, for some reason, the combination of future years' income (or loss) combined with the reversal of the timing differences results in a loss, such losses can be carried back to prior years or carried forward to future years to recover the deferred tax assets.

In accordance with SFAS No. 109, "Accounting for Income Taxes" ("SFAS 109"), we evaluate our deferred tax assets quarterly to determine if valuation allowances are required. SFAS 109 requires that companies assess whether valuation allowances should

be established based on the consideration of all available evidence using a "more likely than not" standard. Given the continued downturn in the homebuilding industry during the fourth quarter of 2007, resulting in additional inventory and intangible impairments, we are in a three year cumulative loss position as of October 31, 2008. According to SFAS 109, a three year cumulative loss is significant negative evidence in considering whether deferred tax assets are realizable, and also precludes relying on projections of future taxable income to support the recovery of deferred tax assets. Therefore, during 2008, we recorded a valuation allowance of \$409.6 million against our deferred tax assets. Our valuation allowance increased from \$265.9 million at October 31, 2007 to \$675.5 million at October 31, 2008. Our state net operating losses of \$99.8 million expire between 2009 and 2028. Our federal net operating losses of \$139.0 million expire in 2028.

The deferred tax assets and liabilities have been recognized in the Consolidated Balance Sheets as follows:

(In Thousands)	Year Ended	
	October 31, 2008	October 31, 2007
Deferred tax assets:		
Association subsidy reserves	\$	\$ 1,494
Inventory impairment loss	262,851	137,879
Uniform capitalization of overhead	12,757	21,987
Warranty, legal and bonding reserves	18,388	18,104
Deferred income	3,180	7,067
Acquisition intangibles	69,264	69,516
Restricted stock bonus	7,115	9,000
Stock options	11,936	10,403
Provision for losses	33,087	33,750
Previously taxed lot sales	230	3,282
Federal net operating losses	139,025	
State net operating losses	99,810	50,171
Joint venture losses	31,115	21,713
Other	1,936	7,826
Total deferred tax assets	690,694	392,192
Deferred tax liabilities:		
Association subsidy reserves	10	
Rebates and discounts	10,871	12,164
Accelerated depreciation	3,715	4,791
Acquisition intangibles	121	3,928
Other	487	149
Total deferred tax liabilities	15,204	21,032
Valuation Allowance	(675,490)	(265,858)
Net deferred income taxes	\$ 0	\$ 105,302

The effective tax rates varied from the statutory federal income tax rate. The sources of these differences were as follows:

	Year Ended		
	October 31, 2008	October 31, 2007	October 31, 2006
Computed "expected" tax rate	35.0%	35.0%	35.0%
State income taxes, net of Federal income tax benefit	(0.1)	0.1	0.9
Permanent differences, net	(0.1)	0.1	(0.3)
Deferred tax asset valuation allowance impact	(30.9)	(33.3)	
Other	(0.2)	1.2	0.3
Effective tax rate	3.7%	3.1%	35.9%

In July 2006, the FASB issued Financial Interpretation ("FIN") 48, "Accounting for Uncertainty in Income Taxes," which clarifies the accounting for uncertainty in income taxes recognized in the financial statements in accordance with SFAS 109, "Accounting for Income Taxes." FIN 48 provides that a tax benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, based on the technical merits.

Income tax positions must meet a more-likely-than-not recognition threshold at the effective date to be recognized upon the adoption of FIN 48 and in subsequent periods. This interpretation also provides guidance on measurement, derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

We recognize tax liabilities in accordance with FIN 48 and we adjust these liabilities when our judgment changes as a result of the evaluation of new information not previously available. Due to the complexity of some of these uncertainties, the ultimate resolution may result in a payment that is materially different from our current estimate of the tax liabilities. These differences will be reflected as increases or decreases to income tax expense in the period in which they are determined. If the tax liabilities relate to tax uncertainties existing at the date of the acquisition of a business, the adjustment of such tax liabilities will result in an adjustment to the goodwill recorded at the date of acquisition.

The Company adopted the provisions of FIN 48, on November 1, 2007. As a result of the adoption of

FIN 48, the Company recognized approximately a \$8.7 million increase in the liability for unrecognized tax benefits, which was accounted for as a reduction to the November 1, 2007 balance of retained earnings.

The Company recognizes interest and penalties related to unrecognized tax benefits within the income tax expense line in the accompanying consolidated statement of operations. Accrued interest and penalties are included within the related tax liability line in the consolidated balance sheet.

The following is a tabular reconciliation of the total amounts of unrecognized tax benefits for the year (in millions):

Unrecognized tax benefit—November 1, 2007	\$25.2
Gross increases—tax positions in prior period	1.2
Gross decreases—tax positions in prior period	0
Gross increases—tax positions in current period	0
Settlements	(2.1)
Lapse of statute of limitations	(2.3)
Unrecognized tax benefit—October 31, 2008	\$22.0

Included in the balance of unrecognized tax benefits at November 1, 2007, are \$16.5 million of tax benefits that, if recognized, would affect the effective tax rate and would result in adjustments to other tax accounts, primarily deferred taxes.

The Company recognizes interest and penalties accrued related to unrecognized tax benefits as income tax expense. Related to the unrecognized tax benefits noted above, the Company as of October 31, 2008 has recognized a liability for interest and penalties of \$6.1 million. For the years ended October 31, 2008, 2007 and 2006, the Company recognized \$(0.3) million, \$1.5 million and \$2.9 million, respectively, of interest and penalties in income tax benefit/provision.

The Company believes that it is reasonably possible that approximately \$2.3 million of its currently remaining unrecognized tax positions, each of which are individually insignificant, may be recognized by the end of 2009 as a result of a lapse of the statute of limitations.

The Company completed its examination by the Internal Revenue Service for years ended through October 2006. The Company has been notified that the Internal Revenue Service will begin a 2007 audit in December 2008. The Company is also subject to various income tax examinations in the states in which it does business. The final outcome of these examinations is not yet determinable but is estimated to be immaterial. The statute of limitations for the Company's major tax jurisdictions remains open for examination for tax years 2004 – 2007. During 2008, the Company completed a number of state examinations without any effect on its fiscal year 2008 net loss.

13. Reduction of Inventory to Fair Value

In accordance with Financial Accounting Standards No. 144, "Accounting for the Impairment of or Disposal of Long Lived Assets", we record impairment losses on inventories related to communities under development and held for future development when events and circumstances indicate that they may be impaired and the undiscounted cash flows estimated to be generated by those assets are less than their related carrying amounts. As a result of a continued decline in sales pace, sales price and general market conditions, as well as increased cancellation rates during the year ended October 31, 2008, we recorded impairment losses, which are presented in the Consolidated Statements of Operations and deducted from inventory, of \$596.0 million, \$331.8 million, and \$177.1 million for the years ended October 31, 2008, 2007, and 2006, respectively.

The following table represents impairments by segment for fiscal 2008, 2007 and 2006:

(Dollars in millions)	Year Ended October 31, 2008		
	Number of Communities	Dollar Amount of Impairment	Pre-Impairment Value \$
Northeast	10	\$ 43.5	\$ 208.2
Mid-Atlantic	25	38.1	155.3
Midwest	4	7.7	32.3
Southeast	44	53.4	160.5
Southwest	35	81.1	212.8
West	63	372.2	1,018.2
Total	181	\$596.0	\$1,787.3

(Dollars in millions)	Year Ended October 31, 2007		
	Number of Communities	Dollar Amount of Impairment	Pre-Impairment Value \$
Northeast	14	\$ 25.1	\$ 135.0
Mid-Atlantic	5	10.4	35.5
Midwest	13	17.9	58.3
Southeast	20	81.6	127.9
Southwest	7	11.8	31.1
West	25	185.0	650.2
Total	84	\$331.8	\$1,038.0

(Dollars in millions)	Year Ended October 31, 2006		
	Number of Communities	Dollar Amount of Impairment	Pre-Impairment Value \$
Northeast	6	\$ 17.4	\$ 57.1
Mid-Atlantic	2	1.3	8.0
Midwest	7	15.4	53.1
Southeast	6	92.1	185.4
Southwest	1	0.1	1.3
West	6	50.8	183.2
Total	28	\$177.1	\$488.1

The Consolidated Statements of Operations line entitled "Homebuilding-Inventory impairment loss and land option write-offs" also includes write-offs of options, and approval, engineering and capitalized interest costs that we record when we redesign communities and/or abandon certain engineering costs and we do not exercise options in various locations because the communities' pro forma profitability does not produce adequate returns on investment commensurate with the risk. The total aggregate write-offs were \$114.1 million, \$126.0 million, and \$159.1 million for the years ended October 31, 2008, 2007 and 2006, respectively.

The following table represents write-offs of such costs by segment for fiscal 2008, 2007, and 2006:

(In millions)	Year Ended		
	October 31, 2008	October 31, 2007	October 31, 2006
Northeast	\$ 20.7	\$ 31.3	\$ 57.9
Mid-Atlantic	45.6	9.0	21.9
Midwest	0.7	10.2	14.3
Southeast	32.2	31.7	13.9
Southwest	10.4	4.2	0.5
West	4.5	39.6	50.6
Total	\$114.1	\$126.0	\$159.1

14. Transactions with Related Parties

During the year ended October 31, 2003, we entered into an agreement to purchase land in California for approximately \$31.1 million from an entity that is owned by a family relative of our Chairman of the Board and our Chief Executive Officer. As of October 31, 2008, we have an option deposit of \$3.2 million related to this land acquisition agreement. In connection with this agreement, we also have consolidated \$10.3 million in accordance with FIN 46R under "Consolidated inventory not owned" in the Consolidated Balance Sheets. Neither the Company nor the Chairman of the Board or Chief Executive Officer has a financial interest in the relative's company from whom the land was purchased.

During the year ended October 31, 2001, we entered into an agreement to purchase land from an entity that is owned by a family relative of our Chairman of the Board and our Chief Executive Officer, totaling \$26.9 million. As of October 31, 2008, all of this property has been purchased, and during fiscal 2008, the Company delivered the remaining four lots that were in inventory. Neither the Company nor the Chairman of the Board or Chief Executive Officer has a financial interest in the relative's company from whom the land was purchased.

During the year ended October 31, 2001, we entered into an agreement to purchase land in Maryland for approximately \$3.0 million from a group that consists of relatives of Geaton Decesaris, Jr., formerly a member of our Board of Directors. We had posted a deposit of \$100,000 and purchased the property when final approvals were in place. The property was purchased in November 2001 and there are no lots remaining to be sold as of October 31, 2007 of an original 147 lots. During the time he was a member of the Board of Directors, Geaton Decesaris, Jr. had no financial interest in the relatives' ownership and sale of land to the Company.

During the second quarter of 2006, an existing lease on a building occupied by one of our companies in the Southeast was amended. The lessor is a company, whom at the time of the transaction, was owned partly by Geaton A. Decesaris, Jr., formerly a member of the Company's Board of Directors. The amendment provided for an increase in the square footage of the lease space, an increased security deposit related to the square footage increase and an increase in the lease term. In total, the lease is for 39,637 square feet at \$18.86 per square foot per year, with a total security deposit of \$34,511.

During the years ended October 31, 2008, 2007 and 2006, an engineering firm owned by a relative of our Chairman of the Board and Chief Executive Officer provided services to the Company totaling \$2.6 million,

\$3.6 million, and \$5.0 million, respectively. Neither the Company nor Chairman of the Board or Chief Executive Officer has a financial interest in the relative's company from whom the services were provided.

In December 2005, we entered into an agreement to purchase land in New Jersey from an entity that is owned by family relatives of our Chairman of the Board and our Chief Executive Officer at a base price of \$25 million. The land will be acquired in four phases over a period of 3 years from the date of acquisition of the first phase. On June 11, 2008, the parties amended the purchase agreement and closed title to 43 of the 86 homes in phase one. The purchase of the balance of phase one was deferred, but such purchase must occur simultaneously with the scheduled closing of any of the three remaining phases. The purchase prices for all phases are subject to an increase in the purchase price for the phase of not less than 7% per annum from February 1, 2008. A deposit in the amount of \$500,000, however, has been made by the Company. Neither the Company nor the Chairman of the Board or the Chief Executive Officer has a financial interest in the relatives' company from whom the land will be purchased.

15. Stock Plans

We have a stock option plan for certain officers and key employees. Options are granted by a Committee appointed by the Board of Directors or its delegee in accordance with the stock option plan. The exercise price of all stock options must be at least equal to the fair market value of the underlying shares on the date of the grant. Options granted prior to May 14, 1998 vest in three equal installments on the first, second and third anniversaries of the date of the grant. Options granted on or after May 14, 1998 and before June 8, 2007 generally vest in four equal installments on the third, fourth, fifth and sixth anniversaries of the date of the grant. Options granted on or after June 8, 2007 generally vest in four equal installments on the second, third, fourth and fifth anniversaries of the date of the grant. Certain Southeast Region associates were granted and held options to purchase the stock from the acquired company prior to the January 23, 2001 acquisition. These options vest in three installments: 25% on the first and second anniversary, and 50% on the third anniversary of the date of the grant. In connection with the acquisition, the options were exchanged for options to purchase the Company's Class A Common Stock. All options expire ten years after the date of the grant. During the year ended October 31, 2008, each of the five outside directors of the Company was granted options to purchase between 7,000 and 11,000 shares. All shares granted to the outside directors were issued at the same price and terms as those granted to officers and key

employees, except the outside directors' options vest in three equal installments on the first, second and

third anniversaries of the date of the grant. Stock option transactions are summarized as follows:

	October 31, 2008	Weighted Average Exercise Price	October 31, 2007	Weighted Average Exercise Price	October 31, 2006	Weighted Average Exercise Price
Options outstanding at beginning of period	6,285,330	\$23.43	5,874,583	\$23.48	5,478,854	\$21.06
Granted	1,128,875	\$ 6.46	1,149,750	\$21.49	927,875	\$32.29
Exercised	265,000	\$ 4.53	408,988	\$13.45	242,146	\$ 9.03
Forfeited	190,000	\$23.46	208,625	\$34.19	290,000	\$17.90
Expired			121,390	\$22.52		
Options outstanding at end of period	6,959,205	\$21.17	6,285,330	\$23.43	5,874,583	\$23.48
Options exercisable at end of period	2,918,835		2,419,364		2,220,311	

The total intrinsic value of options exercised during fiscal 2008, 2007 and 2006 was \$1.6 million, \$8.3 million and \$8.7 million, respectively. The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option.

The intrinsic value of 538,000 options outstanding and exercisable at October 31, 2008 was \$0.7 million. The remaining options outstanding and exercisable had no intrinsic value. Exercise prices for options outstanding at October 31, 2008, ranged from \$1.84 to \$71.16.

The weighted average fair value of grants made in fiscal 2008, 2007 and 2006 was \$3.35, \$10.46 and \$18.63 per share, respectively. The weighted average fair value of options vested in fiscal 2008, 2007 and 2006 was \$15.52, \$11.34 and \$9.94 per share, respectively.

The following table summarizes the exercise price range and related number of options outstanding at October 31, 2008:

Range of Exercise Prices	Number Outstanding	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life
\$1.84 – \$5.00	538,000	\$ 2.95	1.25
\$5.01 – \$10.00	2,033,125	\$ 6.20	6.56
\$10.01 – \$20.00	897,704	\$15.89	6.49
\$20.01 – \$30.00	1,041,625	\$21.53	4.67
\$30.01 – \$40.00	1,107,500	\$32.68	6.98
\$40.01 – \$50.00	1,035,000	\$43.04	5.53
\$50.01 – \$60.00	296,251	\$56.10	6.53
\$60.01 – \$70.00	5,000	\$60.36	6.67
\$70.01 – \$71.16	5,000	\$71.16	6.75
	6,959,205	\$21.40	6.04

The following table summarizes the exercise price range and related number of exercisable options at October 31, 2008:

Range of Exercise Prices	Number Exercisable	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life
\$1.84 – \$5.00	538,000	\$ 2.95	1.25
\$5.01 – \$10.00	922,250	\$ 5.89	2.83
\$10.01 – \$20.00	702,704	\$15.81	3.96
\$20.01 – \$30.00	4,500	\$25.31	4.67
\$30.01 – \$40.00	222,942	\$33.83	5.66
\$40.01 – \$50.00	423,750	\$43.45	5.39
\$50.01 – \$60.00	102,189	\$55.35	6.48
\$60.01 – \$70.00	1,250	\$60.36	6.67
\$70.01 – \$71.16	1,250	\$71.16	6.75
	2,918,835	\$10.73	4.19

A summary of the Company's nonvested options as of and for the year ended October 31, 2008 is as follows:

	Options	Grant Date Fair Value
Nonvested at beginning of period	3,865,966	\$17.25
Granted	1,128,875	\$ 3.35
Vested	(764,471)	\$15.52
Forfeited	(190,000)	\$23.46
Nonvested at end of period	4,040,370	\$16.88

For certain associates, a portion of their bonus is paid by issuing a deferred right to receive our common stock. The number of shares is calculated for each bonus year by dividing the portion of the bonus subject to the deferred right award by our average stock price for the year or the stock price at year end, whichever is lower. Twenty-five percent of the deferred right award will vest and shares will be issued one year after the year end and then 25% a year for the next three years. Participants with 20 years of service or over 58 years of age vest immediately. During the years ended October 31, 2008 and 2007, we issued 284,016 and 184,090 shares under the plan. During the years ended October 31, 2008 and 2007, 86,244 and

55,954 shares were forfeited under this plan, respectively. For the years ended October 31, 2008, 2007, and 2006, approximately 1,289,937, 728,345, and 366,061 rights were awarded in lieu of \$5.5 million, \$8.3 million, and \$11.7 million of bonus payments, respectively. For the years ended October 31, 2008, 2007 and 2006, total compensation cost recognized in the Consolidated Statement of Operations for these deferred compensation awards and other nonvested share awards was \$12.1 million, \$10.7 million and \$9.5 million, respectively.

A summary of the Company's nonvested share awards as of and for the year ended October 31, 2008 is as follows:

	Shares	Weighted Average Grant Date Fair Value
Nonvested at beginning of period	1,398,698	\$19.56
Granted	1,233,650	\$ 4.41
Vested	(899,676)	\$22.40
Forfeited	(110,590)	\$24.89
Nonvested at end of period	1,622,082	\$10.97

As of October 31, 2008, we have 11.3 million shares authorized for future issuance under our equity compensation plans. In addition, as of October 31, 2008, there was \$54.3 million of total unrecognized compensation costs related to nonvested share based compensation arrangements. That cost is expected to be recognized over a weighted average period of 2.58 years.

16. Warranty Costs

Over the past several years, general liability insurance for homebuilding companies and their suppliers and subcontractors has become very difficult to obtain. The availability of general liability insurance has been limited due to a decreased number of insurance companies willing to write for the industry. In addition, those few insurers willing to write liability insurance have significantly increased the premium costs. We have been able to obtain general liability insurance but at higher premium costs with higher deductibles. We have been advised that a significant number of our subcontractors and suppliers have also had difficulty obtaining insurance that also provides us coverage. As a result, we introduced an owner controlled insurance program for certain of our subcontractors, whereby the subcontractors pay us an insurance premium based on the value of their services, and we absorb the liability associated with their work on our homes as part of our overall general liability insurance.

We provide a warranty accrual for repair costs under \$5,000 per occurrence to homes, community amenities and land development infrastructure. We accrue for warranty costs as part of cost of sales at the time each

home is closed and title and possession have been transferred to the homebuyer. In addition, we accrue for warranty costs over \$5,000 per occurrence as part of our general liability insurance deductible, which is expensed as selling, general and administrative costs. For homes delivered in fiscal 2008, our deductible under our general liability insurance is \$20 million per occurrence with an aggregate \$20 million for liability claims and an aggregate \$21.5 million for construction defect claims. Additions and charges in the warranty reserve and general liability reserve for the years ended October 31, 2008 and 2007 are as follows:

(In Thousands)	Year Ended	
	October 31, 2008	October 31, 2007
Balance, beginning of year	\$120,653	\$ 93,516
Additions during year	63,107	68,149
Charges incurred during year	(58,022)	(41,012)
Balance, end of year	\$125,738	\$120,653

Warranty accruals are based upon historical experience. We engage a third party actuary that uses our historical warranty data to estimate our reserves for unpaid claims, claim adjustment expenses and incurred but not reported claims for the risks that we are assuming under the general liability and workers compensation programs. The estimates include provisions for inflation, claims handling and legal fees.

Insurance claims paid by our insurance carriers were \$36.8 million and \$10.6 million for the year ended October 31, 2008 and 2007, respectively, for prior year deliveries.

17. Commitments and Contingent Liabilities

We are involved in litigation arising in the ordinary course of business, none of which is expected to have a material adverse effect on our financial position or results of operations, and we are subject to extensive and complex regulations that affect the development and home building, sales and customer financing processes, including zoning, density, building standards and mortgage financing. These regulations often provide broad discretion to the administering governmental authorities. This can delay or increase the cost of development or homebuilding.

We also are subject to a variety of local, state, federal and foreign laws and regulations concerning protection of health and the environment. The particular environmental laws that apply to any given community vary greatly according to the community site, the site's environmental conditions and the present and former uses of the site. These environmental laws may result in delays, may cause us to incur substantial compliance, remediation, and/or other costs, and can prohibit or severely restrict development and homebuilding activity.

In March 2005, we received two requests for information pursuant to Section 308 of the Clean Water Act from Region 3 of the Environmental Protection Agency (the "EPA"). These requests sought information concerning storm water discharge practices in connection with completed, ongoing and planned homebuilding projects by subsidiaries in the states and district that comprise EPA Region 3. We also received a notice of violations for one project in Pennsylvania and requests for sampling plan implementation in two projects in Pennsylvania. We have subsequently received notification from the EPA alleging violations of storm water discharge practices at other locations and requesting related information. We provided the EPA with information in response to its requests. The Department of Justice ("DOJ") is also involved in the review of these practices and enforcement with respect to them. We are engaged in discussions with the DOJ and EPA regarding a resolution of these matters. We cannot predict whether those discussions will result in a resolution, or what any resolution of these matters ultimately will require of us.

We anticipate that increasingly stringent requirements will be imposed on developers and homebuilders in the future. Although we cannot predict the effect of these requirements, they could result in time-consuming and expensive compliance programs and in substantial expenditures, which could cause delays and increase our cost of operations. In addition, the continued effectiveness of permits already granted or approvals already obtained is dependent upon many factors, some of which are beyond our control, such as changes in policies, rules and regulations and their interpretations and application.

The Company is also involved in the following litigation in different parts of the country:

The Company, Chief Executive Officer and President Ara K. Hovnanian, Executive Vice President and Chief Financial Officer J. Larry Sorsby and a former officer of a Company subsidiary have been named as defendants in a purported class action. The original complaint, which only named Mr. Sorsby as a defendant, was filed on September 14, 2007 in the United States District Court for the Central District of California, captioned *Herbert Mankofsky v. J. Larry Sorsby*, and names only Mr. Sorsby as a defendant. On January 31, 2008, the court appointed Herbert Mankofsky as Lead Plaintiff. On February 19, 2008, the action was transferred to the United States District Court for the District of New Jersey. On March 10, 2008, plaintiff filed an amended complaint, captioned *In re Hovnanian Enterprises, Inc. Securities Litigation*, alleging, among other things, that the defendants violated federal securities laws by making false and misleading statements regarding the Company's business and future prospects in connection with the Company's acquisition of First Home Builders

of Florida. The Company filed a Motion to Dismiss the amended complaint on July 14, 2008. On September 11, 2008, plaintiff filed his opposition to the Motion to Dismiss. The Company filed its reply brief on October 28, 2008. The Motion to Dismiss is now fully briefed and is pending before the court.

The Company has been named as a defendant in a purported class action suit filed May 30, 2007 in the United States District Court for the Eastern District of Pennsylvania, *Mark W. Mellar, et al., v. Hovnanian Enterprises, Inc., et al.*, asserting that the Company's sales of homes along with the financing of home purchases and the provision of title insurance by affiliated companies violated the Real Estate Settlement Procedures Act. Plaintiffs seek to represent a class of persons who purchased a home from the Company, who received a mortgage loan via a subsidiary of the Company and/or who bought title insurance from a company affiliated with the Company, and are seeking damages (including treble damages), declaratory and injunctive relief, and attorney's fees and costs. The Company's Motion to Dismiss the complaint was denied by the Court on March 4, 2008 without prejudice. The case was settled in October 2008 (with the Stipulation of Dismissal filed with the Court on November 5, 2008) and the terms of the settlement had no material impact on the Company.

A subsidiary of the Company has been named as a defendant in a purported class action suit filed on May 30, 2007 in the United States District Court for the Middle District of Florida, *Randolph Sewell, et al., v. D'Allesandro & Woodyard, et al.*, alleging violations of the federal securities acts, among other allegations, in connection with the sale of some of the subsidiary's homes in Fort Myers, Florida. Plaintiffs filed an amended complaint on October 19, 2007. Plaintiffs sought to represent a class of certain home purchasers in southwestern Florida and sought damages, rescission of certain purchase agreements, restitution of out-of-pocket expenses, and attorneys' fees and costs. The Company's subsidiary filed a Motion to Dismiss the amended complaint on December 14, 2007. Following oral argument on the motion in September 2008, the court dismissed the amended complaint with leave for plaintiffs to amend. Plaintiffs filed a second amended complaint on October 31, 2008. Plaintiffs seek to represent a class of certain home purchasers in southwestern Florida and seek damages, rescission of certain purchase agreements, restitution of out-of-pocket expenses, and attorneys' fees and costs.

On April 4, 2008, K. Hovnanian Enterprises, Inc. ("K. Hovnanian"), a wholly-owned subsidiary of the Company, initiated arbitration proceedings against GMAC Model Home Finance, LLC ("GMAC") to resolve a dispute arising under a Model Purchase, Construction Management and Rental Agreement dated October 4,

2001 (the "Agreement"). The Company is the guarantor of K. Hovnanian's obligations under the Agreement. On March 31, 2008, GMAC advised K. Hovnanian that it was terminating all model home leases and intended to take possession of all model homes at issue based on the claim that K. Hovnanian had defaulted under the Agreement. In its arbitration demand, K. Hovnanian disputes the existence of any default and claims that GMAC has materially breached the Agreement by failing to fund certain construction costs. On April 25, 2008, GMAC asserted counterclaims against K. Hovnanian and the Company alleging that K. Hovnanian defaulted and that all leases were terminated. On September 4, 2008, parties entered into a settlement and release agreement resolving all disputes between them arising under the Agreement. The terms of the settlement had no material impact on the Company.

18. Variable Interest Entities

In December 2003, the FASB issued revision to Interpretation No. 46, "Consolidation of Variable Interest Entities" ("FIN 46R"). A Variable Interest Entity ("VIE") is created when (i) the equity investment at risk is not sufficient to permit the entity from financing its activities without additional subordinated financial support from other parties or (ii) equity holders either (a) lack direct or indirect ability to make decisions about the entity, (b) are not obligated to absorb expected losses of the entity or (c) do not have the right to receive expected residual returns of the entity if they occur. If an entity is deemed to be a VIE, pursuant to FIN 46R, an enterprise that absorbs a majority of the expected losses of the VIE is considered the primary beneficiary and must consolidate the VIE.

Based on the provisions of FIN 46R, we have concluded that whenever we option land or lots from an entity and pay a non-refundable deposit, a VIE is created under condition (ii)(b) and (c) of the previous paragraph. We have been deemed to have provided subordinated financial support, which refers to variable interests that will absorb some or all of an entity's expected theoretical losses if they occur. For each VIE created with a significant non-refundable option fee (we currently define significant as greater than \$100,000 because we have determined that in the aggregate the VIEs related to deposits of this size or less are not material), we will compute expected losses and residual returns based on the probability of future cash flows as outlined in FIN 46R. If we are deemed to be the primary beneficiary of the VIE, we will consolidate it on our balance sheet. The fair value of the VIEs' inventory will be reported as "Consolidated inventory not owned—variable interest entities".

Typically, the determining factor in whether or not we are the primary beneficiary is the non-refundable deposit amount as a percentage of the total purchase

price, because it determines the amount of the first risk of loss we take on the contract. The higher this percentage deposit, the more likely we are to be the primary beneficiary. Other important criteria that impact the outcome of the analysis, are the probability of getting the property through the approval process for residential homes, because this impacts the ultimate value of the property, as well as who is the responsible party (seller or buyer) for funding the approval process and development work that will take place prior to the decision to exercise the option.

Management believes FIN 46R was not clearly thought out for application in the homebuilding industry for land and lot options. Under FIN 46R, we can have an option and put down a small deposit as a percentage of the purchase price and still have to consolidate the entity. Our exposure to loss as a result of our involvement with the VIE is only the deposit, not its total assets consolidated on the balance sheet. In certain cases, we will have to place inventory on our balance sheet the VIE has optioned to other developers. In addition, if the VIE has creditors, its debt will be placed on our balance sheet even though the creditors have no recourse against our Company. Based on these observations we believe consolidating VIEs based on land and lot option deposits does not reflect the economic realities or risks of owning and developing land. Further supporting this position, during fiscal 2008, we terminated 11 option agreements that had been consolidated on our balance sheet as VIEs with a value of \$50.6 million. We recorded charges on our books for these terminations of \$9.4 million, principally the deposit amount.

At October 31, 2008, all 14 VIEs we were required to consolidate were as a result of our options to purchase land or lots from the selling entities. We paid cash or issued letters of credit deposits to these 14 VIEs totaling \$8.7 million. Our option deposits represent our maximum exposure to loss. The fair value of the property owned by the VIEs was \$77.0 million. Since we do not own an equity interest in any of the unaffiliated variable interest entities that we must consolidate pursuant to FIN 46R, we generally have little or no control or influence over the operations of these entities or their owners. When our requests for financial information are denied by the land sellers, certain assumptions about the assets and liabilities of such entities are required. In most cases, the fair value of the assets of the consolidated entities have been based on the remaining contractual purchase price of the land or lots we are purchasing. In these cases, it is assumed that the entities have no debt obligations and the only asset recorded is the land or lots we have the option to buy with a related offset to minority interest for the assumed third party investment in the variable interest equity. At October 31, 2008, the balance reported in minority interest from inventory not owned

was \$24.9 million. Creditors of these VIEs have no recourse against our Company.

We will continue to secure land and lots using options. Including the deposits with the 14 VIEs above, at October 31, 2008, we have total cash and letters of credit deposits amounting to approximately \$69.9 million to purchase land and lots with a total purchase price of \$862.8 million. Not all our deposits are with VIEs. The maximum exposure to loss is limited to the deposits although some deposits are refundable at our request or refundable if certain conditions are not met.

19. Investments in Unconsolidated Homebuilding and Land Development Joint Ventures

We enter into homebuilding and land development joint ventures from time to time as a means of accessing lot positions, expanding our market opportunities, establishing strategic alliances, managing our risk profile, leveraging our capital base and enhancing returns on capital. Our homebuilding joint ventures are generally entered into with third party investors to develop land and construct homes that are sold directly to third party homebuyers. Our land development joint ventures include those with developers and other homebuilders as well as financial investors to develop finished lots for sale to the joint venture's members or other third parties. The tables set forth below summarize the combined financial information related to our unconsolidated homebuilding and land development joint ventures that are accounted for under the equity method.

October 31, 2008			
(Dollars In Thousands)	Homebuilding	Land Development	Total
Assets:			
Cash and cash equivalents	\$ 18,660	\$ 3,458	\$ 22,118
Inventories	492,830	83,853	576,683
Other assets	23,410	503	23,913
Total assets	534,900	87,814	622,714
Liabilities and equity:			
Accounts payable and accrued liabilities	43,827	15,792	59,619
Notes payable	276,245	43,912	320,157
Equity of:			
Hovnanian Enterprises, Inc.	58,694	8,732	67,426
Others	156,134	19,378	175,512
Total equity	214,828	28,110	242,938
Total liabilities and equity	\$534,900	\$ 87,814	\$622,714
Debt to capitalization ratio	56%	61%	57%

October 31, 2007			
(Dollars In Thousands)	Homebuilding	Land Development	Total
Assets:			
Cash and cash equivalents	\$ 43,789	\$ 9,903	\$ 53,692
Inventories	574,195	171,067	745,262
Other assets	36,028	5,510	41,538
Total assets	\$654,012	\$186,480	\$840,492
Liabilities and equity:			
Accounts payable and accrued liabilities	\$ 76,197	\$ 14,309	\$ 90,506
Notes payable	292,633	46,546	339,179
Equity of:			
Hovnanian Enterprises, Inc.	75,858	77,129	152,987
Others	209,324	48,496	257,820
Total equity	285,182	125,625	410,807
Total liabilities and equity	\$654,012	\$186,480	\$840,492
Debt to capitalization ratio	51%	27%	45%

As of October 31, 2008 and 2007, we had advances outstanding of approximately \$15.6 and \$23.4 million to these unconsolidated joint ventures, which were included in the "Accounts payable and accrued liabilities" balances in the table above. On our Hovnanian Enterprises, Inc. Consolidated Balance Sheets our "Investments in and advances to unconsolidated joint ventures" amounted to \$71.1 million and \$176.4 million at October 31, 2008 and 2007, respectively. A significant portion of the decrease is the result of consolidating a previously unconsolidated land development joint venture in our West segment when our partner in the joint venture decided to terminate its investment. This resulted in reclassing the \$61.5 million investment in this joint venture to inventory.

October 31, 2008			
(Dollars In Thousands)	Homebuilding	Land Development	Total

Joint venture net income/(loss)	\$ 53,660	\$ (6)	\$ 53,654
Our share of net earnings/(losses)	\$ 15,427	\$ (39)	\$ 15,388

(Loss) Income from unconsolidated joint ventures is reflected as a separate line in the accompanying Consolidated Financial Statements and reflects our proportionate share of the income or loss of these unconsolidated homebuilding and land development joint ventures. The difference between our share of the income or loss from these unconsolidated joint ventures disclosed in the tables above compared to the Hovnanian Enterprises, Inc. Consolidated Income Statements is due to the reclass of the intercompany portion of management fee income from certain joint ventures, the deferral of income for lots purchased by us from certain joint ventures and the write-off of our investment in two of our homebuilding joint ventures of \$11.3 million. Our ownership interests in the joint ventures vary but are generally less than or equal to 50%. In determining whether or not we must consolidate joint ventures where we are the manager of the joint venture, we consider the guidance in EITF 04-5 in assessing whether the other partners have specific rights to overcome the presumption of control by us as the manager of the joint venture. In most cases, the presumption is overcome because the joint venture agreements require that both partners agree on establishing the operating and capital decisions of the partnership, including budgets, in the ordinary course of business. beneficiary, therefore we do not consolidate these entities (See Note 19).

Typically, our unconsolidated joint ventures obtain separate project specific mortgage financing for each venture. Generally, the amount of such financing is limited to no more than 50% of the joint venture's total assets, and such financing is obtained on a non-recourse basis, with guarantees from us limited only to performance and completion of development, environmental indemnification, standard warranty and

representation against fraud, misrepresentation and other similar actions, including a voluntary bankruptcy filing. In some instances, the joint venture entity is considered a variable interest entity (VIE) under FIN 46R due to the returns being capped to the equity holders; however, in these instances, we are not the primary beneficiary, therefore we do not consolidate these entities (See Note 19).

20. Acquisitions

On April 17, 2006, we acquired for cash the assets of CraftBuilt Homes, a privately held homebuilder headquartered in Bluffton, South Carolina. The acquisition expands our operations into the coastal markets of South Carolina and Georgia. CraftBuilt Homes designs, markets and sells single family detached homes. Due to its close proximity to Hilton Head, CraftBuilt Homes focuses on first-time, move-up, empty-nester and retiree homebuyers. This acquisition is being accounted for as a purchase with the results of its operations included in our consolidated financial statements as of the date of the acquisition.

In connection with the CraftBuilt Homes acquisition, we had definite life intangible assets equal to the excess purchase price over fair value of net tangible assets of \$4.5 million in aggregate. In the fourth quarter of fiscal 2008, we determined that these intangible assets were impaired and wrote off the remaining asset balance of \$2.7 million. Prior to the impairment, we were amortizing the definite life intangibles over their estimated lives.

On May 1, 2006, we acquired through the issuance of 175,936 shares of Class A common stock substantially all of the assets of two mechanical contracting businesses. These acquisitions were accounted for as purchases with the results of their operations included in our consolidated financial statements as of the date of acquisition.

In connection with the two mechanical contracting business acquisitions, we recorded definite life intangible assets equal to the excess purchase price over fair value of net tangible assets of \$4.0 million in aggregate. During the fourth quarter of fiscal 2007, we determined that these intangible assets were impaired and wrote off the remaining asset balance of \$2.8 million. Prior to the impairment, we were amortizing the definite life intangibles over their estimated lives.

All fiscal 2006 acquisitions provide for other payments to be made, generally dependant upon achievement of certain future operating and return objectives, however, we do not expect to make any future payments based on our forecasts for these businesses.

21. Unaudited Summarized Consolidated Quarterly Information

Summarized quarterly financial information for the years ended October 31, 2008 and 2007 is as follows:

(In Thousands Except Per Share Data)	Three Months Ended			
	October 31, 2008	July 31, 2008	April 30, 2008	January 31, 2008

Weighted average number of common shares outstanding	63,207	63,199	63,004	62,904

22. Financial Information of Subsidiary Issuer and Subsidiary Guarantors

Hovnanian Enterprises, Inc., the parent company (the "Parent") is the issuer of publicly traded common stock and preferred stock. One of its wholly-owned subsidiaries, K. Hovnanian Enterprises, Inc. (the "Subsidiary Issuer"), acts as a finance entity that as of October 31, 2008 had issued and outstanding approximately \$600 million of 11½% Senior Secured Notes (\$594.7, net of discount), \$400 million Senior Subordinated Notes, \$1,515.0 million Senior Notes (\$1,511.1 million, net of discount), and had zero drawn under the Amended Credit Agreement. The Senior Secured Notes, Senior Subordinated Notes, Senior Notes, and the Amended Credit Agreement are fully and unconditionally guaranteed by the Parent.

In addition to the Parent, each of the wholly-owned subsidiaries of the Parent other than the Subsidiary Issuer (collectively, the "Guarantor Subsidiaries"), with the exception of certain of our financial service subsidiaries and joint ventures (collectively, the "Non-Guarantor Subsidiaries"), have guaranteed fully

and unconditionally, on a joint and several basis, the obligations of the Subsidiary Issuer to pay principal and interest under the Senior Secured Notes, Senior Notes, Senior Subordinated Notes and the Amended Credit Agreement.

In lieu of providing separate audited financial statements for the Guarantor Subsidiaries, we have included the accompanying Consolidating Condensed Financial Statements. Management does not believe that separate financial statements of the Guarantor Subsidiaries are material to investors. Therefore, separate financial statements and other disclosures concerning the Guarantor Subsidiaries are not presented.

The following Consolidating Condensed Financial Statements present the results of operations, financial position and cash flows of (i) the Parent (ii) the Subsidiary Issuer (iii) the Guarantor Subsidiaries (iv) the Non-Guarantor Subsidiaries and (v) the eliminations to arrive at the information for Hovnanian Enterprises, Inc. on a consolidated basis.

23. Subsequent Events

At a Special Meeting of stockholders held on December 5, 2008, the approval of the Board of Directors' decision to adopt the Rights Plan was submitted to a stockholder vote and approved. (See Note 3 for further information on the Rights Plan.)

Also at the Special Meeting on December 5, 2008, our stockholders approved an amendment to our Certificate of Incorporation to restrict certain transfers of Class A Common Stock in order to preserve the tax treatment of our net operating losses carryforwards (NOL) and built-in losses under Section 382 of the Internal Revenue Code (the "Code"). Subject to certain exceptions pertaining to pre-existing 5-percent stockholders and Class B stockholders, the transfer restrictions generally restrict any direct or indirect transfer (such as transfers of our stock that result from the transfer of interests in other entities that own our stock) if the effect would be to: (i) increase the direct or indirect ownership of our stock by any person (or public group) from less than 5% to 5% or more of our common stock; (ii) increase the percentage of our common stock owned directly or indirectly by a person (or public group) owning or deemed to own 5% or more of our common stock; or (iii) create a new public group. Transfers included under the transfer restrictions include sales to persons (or public groups) whose resulting percentage ownership (direct or indirect) of common stock would exceed the 5% thresholds discussed above, or to persons whose direct or indirect ownership of common stock would by attribution cause another person (or public group) to exceed such threshold.

On December 3, 2008, we issued \$29.3 million 18.0% Senior Secured Notes due 2017 in exchange for \$71.4 million of our unsecured senior notes as follows: \$0.5 million aggregate principal amount of the 8% Senior Notes due 2012, \$12.0 million aggregate principal amount of the 6½% Senior Notes due 2014, \$1.1 million aggregate principal amount of the 6¾%

Senior Notes due 2014, \$3.3 million aggregate principal amount of the 6¼% Senior Notes due 2015, \$24.8 million aggregate principal amount of the 7½% Senior Notes due 2016, \$28.7 million aggregate principal amount of the 6¼% Senior Notes due 2016 and \$1.0 million aggregate principal amount of the 8½% Senior Notes due 2017. The notes are secured, subject to permitted liens and other exceptions, by a third-priority lien on substantially all of the assets owned by us, K. Hovnanian and the guarantors to the extent such assets secure obligations under the Amended Credit Agreement and the 11½% Senior Secured Notes due 2013. The notes are redeemable in whole or in part at our option at 102% of principal commencing May 1, 2011, 101% of principal commencing November 1, 2011 and 100% of principal commencing November 1, 2012. In addition, we may redeem up to 35% of the aggregate principal amount of the notes before May 1, 2011 with the net cash proceeds from certain equity offerings at 118.0% of principal. If we determine we are able to account for the transaction under the substantial modifications of the debt treatment prescribed by EITF 96-19, we will recognize a gain on the extinguishment of the applicable issue of unsecured senior notes at issuance of the new 18.0% Senior Secured Notes issued in exchange therefore and a reduction in notes payable total of \$42.1 million before expenses associated with the transaction. If however, we determine we are required to account for this transaction under SFAS 15 "Accounting by Debtors and Creditors for Troubled Debt Restructurings" and EITF 02-4 "Determining Whether a Debtor's Modification or Exchange of Debt Instruments is within the Scope of SFAS 15" then we will not recognize a gain or a reduction in notes payable, but instead we would reduce our notes payable balance through the effective interest rate method to the face amount of the newly issued notes over the new notes term to maturity.

Hovnanian Enterprises, Inc.
Form 10-K

CERTIFICATIONS

I, Ara K. Hovnanian, President and Chief Executive Officer of Hovnanian Enterprises, Inc., certify that:

1. I have reviewed this Annual Report on Form 10-K of Hovnanian Enterprises, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Comparison of Five-Year Cumulative Total Return*

Among Hovnanian Enterprises, Inc., The S&P 500 Index and The S&P Homebuilding Index

The following graph compares on a cumulative basis the yearly percentage change over the five-year period ended October 31, 2008 in (i) the total shareholder return on the Class A Common Stock of the Company with (ii) the total return of the Standard & Poor's (S&P) 500 Index and with (iii) the total return on the S&P Homebuilding Index. Such yearly percentage change has been measured by dividing (i) the sum of (a) the cumulative amount of dividends for the measurement period, assuming dividend reinvestment, and (b) the price per share at the end of the measurement period less the price per share at the beginning of the measurement period, by (ii) the price per share at the beginning of the measurement period. The price of each unit has been set at \$100 on October 31, 2003 for the preparation of the five year graph.

Note: The stock price performance shown on the following graph is not necessarily indicative of future stock performance.

* \$100 invested on 10/31/03 in Class A Common Stock of the Company or S&P index—including reinvestment of dividends. Fiscal year ending October 31.
